

Annual spending on climate funding since 2011

“1) An analysis of expenditure annually since 2011 on climate funding, and projected till 2020. Please provide in real prices, or state assumed inflation factors.

2) Analyse the above into Dfid expenditure, DECC, DEFRA, private finance, and any other sources.”

The Department for International Development (DFID) hold some information within the scope of your request. The UK government’s climate expenditure under the [International Climate Fund](#) (ICF) is set out in the table below. Please note, expenditure includes both spend and the deposit of legally binding Promissory Notes. DFID does not hold a breakdown of the projected spend from 2016-17.

Department	2011-12 (£m)	2012-13 (£m)	2013-14 (£m)	2014-15 (£m)	2015-16 (£m) (estimated)
DFID	252	312	355	677	804
Department of Energy & Climate Change	138	241	403	218	329
Department for Environment, Food & Rural Affairs	10	20	30	40	40
Total	400	573	788	935	1,173
