

UK National Inventory of Farm Animal Genetic Resources

Porcines

This table is part of the UK's national inventory of farm animal breeds present in the UK, and updates the 2012 inventory published in the Country Report:

<https://www.gov.uk/government/publications/uk-country-report-on-farm-animal-genetic-resources-2012>

The inventory helps Defra monitor breed populations and identify breeds that may be at risk, and the updated inventory shows the current breed data for Bovines (cows), Ovines (sheep), Equines (horses), Porcines (pigs), Caprines (goats) and Camelids (llamas/alpacas) as at 10 August 2016.
