Requester type	Individual
----------------	------------

**Information released:**

1. No other organisation routinely manages procurement and contracts on behalf of our organisation. The UK Commission for Employment and Skills has a small team who manage the procurement and contracting for the organisation. All opportunities over £10,000 will be offered to suppliers either through an existing government contract or by placing an open advertisement on [Contracts Finder](#), which is the government portal for all public sector opportunities. In relation to existing government contracts, when an opportunity is offered through contracts or frameworks held by the Dept. for Business Innovation and Skills, or Crown Commercial Service (CCS) then the advertisement of the opportunity is handled through those organisations. CCS has produced guidance on becoming a CCS supplier, available [here](#).
2. UKCES does not manage procurement and contracts on behalf of any other organisation.
3. Please see attached spreadsheet, which lists the current contracts for ICT services held by UKCES.

Outside the scope of this request UKCES also holds contracts for the provision of several web-based tools to support communications activities. These include evaluation tools and services conducting social media monitoring. To request further information on the agreements held, please email [info@ukces.org.uk](mailto:info@ukces.org.uk).

Contract description	Supplier	Contract start date	Contract end date	Contract Value (Ex VAT) p.annum	Contract called off on a central framework agreement?
