### Introductory note

#### **This introductory note does not form a part of the notice**

The following notice gives notice of the variation of an environmental permit.

The variation is for a substantial change to an existing permit which regulates the operation of the following;

- 1 A hazardous waste incinerator, rated at 1,500 kg/hr burning a variety of hazardous waste. (5.1 A (1) (a))
- 2 A hazardous waste treatment facility for aqueous and solvent waste, including pH adjustment, prior to disposal in the incinerator or removal from the site. (5.3 A (1) (a) (ii))
- 3 The operation of a waste facility including biological treatment by aerobic composting or bio-drying for the purpose of recovery, the heat treatment of waste for recovery and physical treatment by screening, crushing, baling, shredding and pelletising for the purpose of recovery.

The variation is to;

- 1 increase the area of the permit boundary, within the existing area of the works,
- 2 add a waste transfer station for hazardous waste ((5.6 A (1) (a)) and a non-hazardous waste transfer station.
- 3 include additional waste codes for recovery in the incinerator.
- 4 amend the permit as the existing hazardous waste treatment facility is now a newly prescribed activity, . 5.3 A (1) (a) (iv) following the implementation of the Environmental Permitting (England and Wales) (Amendment) Regulations 2013 to implement the requirements of the Industrial Emissions Directive.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
