

SIGNIFICANT* OFFSHORE DISCOVERIES IN DATE ORDER

Information updated to end December 2015 (plus obvious amendments 8/2016)

See footnotes for explanation of terms used. Fields which are under development, in production or have ceased production are named in capitals.

Following the proliferation of subareas created by the Licensees, the current Discovery Administrator rather than the Licence or Block Administrator is identified.

* The description "significant" generally refers to the flow rates that were achieved (or would have been reached) in well tests (15 mmcfd or 1000 BOPD). It does not indicate the commercial potential of the discovery.

NOTE: Some Significant Discoveries may not be included in this list if the Operator wishes to keep the information confidential (up to four years, or three if drilled on a 20th or subsequent Licence Round award).

- (1) Approved Discovery names in lower case. Fields in production, under development or having ceased production are shown in capital letters.
- (2) SD - Significant Discovery; FUD - Field Under Development; FIP - Field in Production; FCP - Field Ceased Production; [*FCP – Field Ceased Production now either Open or Re-licensed (see also Notes (11) & (12)*].
- (3) NNS, CNS, SNS - Northern, Central, and Southern North Sea; MF - Moray Firth; EC - English Channel; CB - Cardigan Bay; IS - Irish Sea; WOS - West of Shetland.
- (4) Reservoir age of Field, and for discoveries when announced by the operator or when released into the public domain.
- (5) Discovery made under an earlier Licence Round, now Relicensed.
- (6) Segregation Licence: - eg S4 - segregation licence from original Fourth Round award.
- (7) Out of Round Award.
- (8) Statoil is the unit Operator of the Statfjord Field.
- (9) The Britannia Field is operated by Britannia Operator Limited.
- (10) Determined as part of the Ninian Field.

- (11) The Argyll and Duncan Fields as originally known were relicensed and renamed Ardmore and Dalmore. They have now been relicensed again and renamed Alma and Galia respectively.
- (12) Previously known as Emerald, which had Ceased Production. Re-licensed to ATP in 21st Round. ATP are now Alpha Petroleum.
- (13) Angus Field was brought back on stream in 2001, after ceasing production in 1993. Now ceased production again.
- (14) Cleeton Field has ceased production but the host installations remain.
- (15) Skua and Marnock have been determined as one Field.
- (16) The 47/10-1 Helvellyn Field is operated by ATP (now Alpha Petroleum).
- (17) Donan Field had ceased production but has now been redeveloped. (Also known as “Dumbarton”.)
- (18) Drilled by BG to a target in 47/15b. Top hole located in Block 47/10, now held by Burgate.
- (19) Block offered in the 28th Round, but Licences not yet executed.
- (20) Previously known as Ormonde South; renamed to differentiate it from the Wind Farm project.
- (21) Field Determined on Commercial criteria.
