[UK Armed Forces Redundancy Programme Statistics](#) This publication contains information on the number of UK Armed Forces personnel either applying or being selected for redundancy in the various tranches. Please note that not all of those who applied were selected and not all of those that were selected had applied for redundancy.

[Royal Navy Quarterly Pocket Brief](#) This quarterly publication contains information on strengths, requirements, intakes and outflows from the Royal Navy service

This publication is a monthly report providing information on the number of Royal Navy and Royal Marine personnel joining and leaving the Regular service. It also shows the strengths of the Regular and Full Time Reserves Service (FTRS) Royal Navy and Royal Marines by rank and Length of Service. This publication is complemented by the [Royal Navy Quarterly Pocket Brief](#) which also shows breakdown of ethnicity in the RN/RM, Army and RAF.

Information about some of the tables used in this report The Royal Marine Aircrew-men are included with XAV; Royal Marine Medical Assistants are included with Medical. Where an RM/RN total split is given they are included with the RM. Royal Marine Officers include Royal Marine pilots. Ratings and Officers whose specialisation has not yet been assigned are covered by 'No Spec' for Officers and 'No Trade' for the Ratings. FTRS are only included in Table 1, unless otherwise stated. Transfer trainees have been removed from the Trained Strength Tables.

Voluntary Outflow (VO) Voluntary Outflow exit rates are calculated using the 12 month total VO divided by the average strength, which is calculated using a 12 month centred rolling average. This centres the data and gets a midpoint month. 13 months of strengths are used, starting mid-way through one month and ending mid-way through the same month a year later. This way the moving average VO rate falls on a specific month rather than being in between months.

Key Points for May 2015

Revisions

Defence Statistics has undertaken a major review of all Armed Forces personnel data from the Joint Personnel Administration System (JPA). This has resulted in changes to the strengths, intake and outflow reported in this publication, the periods affected are: FLOWS – from period ending 31 March 2009 to the period ending 31 October 2011, changes to monthly outflow range from fewer than 10 to around 50. STRENGTHS – from 1 May 2009 to 1 November 2011 (inclusive), changes of around 20 per month have been made to the headline strengths. The revised data are considered finalised and are therefore no longer marked provisional. Data for 1 November 2011 and subsequent data are considered final.

The number of trained regular outflows (tables 9a, 9b, 10a and 10b) and promotions (table 11a) for financial years 2010/11, 2011/12 was reported incorrectly in previous situation reports dating from November 2012 to August 2014. Correct figures are reported in September 2014 and subsequent situation reports. No previous publications have been revised. Corrections in September's publication are denoted by 'r'.

Data Sources

Royal Navy/ Royal Marines statistics prior to March 2006 are compiled from pay records held by the Service Personnel and Veterans Agency (SPVA, formerly the Armed Forces Personnel Administration Agency). In March 2006 the transfer of all Regular Service personnel records to the Joint Personnel Administration (JPA) system began. Statistics are compiled from JPA for the Royal Navy/ Royal Marines from November 2006.

Rounding Policy

All totals are rounded in accordance with the Defence Statistics rounding policy; therefore totals may not equal the sum of their parts. All numbers are rounded to the nearest 10 with numbers ending in 5 rounded to the nearest multiple of 20 to avoid bias. Numbers that would be rounded to 0 are represented by '~'.

Liability

Liability is also known as requirement. The liability used in this publication is taken from the Planning Liability PL 1-15, scaled to DP14.

May-15 Edition.

From Jan 10 and elsewhere in this document, Liability split by Officer/Rating, Branch & Spec is taken from the relevant Planning Liability (currently PL 1-15) scaled to DP14. Monthly liability figures are calculated using a straight line interpolation between the relevant PL April points (currently April 14 and April 15).

* In this table only, the FTRS Strength has been split into those that are counted against the Regular Liability (FTRS "Regulars"), and those that are not (FTRS "Non-Regulars").

² Royal Marines are the only part of the RN/RM Service to currently contain OR3 strength. As no separate liability for OR3 is produced for the RN/RM, the liability for OR2 also includes OR3.

³ The latest liability (PL1-15) no longer includes RN OR8. This rank will still be reflected in RN strength.
