Title: Trade union density: Polish employees 2015

Date of release: 24 June 2016

Information request

I would like figures for union density (trade union membership as a proportion of employees) among Polish employees in 2015.

I would like these figures for employees who are Polish nationals and for employees born in Poland. If it is possible, as well as the totals, I would like the figures broken down by gender and full-time/part-time, as in table 1.5.

Information released

Trade union density in the fourth quarter of 2015 among UK employees who were Polish Nationals was as follows:

All employees	male	female	Full-time	Part-time
8.6%	8.7%	8.6%	8.9%	7.3%

Trade union density in the fourth quarter of 2015 among UK employees who were born in Poland was as follows:

All employees	male	female	Full-time	Part-time
9.4%	8.6%	10.1%	9.9%	7.1%
