## 1. Introduction

## The Longitudinal Small Business Survey (LSBS)

This report details the sampling and methodology of the LSBS, a large-scale telephone (CATI ${ }^{1}$ ) survey of 15,502 UK small business owners and managers, commissioned by the Department for Business, Innovation and Skills (BIS). This survey is the latest in a series of annual and biennial Small Business Surveys dating back to 2003. The Year One (2015) survey on this occasion was conducted between July 2015 and January 2016 by BMG Research Ltd. All interviews with employers were concluded in 2015.

The Year One LSBS is the largest SBS yet undertaken. The main reason for this is to allow the survey to have a longitudinal tracking element, establishing a 'panel' or businesses that will be re-surveyed in subsequent years. This will allow a detailed analysis of how combinations of factors affect business performance. All panels have an element of attrition, hence the need for a large sample size in Year One which should result in a robust sample size for the Year Four and Five analyses.

All interviews were conducted with owner/proprietors, Managing Directors or other senior directors in UK-based enterprises. Interviewers were not given named contacts, and needed to screen to find an appropriate respondent. The average interview length was 30 minutes.

Reports on the findings from LSBS are published separately. They comprise a separate report based on SME employers, and a report based on businesses with no employees.

[^0]
## 2. Overview of survey method

## Questionnaire design

A review of the 2014 questionnaire was undertaken through consultations with stakeholders before the 2015 survey. This resulted in a substantial number of alterations to questions that existed in the 2014 SBS, new question additions and deletions. The changes necessarily reflected the need to balance a desire to meet stakeholders' emergent needs with the longitudinal tracking objective. The consultation was followed up by an extensive round of 15 cognitive tests and a 'live' pilot of 100 interviews of the adjusted 2015 questionnaire.

## Sample stratification targets

BIS commissioned 15,500 CATI interviews for the LSBS 2015 survey distributed in proportion to the small business populations of the UK nations. Within in this, the number of interviews in Northern Ireland was boosted slightly in order to generate a total sample size of 500 in this nation.

In accordance with ONS ${ }^{2}$ guidelines, no quotas were enforced the interviewing stage, other than on overall target, the number of interviews in Northern Ireland, and the number of IDBR and Dun \& Bradstreet sourced interviews (see below).

The sample was stratified within each of the four UK nations. Targets were set according to the size of enterprises and, within those targets, for sector (SIC 2007). For registered businesses with between zero and four employees, an additional strata on legal status (companies vs. non companies) was set. The targets by employment size were as follows:

- 12 per cent of interviews with unregistered businesses with zero employees.
- 11 per cent of interviews with registered businesses with zero employees that were companies.
- Five per cent of interviews with registered businesses with zero employees that were not companies.
- Ten per cent of interviews with registered micro businesses with between one and four employees that were companies.
- Seven per cent of interviews with registered micro businesses with between one and four employees that were not companies.
- Nine per cent of interviews with registered micro businesses with between five and nine employees.

[^1]- 26 per cent of interviews with registered small businesses with between ten and 49 employees.
- 20 per cent of interviews with registered medium-sized businesses with between 50 and 249 employees.

As has been the case in previous SBS's, the reason for selecting these targets for these size bands was because they are broadly in line with the proportion of total employment and turnover among SMEs ${ }^{3}$.

Although the targets over-represented businesses with five to 249 employees substantially in comparison to their actual numbers within the business population, the proportion of targeted businesses with zero employees ( 28 per cent) was greater than was the case in previous SBS surveys (17 per cent).

## Sampling stratification strategy

For registered businesses, the Inter Departmental Business Register (IDBR) was used as the sample source. For unregistered businesses with zero employees, Dun \& Bradstreet's database was used. Dun \& Bradstreet contacts were screened out if it was found that they either had employees on their payroll or paid VAT, as these businesses would have been on the IDBR.

This sampling method differed from previous SBSs. In the 2014 survey the IDBR was used for the first time to target employers, but not registered businesses with zero employees. In 2014, there was no screening out of Dun \& Bradstreet-sourced businesses that were found to have employees. Nor was there screening out of IDBR-sourced businesses that were found to have no employees.

The IDBR is a record of all UK enterprises that pay VAT or PAYE. As such it has around 2.3 million entries, compared with the estimate from BIS' Business Population Estimates (BPE), that there are around 5.4 million enterprises in the UK. The difference in the figures is explained by the number of unregistered enterprises that do not pay VAT or PAYE, estimates of which are derived from other sources. This is the reason why Dun \& Bradstreet was retained as the source for businesses with no employees, as it is one of the best sources for businesses not included in the IDBR.

The IDBR contains very few telephone numbers and for many businesses in the sample these needed to be identified, by a combination of automated tele-matching and internet searches. Inevitably, a lower proportion of numbers were found for very small micro businesses (with 0-4 employees) compared with businesses with 5 or more employees. Where numbers were found for the 0-4 employee enterprises, these were more likely to

[^2]have particular characteristics, such as being companies as opposed to sole traders and being more likely to be businesses that advertise themselves via the internet. This is why the sampling stratification in 2015 took care to adequately represent the non-companies in the 0-4 employee category within the IDBR.

A 448-cell sample stratification matrix was devised, the targets within each cell informed by the 2014 BPE. These cells were as follows:

- Fourteen ‘one digit’ SIC 2007 categories (ABDE, C, F, G, H, I, J, KL, M, N, P, Q, R, S);
- Multiplied by eight ‘size by legal status’ categories (unregistered zero employees, registered zero employee companies, registered zero employee other, 1-4 employees companies, 1-4 employees other, 5-9 employees, 10-49 employees, 50249 employees) $=112$;
- Multiplied by four nations (England, Scotland, Wales, Northern Ireland).

Once the sample was drawn, informed by differential likely telematching success rates for each cell (based upon experience from the 2014 survey), no quotas were employed on size, sector or any other criteria except for country.

## Sampling and telematching process - IDBR sample

The IDBR consists of all UK registered businesses and is compiled from the following sources:

- HMRC traders registered for VAT purposes
- HMRC employers operating a PAYE scheme
- Incorporated businesses registered at Companies House
- Department for Environment, Food and Rural Affairs (Defra) registered farms
- Department of Finance and Personnel, Northern Ireland (DFPNI) registered businesses

Procedures for stratifying and telematching the IDBR sample were as follows:

1) On receipt of the IDBR sample, the following types of enterprises were initially excluded from the dataset:

- Those indicated to have 250 or more employees;
- Those indicated to have a legal status of 'PC/Nat Industry, Central Government and Local Authority';
- Those indicated to have zero employees and zero employment (e.g.dormant businesses, holding companies);
- Records listed as 'the trustees of...' (not businesses, no contact details as these are collections of individuals).

2) Companies with no employees are counted by the IDBR as having one employee (the working proprietor), whereas businesses with no employees and other legal statuses are counted as having no employees. Therefore, for the purpose of our survey, companies listed as having one employee were counted in the zero employee category.
3) The sample was sorted by postcode within legal status (company vs. other), within one digit SIC, within sizebands (zero employees, 1-4 employees, 5-9 employees, 10-49 employees, 50-249 employees), within nation.
4) Using pre-set targets within each sample stratification cell for 'initial sample drawn', the sample was drawn on a ' 1 in n' basis.
5) The inclusion of postcodes as a sorting criterion helped to avoid 'duplicate' records ${ }^{4}$ among those selected. To cope with remaining duplication, de-duplication occurred on the following:

- Where part of a larger enterprise group (indicated by the reference 'EnterpriseGrp_Wowref';
- Business name;
- Telephone number. Initially this could only be for the IDBR-supplied telephone number. At later stages telephone number de-duplication also occurred for automated and manual matched numbers.

6) A target was set for 'sample drawn with telephone numbers' within each sample stratification cell. The remaining records sampled (after de-duplication, and excluding records already containing a telephone number) were 'auto-telematched'. This process involved using a variety of telephone look-up agencies that held records of business telephone numbers.

[^3]7) For records still lacking telephone numbers, manual telephone matching was used. This involved internet searches to find telephone numbers.
8) The process described above at points 4-8 was repeated until targets for 'sample drawn with telephone numbers' were reached.

Overall, 141,273 records were sampled in order to produce 72,338 records with telephone numbers that could be used for the survey. This represented a matching rate of 58.1 per cent, with the match rate being higher the larger the SME. Full details on matching rates are given in the next section of this report.

## Sampling process - Dun \& Bradstreet sample (unregistered zero employees)

The objective was to obtain a representative sample of unregistered zero employee businesses. In this case 'registered' businesses are those that are contained in the IDBR.

Records were supplied by Dun \& Bradstreet. All records ordered were presumed to have no employees. Those marked as being registered companies were excluded, as in theory these would appear in the IDBR. All contained telephone numbers.

Targets were set by sector (at the one digit SIC 2007 level), within country.
Enterprises that agreed to interview were screened to ensure that: (a) they were not registered for VAT; and (b) that they did not have employees on their pay roll. If they were VAT registered or had employees, it was assumed they would be contained within the IDBR, and therefore they were screened out of the survey.

Because of a relatively high screen out rate (17 per cent of all contacts, 64 per cent of those that started an interview), a total of 21,481 contacts were loaded in order to achieve 1,882 interviews.

Dun \& Bradstreet's UK Trading File contains 2.8 million businesses. It is not absolutely clear how these are populated (a mix of Companies House data, annual accounts returns, trade directories and other sources), but suffice to say that Dun \& Bradstreet does have contact details for unregistered zero employee non-VAT paying businesses that are not included in the IDBR, although it is probable that these are not fully representative of those business identified in the LFS ${ }^{5}$.

## Response rate

Of all contacts with telephone numbers where interviews were attempted (i.e. the contacts loaded into the CATI system), the overall response rate for IDBR contacts was 19 per

[^4]cent, and nine per cent for Dun \& Bradstreet contacts. Full details of outcomes are given in the next section of this report.

## Weighting

Although the sample stratification was based on the 2014 BPE, the survey findings were weighted to the 2015 BPE which had become available at the end of fieldwork. The 2015 BPE was used for weighting as it more properly represented the IDBR contacts used for the survey, as well as providing a more up-to-date picture of UK small businesses than the 2014 BPE.

The issue of employment size band slippage was an issue in the weighting, as some businesses thought to have employees turned out not to and vice-versa, and this could have affected performance figures for the zero employees (on account of a higher proportion of employers having been sampled). To counter this design weights were calculated for each of the 448 strata in addition to the post strata weights, and the two sets of weights multiplied together for each individual record. Thus a new set of weights was created that represents the SME population according to BPE 2015 targets, yet also took into account the design effect of differential sampling stratification. This was the first SBS in which such an exercise had occurred.

## Size band slippage

As was anticipated, there was some slippage between employment size bands. Employment levels can change seasonally, particularly by just one or two employees (casual employees being counted among the workforce in the SBS definition). Therefore, a number of IDBR records flagged as employers were recorded in the survey in the 'no employees' group and vice versa.

Overall, 67 per cent of IDBR contacts ended up in the size band they were supposed to be in (i.e. zero employees, 1-4 employees, 5-9 employees, 10-49 employees, 50-249 employees). This rate was lowest for those supposed to have 1-4 employees (43 per cent), and highest for those supposed to have 50-249 employees (84 per cent). Full details of size band slippages are given in the next section of this report.

Size band slippage was not an issue for the Dun \& Bradstreet contacts because of the screening that occurred.

## Young businesses

Due to the large number of cells in the sample stratification, the survey was not stratified by age of business. This resulted in an under-representation of young businesses aged 0 1 years, as both the IDBR and Dun \& Bradstreet have very few of these businesses in their databases with telephone numbers.

## Comparability with previous SBS surveys

The changes made to the 2015 survey in terms of sampling and questionnaire design mean that there are limitations on the time series comparisons that can be made. These are only presented where the changes are unlikely to have made a material difference on comparability over time.

## 3. Detailed analysis

## Targets vs. achieved interviews

The table below shows the number of targeted interviews (15,500 in total, 13,604 from IDBR, 1,896 from Dun \& Bradstreet), and the number of interviews achieved (15,502 in total, 13,620 from IDBR, 1,882 from Dun \& Bradstreet).

By sizeband, targets were exceeded for micros ( 74 more than targeted) and small businesses ( 36 more than targeted), and targets were not quite reached for zero employee ( 23 less than target) and medium-sized businesses ( 85 less than target).

Table 2.1: Targets vs. achieved interviews - by employment size

| Detailed size x legal status | Target | Achieved | Difference |
| :--- | :---: | :---: | :---: |
| Zero Unregistered (DnB) | 1,896 | 1,882 | $-14(-1 \%)$ |
| Zero registered companies | 1,702 | 1,697 | $-5(=)$ |
| Zero registered other | 780 | 776 | $-4(-1 \%)$ |
| $1-4$ companies | 1,547 | 1,701 | $+154(+10 \%)$ |
| $1-4$ other | 1,087 | 925 | $-162(-15 \%)$ |
| $5-9$ employees | 1,394 | 1,476 | $+82(+6 \%)$ |
| $10-49$ employees | 4,030 | 4,066 | $+36(+1 \%)$ |
| $50-249$ employees | 3,064 | 2,979 | $-85(-3 \%)$ |
| Broad size band | Target | Achieved | Difference |
| Zero employees | 4,378 | 4,355 | $-23(-1 \%)$ |
| Micros (1-9) | 4,028 | 4,102 | $+74(+2 \%)$ |
| Small (10-49) | 4,030 | 4,066 | $+36(+1 \%)$ |
| Medium (50-249) | 3,064 | 2,979 | $-85(-3 \%)$ |
| Total | $\mathbf{1 5 , 5 0 0}$ | $\mathbf{1 5 , 5 0 2}$ | $\mathbf{+ 2}(=)$ |
| Total IDBR | $\mathbf{1 3 , 6 0 4}$ | $\mathbf{1 3 , 6 2 0}$ | $\mathbf{+ 1 6 ~ ( = )}$ |

No quotas were employed in the survey (other than on overall sample size and in Northern Ireland). The main reasons for not achieving targets were sizeband slippage/screening out (e.g. a higher than average proportion of mediums turned out to have 250+ employees), and a higher proportion of unobtainable numbers occurring in certain groups, e.g. for those with 1-4 employees that were not companies.

The table below shows targeted and achieved interviews by sector and nation.

Table 2.2: Targets vs. achieved interviews - by sector and nation

| Sector (SIC 2007) | Target | Achieved | Difference |
| :--- | :---: | :---: | :---: |
| ABDE Primary | 699 | 577 | $-122(-17 \%)$ |
| C Manufacturing | 1,443 | 1,456 | $13(+1 \%)$ |
| F Construction | 1,694 | 1,497 | $-197(-12 \%)$ |
| G Wholesale/Retail | 2,346 | 2,240 | $-106(-5 \%)$ |
| H Transport/Storage | 618 | 560 | $-58(-9 \%)$ |
| I Accommodation/Food | 1,222 | 1,058 | $-164(-13 \%)$ |
| J Information/Communication | 900 | 872 | $-28(-3 \%)$ |
| KL Financial/Real Estate | 642 | 613 | $-29(-5 \%)$ |
| M Professional/Scientific | 2,069 | 2,244 | $175(+8 \%)$ |
| N Administrative/Support | 1,322 | 1,129 | $-193(-15 \%)$ |
| P Education | 368 | 668 | $300(+81 \%)$ |
| Q Health/Social Work | 1,157 | 1,401 | $244(+21 \%)$ |
| R Arts/Entertainment | 412 | 478 | $66(+16 \%)$ |
| S Other Service | 607 | 709 | $102(+17 \%)$ |
| Nation | Target | Achieved | Difference |
| England | 13,409 | 13,403 | $-6(=)$ |
| Wales | 502 | 504 | $2(=)$ |
| Scotland | 1,089 | 1,095 | $6(+1 \%)$ |
| Northern Ireland | $\mathbf{5 0 0}$ | 500 | $0(=)$ |
| Total | $\mathbf{1 5 , 5 0 0}$ | $(=)$ |  |

Targets were exceeded in sector $\mathrm{C}, \mathrm{M}, \mathrm{P}, \mathrm{Q}, \mathrm{R}$ and S , but were not achieved in sectors ABDE, F, G, J, KL, and $N$. The main reasons for not achieving targets was differential response bias by sector, with some sectors being more able or willing to take part in the survey. There was also a significant amount of sector slippage, with businesses not being in the same sector as that indicated in IDBR and Dun \& Bradstreet contacts.

All imbalances in sector profiles were corrected through the weighting process.

## Duplicates in the IDBR

This refers to the proportion of IDBR records sampled that were found to be 'duplicates', either because they were businesses that belonged to a larger enterprise group, or because there was duplication on business name or by telephone number. In the IDBR and in official counts, these are counted as separate enterprises.

The overall proportion of duplicates found among those sampled was 12 per cent. There was some variation by employee size band as the following table demonstrates.

Table 2.3: Duplicates (IDBR only) - by employment size

| Detailed size band | Numbers <br> sampled | Duplicates <br> found | \% Duplicates | Available <br> sample |
| :--- | :---: | :---: | :---: | :---: |
| Registered zero employees | 49,654 | 6,014 | $12.1 \%$ | 43,640 |
| Micro 1-4 employees | 34,437 | 5,659 | $16.4 \%$ | 28,778 |
| Micro 5-9 employees | 13,938 | 2,245 | $16.1 \%$ | 11,693 |
| (All micros 1-9 employees) | $(48,375)$ | $(7,904)$ | $(16.3 \%)$ | $(40,471)$ |
| Small 10-49 employees | 34,346 | 1,967 | $5.7 \%$ | 32,379 |
| Medium 50-249 employees | 8,898 | 852 | $9.6 \%$ | 8,046 |
| Total | $\mathbf{1 4 1 , 2 7 3}$ | $\mathbf{1 6 , 7 3 7}$ | $\mathbf{1 1 . 8 \%}$ | $\mathbf{1 2 4 , 5 3 6}$ |

Duplicates were most common in the micro business sizeband category.

## Telematching the IDBR

After de-duplication, a total of 124,536 IDBR records were made available for the next stage of telematching (see column A in table below).

Table 2.4: Telematching (IDBR only) - by employment size

|  | A | B | C | D | E | F | G | H | I | J |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Size band | All | Number on IDBR | \% all | Auto Telematch | \% all | Manual match | \% all | No match found | Total number found | \% all |
| Zero | 43,640 | 1,753 | 4\% | 8,959 | 21\% | 1,993 | 5\% | 30,935 | 12,705 | 29\% |
| One to 4 | 28,778 | 2,205 | 8\% | 10,719 | 37\% | 1,956 | 7\% | 13,898 | 14,880 | 52\% |
| Five to 9 | 11,693 | 1,662 | 14\% | 6,969 | 60\% | 705 | 6\% | 2,357 | 9,336 | 80\% |
| Ten to 49 | 32,379 | 12,850 | 40\% | 12,916 | 40\% | 1,609 | 5\% | 5,004 | 27,375 | 85\% |
| 50 to 249 | 8,046 | 4,968 | 62\% | 1,836 | 23\% | 1,238 | 15\% | 4 | 8,042 | 100\% |
| Age | A | B | C | D | E | F | G | H | I | J |
| 0-1 years | 19,113 | 497 | 3\% | 3,804 | 20\% | 408 | 2\% | 14,404 | 4,709 | 25\% |
| 2-5 years | 26,236 | 2,431 | 9\% | 8,166 | 31\% | 994 | 4\% | 14,645 | 11,591 | 44\% |
| 6-10 years | 20,554 | 3,319 | 16\% | 7,599 | 37\% | 1,296 | 6\% | 8,340 | 12,214 | 59\% |
| 11-15 years | 15,324 | 3,411 | 22\% | 6,034 | 39\% | 1,193 | 8\% | 4,686 | 10,638 | 69\% |
| 16-20 years | 10,908 | 2,996 | 27\% | 4,189 | 38\% | 932 | 9\% | 2,791 | 8,117 | 74\% |
| 21+ years | 32,401 | 10,784 | 33\% | 11,607 | 36\% | 2,678 | 8\% | 7,332 | 25,069 | 77\% |
| Total | 124,536 | 23,438 | 19\% | 41,399 | 33\% | 7,501 | 6\% | 52,198 | 72,338 | 58\% |

In total, these IDBR records sampled already contained 23,428 telephone number (19 per cent of all available records). By size, this was much more likely to be the case for medium-sized businesses ( 62 per cent), and much less likely for those indicated to have no employees (four per cent). There was also a strong correlation by age of business, with only three per cent of businesses aged 0-1 years having numbers on the IDBR, and only
nine per cent of businesses aged 2-5 years, compared with 33 per cent of those aged 21 years or more (see columns B-C in table above).

There was some correlation between size and age here, with older SMEs tending to be larger and therefore being more likely to have IDBR-supplied numbers. Even so, only 18 per cent of businesses indicated to be medium-sized and 0-1 years old had IDBR-supplied numbers (and eight per cent of small businesses aged 0-1 years).

The second stage of telematching was to use auto-matching. This process involved using a variety of telephone look-up agencies that held records of business telephone numbers.

This method matched a further 41,399 numbers (33 per cent of all available). The process was once again less likely than average to be successful for zero employee businesses ( 21 per cent of all available matched) and those aged 0-1 years ( 20 per cent matched). See columns C-D in the table above.

The next stage was to attempt to manually match numbers. This involved internet searches. In total, a further 7,501 records were matched (six per cent of those available). The matching rate was again lower than average for those businesses aged 0-1 years (two per cent). See columns F-G in the table above.

Overall, 72,388 records were matched via this three stage process ( 58 per cent). There was a great deal of variance by size and age of business. Only twenty-nine per cent of zero employee records were matched, 52 per cent of those with 1-4 employees, 80 per cent of those with 5-9 employees, 85 per cent of small businesses, and 100 per cent (all but four records) of medium-sized businesses.

Seventy-seven per cent of businesses aged 21 years or more were matched, compared to just 25 per cent of those aged 0-1 years.

## Sizeband slippage - by employment size

Respondents in LSBS Year 1 were asked how many employees were currently on their payroll in the UK (at the time of interview), excluding owners and partners, across all sites. This figure included temporary staff/casuals, but not agency staff. The self-employed were also excluded.

Sizeband slippage refers to interviews that did not end up in the same size band that the IDBR indicated they should belong to. The table below shows this for the IDBR by employment size.

Table 2.5: Sizeband slippage (IDBR only) - by employment size

| Sizeband as indicated by IDBR | Total <br> inter- <br> viewed | Found to <br> be in <br> indicated <br> size band | Row \% | Found to <br> be in <br> different <br> size band | Row \% |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Registered zero employees | 2,689 | 1,708 | $64 \%$ | 981 | $36 \%$ |
| Micro 1-4 employees | 2,272 | 1,310 | $58 \%$ | 962 | $42 \%$ |
| Micro 5-9 employees | 1,278 | 546 | $43 \%$ | 732 | $57 \%$ |
| (All micros 1-9 employees) | $(3,550)$ | $(1,856)$ | $(52 \%)$ | $(1,694)$ | $48 \%$ |
| Small 10-49 employees | 4,590 | 3,186 | $69 \%$ | 1,404 | $31 \%$ |
| Medium 50-249 employees | 2,791 | 2,336 | $84 \%$ | 455 | $16 \%$ |
| Total | $\mathbf{1 3 , 6 2 0}$ | $\mathbf{9 , 0 8 6}$ | $\mathbf{6 7 \%}$ | $\mathbf{4 , 5 3 4}$ | $\mathbf{3 3 \%}$ |

Sizeband slippage was mainly into neighbouring categories e.g. those with 5-9 employees were most likely to have ended up in the 1-4 or 10-49 categories.

The reason for sizeband slippage is partly due to the time lag between the data capture of employment figures and the LSBS survey itself (the version of the IDBR used in LSBS Year 1 was compiled in May 2015, but its employment data may have been captured more than one year previously) and partly down to other factors around the compilation of IDBR.

## Sector slippage - by sector (SIC 2007)

Both the IDBR and Dun \& Bradstreet's database contain Standard Industrial Classification (SIC 2007, 4-digit level) codes that give an indication of a business's sector. These codes are matched to descriptions that classify a business's principal activity. In LSBS Year 1 these were read out to respondents, and they agreed or disagreed that this described their main activity. If they disagreed, they were asked to describe their principal activity. These open verbatim answers were then processed by BMG coders, and SIC codes allocated.

Sector slippage is where, after this process, a business ends up in a different SIC category at the 'one-digit' level. This excludes movement into a different SIC category within the one digit level. The table below shows the proportion of interviewed businesses, for both the IDBR and Dun \& Bradstreet samples, which remained within their one digit SIC category:

Table 2.6: Sector slippage - by SIC (2007)

| Sector as indicated in the | Total <br> inter- <br> sample | Found <br> to be in <br> indi- <br> cated <br> sector | Row \% | Total <br> inter- <br> viewed | Found <br> to be in <br> indi- <br> cated <br> sector | Row \%Com- <br> bined \% <br> found to <br> be in <br> indi- <br> cated <br> sector |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| ABDE Primary | 594 | 525 | $88 \%$ | 10 | 6 | $60 \%$ | $88 \%$ |
| C Manufacturing | 1,283 | 1,204 | $94 \%$ | 91 | 68 | $75 \%$ | $93 \%$ |
| F Construction | 1,097 | 1,010 | $92 \%$ | 394 | 377 | $96 \%$ | $93 \%$ |
| G Wholesale/Retail | 2,149 | 1,957 | $91 \%$ | 129 | 118 | $91 \%$ | $91 \%$ |
| H Transport/Storage | 443 | 408 | $92 \%$ | 118 | 114 | $97 \%$ | $93 \%$ |
| I Accommodation/Food | 1,049 | 986 | $94 \%$ | 38 | 38 | $100 \%$ | $94 \%$ |
| J Information/ <br> Communication | 783 | 708 | $90 \%$ | 64 | 55 | $86 \%$ | $90 \%$ |
| KL Financial/Real Estate | 547 | 485 | $89 \%$ | 42 | 40 | $95 \%$ | $89 \%$ |
| M Professional/Scientific | 1,998 | 1,810 | $91 \%$ | 232 | 219 | $94 \%$ | $91 \%$ |
| N Administrative/Support | 1,108 | 925 | $83 \%$ | 136 | 101 | $74 \%$ | $82 \%$ |
| P Education | 413 | 390 | $94 \%$ | 166 | 160 | $96 \%$ | $95 \%$ |
| Q Health/Social Work | 1,288 | 1,170 | $91 \%$ | 166 | 153 | $92 \%$ | $91 \%$ |
| R Arts/Entertainment | 330 | 292 | $88 \%$ | 137 | 120 | $88 \%$ | $88 \%$ |
| S Other Service | 538 | 432 | $80 \%$ | 159 | 148 | $93 \%$ | $83 \%$ |
| Total | 13,620 | 12,302 | $90 \%$ | $\mathbf{1 , 8 8 2}$ | $\mathbf{1 , 7 1 7}$ | $\mathbf{9 1 \%}$ | $\mathbf{9 0 \%}$ |

Overall, 90 per cent of the interviews sourced from IDBR, and 91 per cent of the interviews sourced from Dun \& Bradstreet ended up in their indicated sectors (overall 90 per cent).

There was some variation between sectors. The proportion in administrative/support services ( $N-82$ per cent), and other services ( $S-83$ per cent) that ended up in their indicatory sectors was below average.

## Response rates - IDBR

As noted above, 72,388 IDBR contacts were loaded into CATI, and out of these 13,620 interviews were achieved, a response rate of 18.8 per cent based on all records loaded, but 60.3 per cent of all contacted ${ }^{6}$.

The majority of contacts still left at the end of fieldwork were 'ring backs', i.e. records where an interview might have been agreed to or refused, but where it had not been

[^5]possible to pin down an eligible respondent to a time or date for interview. Most of these were calls where answer phones were continually encountered.

Table 2.7: Response rates - IDBR

|  | IDBR - All <br> contacts loaded | \% of contacted | \% of loaded |
| :--- | :---: | :---: | :---: |
| Completed | $\mathbf{1 3 , 6 2 0}$ | $\mathbf{6 0 . 3 \%}$ | $\mathbf{1 8 . 8 \%}$ |
| Appointments | 873 | $3.9 \%$ | $1.2 \%$ |
| Quits | 540 | $2.4 \%$ | $0.7 \%$ |
| Refusals | 6,325 | $28.0 \%$ | $8.7 \%$ |
| Not available during fieldwork | 1,218 | $5.4 \%$ | $1.7 \%$ |
| Total contacted | $\mathbf{2 2 , 5 7 6}$ | $\mathbf{1 0 0 . 0 \%}$ | $\mathbf{3 1 . 2 \%}$ |
| Ring backs | 30,972 |  | $42.8 \%$ |
| Screen outs | 1,070 |  | $1.5 \%$ |
| Total live contacts | $\mathbf{5 4 , 6 1 8}$ |  | $\mathbf{7 5 . 5 \%}$ |
| Business no longer trading | 1,537 |  | $2.1 \%$ |
| Wrong number | 7,308 |  | $10.1 \%$ |
| Unobtainable number | 8,925 |  | $\mathbf{1 2 . 3 \%}$ |
| Total loaded | $\mathbf{7 2 , 3 8 8}$ |  | $\mathbf{1 0 0 . 0 \%}$ |

The LSBS Year 1 questionnaire included a screening question to ensure that interviewers were calling the business named in the IDBR, or that it had been called that at some point in the past. This was required as businesses may trade under different names from those listed in the IDBR, and because the telephone numbers supplied within the IDBR could be those of an external accountancy firm (the contact number used by HMRC for VAT and PAYE queries). This explains the relatively high number of wrong numbers. In the 2014 survey many of these would have fallen into the 'refused' category.

## Response rates - Dun \& Bradstreet

In total, 21,481 contacts sourced from Dun \& Bradstreet were used, in order to gain 1,882 interviews. This was a response rate of 8.8 per cent of all contacts loaded, and 46.2 per cent of all contacted

This latter response rate does not include those that were screened out because they were either registered for VAT, or had employees on their payroll. This proportion was 17.1 per cent of all contacts loaded.

At 4.5 per cent, the refusal rate for the Dun \& Bradstreet contacts was lower than for IDBR contacts.

Table 2.8: Response rates - Dun \& Bradstreet

|  | Dun \& Bradstreet All contacts loaded | \% of contacted | \% of loaded |
| :---: | :---: | :---: | :---: |
| Completed | 1,882 | 46.2\% | 8.8\% |
| Appointments | 30 | 0.7\% | 0.1\% |
| Quits | 192 | 4.7\% | 0.9\% |
| Refusals | 972 | 23.9\% | 4.5\% |
| Not available during fieldwork | 994 | 24.4\% | 4.6\% |
| Total contacted | 4,070 | 100.0\% | 18.9\% |
| Ring backs | 8,761 |  | 40.8\% |
| Screen outs | 3,670 |  | 17.1\% |
| Total live contacts | 16,501 |  | 76.8\% |
| Business no longer trading | 1,152 |  | 5.4\% |
| Wrong number | 1,970 |  | 9.2\% |
| Unobtainable number | 1,858 |  | 8.6\% |
| Total loaded | 21,481 |  | 100.0\% |

## Weighting

As described earlier in this report, although the sample stratification was based on the 2014 BPE, the survey findings were weighted to the 2015 BPE which had become available at the end of fieldwork. The 2015 BPE was used for weighting as it more properly represented the IDBR contacts used for the survey, as well as providing a more up-to-date picture of UK small businesses than the 2014 BPE.

Because of the issue of employment size band slippage, design weights were calculated for each of the 448 strata in addition to the post strata weights, and the two sets of weights multiplied together for each individual record. Thus a new set of weights was created that represents the SME population according to BPE 2015 targets, yet also took into account the design effect of differential sampling stratification. This was the first SBS in which such an exercise had occurred.

Because of the over-sampling of employer businesses, businesses with no employees, and the unregistered zero employee enterprises in particularly, have relatively high weights compared to SME employers, when analysing at the all SME level. This is the main reason why there are separate reports for SME employers and businesses with no employees.

Cell weighting occurred within each of the 448 strata (legal status within size band within sector within nation). The tables below show the proportions of the whole all-SME achieved sample that fell into each cell, unweighted (UW) and weighted (W). For ease of understanding, these are shown at the all UK level, rather than individually within nation:

Table 2.9: Weighted and unweighted proportions of all SME interviews - zero employee categories only (all UK)

|  | Zero un | stered | Zero com | stered nies | Zero reg lega | ed other uses |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | UW | W | UW | W | UW | W |
| ABDE - Primary | 0.06\% | 0.46\% | 0.27\% | 0.13\% | 1.25\% | 1.67\% |
| C - Manufacturing | 0.56\% | 2.71\% | 0.46\% | 0.55\% | 0.18\% | 0.22\% |
| F - Construction | 2.53\% | 12.50\% | 1.25\% | 1.63\% | 0.69\% | 0.77\% |
| G - Wholesale/ Retail | 0.88\% | 2.92\% | 1.29\% | 1.36\% | 0.74\% | 0.92\% |
| H - Transport/ Storage | 0.74\% | 3.60\% | 0.26\% | 0.51\% | 0.29\% | 0.29\% |
| I - Accommodation/ Food | 0.27\% | 0.79\% | 0.12\% | 0.13\% | 0.20\% | 0.10\% |
| J - Information/ Communication | 0.37\% | 2.77\% | 1.62\% | 2.00\% | 0.15\% | 0.17\% |
| KL - Financial/ Real estate | 0.30\% | 1.25\% | 0.57\% | 0.69\% | 0.17\% | 0.44\% |
| M - Professional/ Scientific | 1.61\% | 6.75\% | 3.72\% | 3.86\% | 0.71\% | 0.75\% |
| N - Administrative/ Support | 0.74\% | 4.69\% | 0.70\% | 1.22\% | 0.21\% | 0.33\% |
| P - Education | 1.09\% | 4.39\% | 0.21\% | 0.19\% | 0.03\% | 0.03\% |
| Q - Health/ Social work | 1.02\% | 5.28\% | 0.09\% | 0.33\% | 0.05\% | 0.11\% |
| R - Arts/ Entertainment | 0.85\% | 4.00\% | 0.15\% | 0.25\% | 0.12\% | 0.27\% |
| S - Other service | 1.13\% | 4.35\% | 0.23\% | 0.19\% | 0.21\% | 0.17\% |
| Total | 12.14\% | 56.46\% | 10.95\% | 13.04\% | 5.01\% | 6.26\% |
| Average overall weight | x 4.65 |  | x 1.19 |  | $\times 1.25$ |  |

Overall, 12 per cent of interviews were conducted with unregistered zero employee businesses. However, after weighting, this proportion increased to 57 per cent, giving them an overall average weight of $x 4.65$. For zero registered companies the average overall weight was $\times 1.19$, and for zero registered other legal statuses is was $\times 1.25$.

Table 2.10: Weighted and unweighted proportions of all SME interviews - micro categories only (all UK)

| I - Accommodation/ Food | 2.93\% | 0.52\% | 1.35\% | 0.05\% | 6.82\% | 3.39\% |
| J - Information/ Communication | 1.19\% | 0.16\% | 0.75\% | 0.03\% | 5.63\% | 6.29\% |
| KL - Financial/ Real estate | 0.94\% | 0.15\% | 0.78\% | 0.02\% | 3.95\% | 3.51\% |
| M - Professional/ Scientific | 2.68\% | 0.38\% | 1.63\% | 0.06\% | 14.48\% | 14.72\% |
| N - Administrative/ Support | 1.93\% | 0.28\% | 1.88\% | 0.07\% | 7.28\% | 8.22\% |
| P - Education | 1.06\% | 0.07\% | 1.24\% | 0.01\% | 4.31\% | 4.97\% |
| Q - Health/ Social work | 3.03\% | 0.40\% | 3.76\% | 0.06\% | 9.04\% | 6.89\% |
| R - Arts/ Entertainment | 0.68\% | 0.08\% | 0.68\% | 0.01\% | 3.08\% | 4.98\% |
| S - Other service | 0.99\% | 0.11\% | 0.50\% | 0.01\% | 4.57\% | 5.99\% |
| Total | 26.23\% | 3.78\% | 19.22\% | 0.60\% | 100.00\% | 100.00\% |
| Average overall weight | x 0.14 |  | $\times 0.03$ |  | $\times 1.00$ |  |

Both small and medium-sized businesses are substantially down-weighted in the overall SME dataset, with overall average weights of $\times 0.14$ for the smalls, and $\times 0.03$ for the mediums.

Overall by sector, the highest weights are found in construction ( $x$ 1.84), arts/entertainment ( $x$ 1.62), transport/storage ( $x$ 1.41) and other services ( $x$ 1.31). These are sectors within which there are higher than average proportions of unregistered zero employee businesses. The lowest overall weights are found in accommodation/food service (x 0.5), manufacturing (x 0.54), wholesale/retail (x 0.67) and health/social work (x 0.76). These are the sectors within which there are higher than average proportions of employers.

## Appendix: The questionnaire

Longitudinal Small
Business Survey 2015 version)

PRIVATE \& CONFIDENTIAL

SAMPLE SOURCE

| Dun \& Bradstreet | 2 |

## SCREENER

ASK PERSON ANSWERING PHONE
S1) Good morning/afternoon, can I check that l'm calling [NAME OF BUSINESS].

| Yes | 1 |
| :--- | :--- |
| No | 2 |

ASK IF NO AT S1
S2) Has you business ever been called [NAME OF BUSINESS]? IF YES, RECORD NEW NAME OF BUSINESS

| Yes | 1 | RECORD NEW NAME OF BUSINESS |
| :--- | :---: | :--- |
| No | 2 | THANK AND CLOSE |

ASK TO SPEAK TO OWNER/PROPRIETOR/MD/OTHER SENIOR DECISION MAKER, IF NOT SPEAKING TO THEM ALREADY
(IF TRANSFERRED: Good morning/afternoon), my name is XXX and I'm calling from BMG Research. We are an independent research company and we're doing some work on behalf of...

- (ENGLAND AND WALES) ...the Department for Business, Innovation and Skills (BIS). We are conducting the Small Business Survey, the UK Government's main survey of small businesses.
- (SCOTLAND) ...the Scottish Government. We are conducting the Small Business Survey, the UK's main survey of small businesses.
- (NORTHERN IRELAND) ...Invest NI. We are conducting the Small Business Survey, the UK's main survey of small businesses.
(ALL) I would like to ask your opinion about a range of issues. It will take about 20-30 minutes, depending on your responses.

The results of the survey will be fed back to government and will be used to inform government policy on small business. Is now a convenient time to talk?

ADD IF NECESSARY:

- Your co-operation will ensure that the views expressed are representative of all small businesses
- Whether or not you like the government's actions this is your chance to influence them - everyone's views will be taken into account
- The results will be available early next year and we can email you a link to the report once it is published on BIS's website
- All information collected will be treated in the strictest confidence. Responses will not be attributed to any individual or company. Results will be reported in the form of aggregated statistics.
- We work strictly within the Market Research Society Code of Conduct
- Contact at BMG Research is xxxx if you would like to find out more about the survey (0121 333 6006)
- (ENGLAND AND WALES) Contact at Department for Business, Innovation and Skills is xxxx on xxxx
- (SCOTLAND) Contact at the Scottish Government is xxxx on xxxx
- (NORTHERN IRELAND) Contact at Invest NI is xxxx on $\mathbf{x x x}$
- (IF SAMPLE SOURCE = IDBR) Enterprises have been randomly chosen from the Government's Inter-Departmental Business Register
- (IF SAMPLE SOURCE = DnB) Enterprises have been randomly chosen from Dun \& Bradstreet's commercial database
- Continue 1
- Transfer to another respondent 2
- Refused 3
- Hard appointment 4
- Soft appointment 5
- Dead/unobtainable number 6
- Other (SPECIFY) 7

ASK ALL

Can I just check, are you one of the most senior people in day-to-day control of [NAME OF BUSINESS]?

| Yes | 1 |  |
| :--- | :---: | :--- |
| No/Uncertain | 2 | ASK TO SPEAK TO SENIOR PERSON IN <br> THE ORGANISATION - TRANSFER, SET <br> APPOINTMENT, REFUSED OR OTHER |

ASK DUN \& BRADSTREET SAMPLE ONLY
Before we start, can I just check the following? READ OUT. MULTICODE 1-2

| Are you registered for VAT? | 1 |
| :--- | :---: |
| Do you have any employees on your payroll? | 2 |
| Neither of these | 96 |
| Refused | 98 |

IF S4/1-2, THANK AND CLOSE: Thank you, but we were looking for unregistered businesses with no employees to complete the survey.

ASK ALL
Could I please take your name? RECORD RESPONDENT'S NAME
$\square$

Refused 98

ASK ALL
And can I take your job title please? RECORD RESPONDENT'S JOB TITLE
$\square$

Refused 98

## SECTION A: ABOUT THE BUSINESS

ASK ALL
A0) I would like to ask a number of questions about your business or organisation. Firstly, can I check, are you a registered charity? SINGLE-CODE

| Yes | 1 |
| :--- | :---: |
| No | 2 |
| Don't know | 97 |

IF CHARITY (A0/1) ADD: For the rest of the interview I hope you do not mind if I refer to your charity as a business.

ASK ALL
A1) How many sites in the UK does your business operate from, including your head office?

```
ENTER NUMBER (RANGE=1-9,999)
```

$\qquad$

Don't know / Uncertain ... 97
Refused
ASK ALL IDBR SAMPLE ONLY
A2) Approximately, how many employees are currently on your payroll in the UK, excluding owners and partners, across all sites?

- INCLUDE FULL AND PART TIME
- INCLUDE TEMPORARIES/CASUALS, BUT NOT AGENCY STAFF
- EXCLUDE SELF-EMPLOYED
- EXCLUDE OWNERS/PARTNERS, BUT OTHER DIRECTORS COUNT AS EMPLOYEES

ENTER NUMBER (RANGE=0-99,999)

TO COMPLETE IF FIGURE GIVEN AT A2
A2i) INTERVIEWERS TO RE-ENTER NUMBER OF EMPLOYEES INTO RANGE. DO NOT ASK. SINGLE CODE ONLY

| $0-9$ | 1 |
| :--- | :---: |
| $10-99$ | 2 |
| $100-249$ | 3 |
| 250 or more | 4 |

IF MORE THAN 249 EMPLOYEES, THANK AND CLOSE

A2ADUM CATI TO CODE AUTOMATICALLY TO FOLLOWING BANDS FOR QUOTAS:

| MONITORING QUOTAS |  |  |
| :--- | :---: | :---: |
| None (no employees) - unregistered | 1 | DnB sample |
| None (no employees) - registered | 2 | A2/0 |
| 1-4 employees (Very small micro) | 3 | A2/1-4 |
| 5-9 employees (Larger micro) | 4 | A2/5-9 |
| $10-49$ employees (Small) | 5 | A2/10-49 |
| $50-249$ employees (Medium) | 6 | A2/50-249 |

ASK ALL EXCEPT CHARITIES (I.E. NOT A0/1)
A2a) Including yourself, how many working owners and partners are there [ADD IF 1+ EMPLOYEE AT A2: in addition to the \{NUMBER AT A2\} employees you have just mentioned?] NB: IF ONLY OWNED BY TRUSTEES OR MEMBERS, CODE NOT APPLICABLE

ASK IF SUM AT A2/A2a IS 2+.
A2b) How many of the [SUM OF A2 AND A2a], if any, are temporary or casual staff?

ASK ALL
A2c) And how many, if any, contractor or agency staff or self employed do you have working for you right now that are not on the payroll (ADD IF A CHARITY A0/1: Please include volunteers)?

|  | Enter number | DK | REF | N/A |
| :--- | :---: | :---: | :---: | :---: |
| A2a (owner/partners) |  | 97 | 98 | 99 |
| A2b (temporary/casual) |  | 97 | 98 | - |
| A2c (not on the payroll) |  | 97 | 98 | - |

ASK ALL
A3) I have [READ OUT SECTOR DESCRIPTION FROM SAMPLE] as a general classification of your organisation's principal activity. Bearing in mind this is a general classification only, does this sound about right?

| Yes | 1 |
| :--- | :--- |
| No | 2 |

## ASK IF SECTOR DESCRIPTION NOT CORRECT AT A3

What is the principal activity of your organisation? PROBE AS NECESSARY:

- What is the main product or service of this organisation?
- What exactly is made or done at this organisation?
- What material or machinery does that involve using?

PROBE FULLY. RECORD DETAILS AND CODE BELOW

ASK ALL
What is the legal status of your organisation? (ADD IF A CHARITY S7/1: This is in addition to your charitable status).

DO NOT READ OUT, BUT PROMPT IF NECESSARY. SINGLE CODE ONLY INTERVIEWER NOTE: IF BUSINESS NAME CONTAINS ‘LTD’ OR ‘LIMITED’ THEY ARE USUALLY A LTD. COMPANY (CODE 2). IF 'PRIVATE LIMITED COMPANY' MENTIONED, CHECK WHETHER LIMITED BY SHARES OR BY GUARANTEE. FOR OTHERS RECORD ALL INFORMATION VERBATIM TO ESTABLISH OWNERSHIP. N.B. "CHARITY" IS NOT A LEGAL STATUS)

| None of these | 96 |
| Don't know | 97 |

NO SECTIONS S-T

## SECTION U: END

## ASK ALL

U1) The Department for Business Innovation and Skills (BIS) want to carry out a further survey in about a year's time, to see how your business is progressing. Would you be willing to help with that research? SINGLE-CODE

| Yes | 1 |
| :--- | :---: |
| No | 2 |
| Maybe | 97 |

ASK ALL
U1c) Would you like us to email you a link to the survey report when it is published on the internet early next year?

| Yes | 1 |
| :--- | :--- |
| No | 2 |

ASK IF AGREED TO RECONTACT (U1/1 OR 3)
U1a) Is there an alternative number we might try next year (ADD IF LANDLINE: such as a mobile) in case we can't reach you on this one?

```
ENTER NUMBER TWICE
```

No number 96
Refused 98

ASK IF AGREED TO RECONTACT (U1/1 OR 3) OR WANT AN EMAIL TO REPORT (U1c/1)
U1b) Could I take your email address please? (ADD IF NOT U1c/1: This is so we can give you notice of when the survey takes place next year)

ENTER EMAIL ADDRESS TWICE
ENTER EMAIL ADDRESS TWICE

No email 96
Refused 98

## ASK ALL

U2) Would it be possible for BIS to link your responses to other information that you have provided previously to the Government? By this data linkage, we can reduce the burden of our surveys on your business and can improve the evidence that we use.

ADD IF NECESSARY
Data will only be used to inform research on businesses in aggregate - we will never release information that identifies any individual business - and your survey responses remain strictly confidential. Do you give your consent for us to do this?

| Yes | 1 |
| :--- | :--- |
| No | 2 |

On behalf of the Department for Business, Innovation and Skills/Scottish Government/Invest NI, thank you very much for your time. If you have any queries you can contact xxxx at BMG Research

NO U3-U4

ASK ALL
U5) INTERVIEWER TO RECORD WHETHER THE RESPONDENT IS A MAN OR A WOMAN

| Man | 1 |
| :--- | :--- |
| Woman | 2 |

[^0]:    ${ }^{1}$ Computer Assisted Telephone Interviews.

[^1]:    ${ }^{2}$ Office for National Statistics.

[^2]:    ${ }^{3}$ Businesses with zero employees account for 33 per cent of employment, and 14 per cent of total SME turnover; micros account for 30 per cent of employment, and 25 per cent of turnover; small businesses account for 29 per cent of employment, and 31 per cent of turnover; medium-sized businesses account for 23 per cent of employment, and 31 per cent of turnover. Source = Business Population Estimates 2015. https://www.gov.uk/government/statistics/business-population-estimates-2015.

[^3]:    ${ }^{4}$ These records have separate reference numbers in the IDBR from each other and as such are counted as discreet enterprises. In such cases, a number of companies are typically registered by the same people at the same address, with very similar names. Examples include exporters or importers who create companies for each overseas market they deal with, or property developers who create multiple companies for each separate development. For research purposes these are counted as duplicates, as respondents will give answers that relate to their companies overall, and not the sub-units. For various reasons we cannot interview the same individual more than once about different enterprises, nor more than one representative of an overarching business. Sorting by postcode helps to avoid this duplication, as the duplicate businesses are registered at the same address.

[^4]:    ${ }^{5}$ This is because the unregistered businesses contained in the Dun \& Bradstreet database are likely to be mainly those that appear in trade directories, i.e. they advertise themselves. In the Labour Force Survey, the bulk of unregistered businesses are self-employed individuals that do not appear in trade directories.

[^5]:    ${ }^{6}$ This refers to outcomes of completed interviews, appointments made for interview, terminations (quits) during the interview, those refusing to take part, and those unavailable to take part in the fieldwork period. In addition there were 1,070 that screened out of the questionnaire, primarily because they had 250 or more employees, but also because their English language capability was not sufficient enough to conduct the survey.
