| | | |
|--|--|--------------------------|

| Acute meningitis | Invasive group A Streptococcal disease | Scarlet fever |
| Acute poliomyelitis | Legionnaires disease * | Smallpox |

* Notifiable from 6th April 2010

Notifications of infectious diseases, some of which are later microbiologically confirmed, prompt local investigation and action to control the diseases. Proper officers are required every week to inform the PHE (formerly the Registrar General) anonymised details of each case of each disease that has been notified. PHE has responsibility of collating the weekly returns from proper officers and publishing analyses of local and national trends.
