

Department for Business, Energy & Industrial Strategy

The latest provisional monthly energy production, consumption and prices statistics produced by the Department for Business, Energy and Industrial Strategy were released on 28 July 2016.

Energy production and consumption statistics are provided in total and by fuel, and provide an analysis of the latest 3 months data compared to the same period a year earlier. Energy price statistics cover domestic price indices, prices of road fuels and petroleum products and comparisons of international road fuel prices.

Energy production and consumption

Highlights for the 3 month period March to May 2016, compared to the same period a year earlier include:

- Primary energy consumption in the UK on a fuel input basis was broadly unchanged, on a temperature adjusted basis consumption fell by 1.1% continuing the downward trend. (table ET 1.2)
- Indigenous energy production fell by 2.7%, despite increased oil and bioenergy production. (<u>table ET 1.1</u>)
- Electricity generation by Major Power Producers down 1.9%, with coal down 66% but offset by increase in gas up 68%.* (table ET 5.4)
- Gas provided 48.3% of electricity generation by Major Power Producers, with nuclear at 22.2%, renewables at 19.2% and coal at a record low of 10.3%.* (table ET 5.4)
- Wind generation by Major Power Producers down 15.0%, with offshore down 5.5% and onshore down 24%, due to lower average wind speeds.*

 (table ET 5.4)
- Low carbon share of electricity generation by Major Power Producers down 0.9 percentage points to 41.4%, as rise in bioenergy not enough to offset falls in nuclear and wind generation.* (table ET 5.4)

*Major Power Producers (MPPs) data published monthly, all generating companies data published quarterly.

Energy prices

Highlights for July 2016 compared to June 2016:

• Petrol prices up 1.0 pence per litre on month whilst diesel prices up 1.1 pence per litre, these rises reflect the increase in the price of crude oil. (table QEP 4.1.1)

Data periods

Statistics on monthly production and consumption of coal, electricity, gas, oil and total energy include data for the UK for the period up to the end of May 2016.

Statistics on average temperatures, wind speeds, sun hours and rainfall include data for the UK for the period up to the end of June 2016.

Statistics on energy prices include retail price data for the UK for June 2016, and petrol & diesel data for July 2016, with EU comparative data for June 2016.

Next release

The next release of provisional monthly energy statistics will take place on 25 August 2016.

Data tables

To access the data tables associated with this release please click on the relevant subject link(s) below. For further information please use the contact details provided.

Please note that the links below will always direct you to the latest published data tables. If you are interested in historical data tables please contact BEIS (kevin.harris@decc.qsi.gov.uk)

Subject and	Energy production and consumption, and weather data
table number	
<u>Total Energy</u>	Contact: Kevin Harris, Tel: 0300 068 5041
ET 1.1	Indigenous production of primary fuels
ET 1.2	Inland energy consumption: primary fuel input basis
<u>Coal</u>	Contact: Coal statistics, Tel: 0300 068 5050
ET 2.5	Coal production and foreign trade
ET 2.6	Coal consumption and coal stocks
<u>Oil</u>	Contact: Natalie Cartwright, Tel: 0300 068 5260
ET 3.10	Indigenous production, refinery receipts, imports and exports
ET 3.11	Stocks of petroleum
ET 3.12	Refinery throughput and output of petroleum products
ET 3.13	Deliveries of petroleum products for inland consumption
0	Contact Matthews Counts Tel. 0200 040 0444
Gas	Contact: Matthew Curds, Tel: 0300 068 8414
ET 4.2	Natural gas production and supply
ET 4.3	Natural gas imports and exports
ET 4.4	Natural gas imports
Flootricity	Contact: Floatricity statistics, Tal. 0200 0/0 2020
Electricity ET 5.3	Contact: Electricity statistics, Tel: 0300 068 2928
	Fuel used in electricity generation by major producers
ET 5.4	Electricity production and availability from the public supply system
ET 5.5	Availability and consumption of electricity
Weather	Contact: Susan Lomas, Tel: 0300 068 5047
ET 7.1	Average temperatures and deviations from the long term mean
ET 7.2	Average wind speed and deviations from the long term mean
ET 7.3	Average daily sun hours and deviations from the long term mean
ET 7.4	Average monthly rainfall and deviations from the long term mean
-: /.:	The age menting running and deviations from the long term mean
