Notes to accompany Annex A giving Guidance on the Accounting Policy for Grant Commitments

Grant awards are accounted for as expenditure in the SCNE and, until paid, as liabilities in the SOFP if they meet the definition of liabilities in IAS37 whether arising from legal or constructive obligations.

Grant awards which have been formally decided upon by Council or under delegated authority, which do not meet the definition of liabilities are not included in expenditure in the SCNE or as liabilities in the SOFP but are disclosed as grant commitments in the Notes to the Accounts.

COMMON GUIDANCE NOTES ON ACCOUNTING FOR GRANT AWARDS

Basic principles for recognition

1. Grant awards will be treated as expenditure, and, if unpaid, as liabilities if a constructive obligation to make payment exists at the year end, which will be the case if:
 - a. the award has been formally decided upon by the Sports Council of Wales, whether by the Council or under a delegated authority; and
 - b. the award has been communicated to the intended recipient; and
 - c. the award is free from any conditions under the control of the distributor.
2. Awards which have been formally decided upon by the year end but which do not meet either or both of criteria 1b and 1c above will not give rise to a constructive obligation and so will not be treated as liabilities, but will be disclosed by way of note as grant commitments.

Communication to recipient

3. Grant awards will be treated as communicated to the intended recipient when a formal written notification (including email or other electronic communication) has been issued by the Sports Council of Wales. Oral communication or informal communication by staff which is stated to be non-binding on the Sports Council of Wales will not be treated as communication.

Conditions

4. The Sports Council of Wales will not treat any of the following conditions as being under their control:
 - a. requirements for planning permission or other regulatory approvals;

- b. requirements to obtain match funding from other sources;
- c. a general condition relating to the availability of lottery funds.

Recognition of particular types of grant award

Development awards

- 5. Development awards are those where the Sports Council of Wales provides funds for the grant recipient to develop an application for a larger subsequent award. The Sports Council of Wales retains complete discretion over whether to make the subsequent award. While there may be a high probability that the subsequent application will be successful, the potential subsequent award will not be treated as a liability until a further formal decision is taken to proceed with it. If funds for the potential subsequent award have been set aside by the Council this will be disclosed by way of a note.

Performance based awards

- 6. Where payment of all or part of an award is subject to a performance condition, any part of the award subject to the condition will not be treated as a liability until the condition is met. Performance conditions include:
 - a. requirements that the grant recipient delivers specified objective outcomes, or achieves a level of objective performance (such as sporting achievements);
 - b. requirements that the grant recipient satisfies the judgment of the Sports Council of Wales that they have met satisfactory standards of performance, where there is a realistic possibility that the condition will not be met.
- 7. An award is not performance based simply because the recipient is required to carry out the activity for which the award is made prior to receiving payment, or to comply with other requirements which are under the effective control of the recipient.

Multi-year and multi-stage awards

- 8. Where an award is made which is payable across multiple years or stages, and continuation of the award in later periods is conditional on a further decision of the Sports Council of Wales which there is a realistic possibility will not result in continuation of the award, then only the earlier stages of the award will be treated as a liability.
- 9. For example, where the Sports Council of Wales makes an award that covers three years, but with a proviso that the amount, if any, to be paid in the second

and third years will be subject to an annual review before being confirmed, then the awards in the later years :

- a. will be treated as a liability from the initial award, if the review is in the nature only of confirmation that the project is progressing satisfactorily, and there is no realistic prospect of the Sports Council of Wales changing its initial decision if this is the case;
- b. will only be treated as a liability for the period up to the next review, if the review entitles the Sports Council of Wales to reduce or withdraw funding because of a reduced availability of funds, or changed priorities for funding, and there is a realistic prospect of this occurring.

Classification of liabilities as accruals or provisions

10. Grant liabilities at the SOFP date will be classified:

- a. as Provisions where they meet the recognition criteria as defined in IAS37;
- b. as accruals in all other cases.
