### Matters Arising from the Last Meeting

6. Update on protocols considered at previous meetings :

- MoDREC Protocol 465/MoDREC/13: A Field-Based Thermal Burden Assessment of Operational Performance in a Hot Environment. [redacted] – approved

7. [redacted] informed the Committee that protocols 456 and 465 had been approved together with an amendment to 290 in time for studies to proceed at INM. [redacted] highlighted the

requirement for the researchers to inform the Secretariat when studies were scheduled to commence to ensure there was sufficient time to approve protocols.
