TRISTAR DYNAMIC SIMULATOR

REMOVAL INFORMATION

- The removal of the Tristar simulator will require dismantling of a wall within the building within which it is currently housed.
- The wall will then need to be reinstated.
- Following removal of the simulator and associated training equipment the building hazards are to be left As Low As Reasonably Practical (ALARP) as the building space will be reused as an office/storage space as it becomes available.
- The UK Health and Safety Construction (Design and Management) Regulations 2007 will therefore apply and must be adhered to in this disposal process.
