

HS2 Design Panel

Sadie Morgan

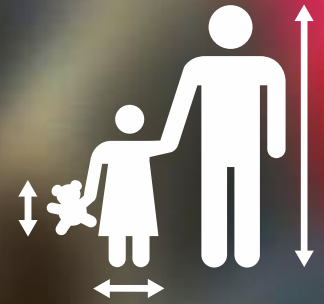

Aim

To enhance the lives of future generations of people in Britain by designing a transformational rail system that is admired around the world

People

Design for everyone to benefit and enjoy

Place

Design to create a sense of place

Time

Design to stand the test of time

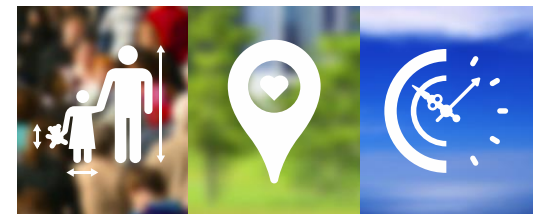

Over 300 applications received

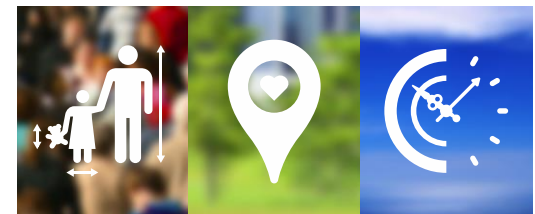

From a wide range of disciplines

**design management,
procurement, engineering,
landscape and environment,
planning, service and product
design, architecture and
community engagement**

Of the highest caliber

- The Design Panel's advice will adhere to the following principles:
- **Impartial, Expert, Multidisciplinary, Timely, Advisory, Objective, Accessible, Open, Accountable**
- based on widely accepted industry best practice: "Design Review Principles and Practice", by Design Council, CABE, Landscape Institute, Royal Town Planning Institute and the Royal Institute of British Architects.
