

ImmForm Helpsheet 13

Vaccines available via ImmForm

This helpsheet lists the vaccines available for ordering via ImmForm.

Centrally purchased vaccines for the national immunisation programme for the NHS can only be ordered via ImmForm. These are as follows:

Product	Description	Brand name	Pack dosage
BCG	BCG intradermal	BCG SSI	100*
dTaP/IPV	Low dose diphtheria, tetanus and acellular pertussis with inactivated polio	Repevax	1
DTaP/Hib/IPV	Diphtheria, tetanus and acellular pertussis, inactivated polio and <i>Haemophilus influenzae b</i> (Hib)	Pediacel	1
DTaP/IPV	Diphtheria, tetanus and acellular pertussis with inactivated polio	Infanrix IPV	1
Hib/MenC	Hib/Meningococcal group C conjugate	Menitorix	1
DTaP/Hib/IPV	Diphtheria, tetanus and acellular pertussis, inactivated polio and Hib	Infanrix IPV Hib	1
HPV	Human papillomavirus	Gardasil	1
dTaP/IPV	Low dose diphtheria, tetanus and acellular pertussis with inactivated polio	Boostrix IPV	1
MenC	Meningococcal group C conjugate	NeisVacC	10
MMR	Measles, mumps and rubella	MMRVaxPRO	1
MMR	Measles, mumps and rubella	Priorix	1
PCV	Pneumococcal conjugate vaccine	Prevenar13	10
PPD	Tuberculin PPD (routine screening – Mantoux test)	PPD-2TU	100*
PPD	Tuberculin PPD (Clinical diagnostic purposes)	PPD-10TU	100*
Rotavirus	Rotavirus	Rotarix	1
Td/IPV	Tetanus and low dose diphtheria with inactivated polio	Revaxis	1
VIPA	European viper venom	ViperaTAb	1
Shingles	Shingles	Zostavax	1

* For BCG, PPD-2TU and PPD-10TU the nominal number of doses per pack is 100 doses. One pack contains 10 x 1.5ml vials and each dose is 0.1ml which, given the variation in administration, should provide at least 10 doses per vial, or 100 doses in total.

Vaccine prices

For NHS England customers, the money to pay for these vaccines comes from central health budgets. All prices shown are the list prices for illustrative purposes only.

Private sales of vaccines

Public Health England does not sell vaccines to the private market. Vaccines for private GP practices or for occupational health (including occupational health vaccinations in the NHS), should be purchased directly from the manufacturers or from vaccine wholesalers.

The exception for private sales is for the products manufactured by SSI (BCG, PPD-2TU and PPD-10TU) (also known as Mantoux test, Tuberculin Sensitivity Test or Pirquet test) which can be obtained through ImmForm using your private account number (customers will be invoiced via NHS Supply Chain).

Travel vaccines

The vaccines supplied through ImmForm by Public Health England are not for use as travel vaccines. Vaccines for travellers should be purchased from the manufacturer or a wholesaler. For further information on travel vaccines, please visit the National Travel Health Network and Centre (NaTHNaC) website at www.nathnac.org/travel/index.htm.
