Hello Team

I have spoken to [REDACTED] just now regarding their decision to close Frostys Christmas World to remind them to let you know that they have taken all their animals including their licensed animals namely the Camel, Zebu and the 3 reindeer back to the winter quarters. Unfortunately very strong high winds and constant rain resulted in not many people attending and also the decision in the end was made on health and safety grounds. So on Saturday the 19<sup>th</sup> December the animals were taken home. They arrived back at the farm at 4.30 pm. At the moment because of the weather they are not receiving good signals, so [REDACTED] asked me to send you this information on their behalf. As soon as they are back on line they will be in touch, in the meantime please view this as their reply.

Many thanks

Both circuses and myself would like to wish you all the very best for Christmas.

With very best wishes
