

Live animals – Accommodation and care questionnaire

Please complete this form and return it with the application form to the address given at box 7 of form FED 0172 (Application to import /(re)-export). This information is needed to update our records on the type and suitability of accommodation you have available for housing the species applied for. Please continue on a separate sheet if necessary.

1. Application Details

<p>Applicant or business name, full postal address, email address and telephone number:</p> <p>Application Reference Number (if known):</p> <p>Species (Scientific name):</p> <p>Total number of specimens:</p>

<p>Provide the name(s), full postal address, email address and telephone number of the premises where the specimens will be kept at the place of destination¹ (if different to the one provided above)</p> <p>.....</p>

¹ The 'place of destination' is defined in Article 2 of Regulation (EC) No. 338/97 as the place at which at the time of introduction into the Community, it is intended that specimens will normally be kept; in the case of live specimens, this shall be the first place where specimens are intended to be kept following any period of quarantine or other confinement for the purposes of sanitary checks and controls.

2. Accommodation Details

Provide a general description of the premises (e.g. shop, warehouse, zoological institution) and indicate the size in square metres:

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Provide a description of the accommodation(s)² specifically set aside for the specimens(s) in the application along with the dimensions (WxDxH) and details of construction. Where the accommodation incorporates separate indoor and outdoor facilities then please provide the dimensions of both areas:

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

² For the purpose of this questionnaire, “enclosures” may cover any of the following; aviary, vivarium, racking system, tank, corral, paddock, cage or similar

Confirm the number of specimens (and species) to be housed in each enclosure or accommodation (as described). Please indicate the length of time the specimens are intended to be held:

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

Can the individual enclosures or accommodation be divided in order to separate specimens if necessary? If so, please provide a description:

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

Describe the enclosure furnishings, including the provision of branches, nest boxes, hides or other items and details of environmental stimuli available:

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

Please outline the provision of heating, lighting and ventilation (where appropriate):

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

Please provide an outline of the diet that the specimens will be offered:

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Outline the provisions that will be made for disease control including:

- i) Whether facilities are available for the isolation of ill stock.
- ii) The procedures in place for appropriate waste disposal:

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Provide details of the veterinary care that will be undertaken/available after import:

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

3. Licensing

Are the premises officially approved under DEFRA quarantine arrangements?
YES/NO*

Are the premises licensed under the Zoo Licensing Act 1981? YES/NO*

Are the premises licensed under the Pet Animals Act 1951? YES/NO*
