Description of change:

Change of codeset D00008 (which means new number allocated) to include Sint Maarten and Curaçao as countries. Also need to mark Netherlands Antilles (ANT) as 'No' in current as was dissolved in 2010

Reason for change (including benefits):

The various islands were united as a single country - the Netherlands Antilles (ANT). The country was dissolved on 10 October 2010.

When Curaçao and Sint Maarten became distinct constituent countries.

Impact of not doing the change:

The schools will not have the option to record the correct country of birth for any pupils born in these countries.

ISB view of the proposed change:

We have no objection to the inclusion of the two new values and marking of another value as “not current” as this aligns the list with the ISO country codes list, which I know is your source list.

A little bit of further information / back ground that may be of interest: currently, the ISB requires that the ISB Country Type list is sourced from the ISO list of countries with “Officially Assigned Codes”, using the Short English Name values, though we do not require for historic values to be included since the ISB model does not currently have any data item that would require this (such as Country of Birth). The ISB does not maintain a copy of the list so it automatically includes any changes applied by ISO. However for background we are expecting to consult soon on changing the source of the ISB Country Type list of current countries to the list of [country names](#) maintained by the Permanent Committee on Geographical Names (PCGN).

We have no objection to this additional change.

Supplier 2

Please could you also add the following as they are in the Person BS EN ISO 3166 set but not in the CBDS:

BES Bonaire, Sint Eustatius and Saba

BLM Saint Barthélemy

MAF Saint Martin (French part)

SSD South Sudan

DfE Internal Colleagues' Summary of Impact Assessment:

"While changes are being made we should also take the chance to correct the name of item 654 from Saint Helena, to ST HELENA, ASCENSION AND TRISTAN DA CUNHA.

Regarding the reference to consistency with ISO 3166-1, this is understandable but I would recommend against full compliance as this would involve splitting Spain into three countries (SPAIN (EXCEPT CANARY ISLANDS), CANARY ISLANDS and SPAIN NOT OTHERWISE SPECIFIED), splitting the United Kingdom into 6 countries (ENGLAND, NORTHERN IRELAND, SCOTLAND, WALES, GREAT BRITAIN NOT OTHERWISE SPECIFIED and UNITED KINGDOM NOT OTHERWISE SPECIFIED) and splitting Cyprus into three countries (CYPRUS (EUROPEAN UNION), CYPRUS (NON-EUROPEAN UNION) and CYPRUS (NOT OTHERWISE SPECIFIED). Such changes seem unnecessary and more likely to lead to confusion than to greater accuracy in data."

Alternative Solutions / Workarounds (if appropriate):

Following feedback regarding adding further codes to the codeset, Investigation was carried out:

The ONS country codeset is based on the ISO 3166-1 and has been adapted to meet the data needs of UK National Statistics' users and producers.

<http://www.ons.gov.uk/ons/guide-method/classifications/current-standard-classifications/national-statistics-country-classification/index.html>

For consistency if it is a country in the ONS dataset then we should use it.

The following codes were missing from the D00008 codeset in CBDS (including the two already mentioned in the original RFC)

The update will now consists of:

Addition of the following:

Alpha-3	Category	Alpha-2	Numeric-3
BES	BONAIRE, SINT EUSTATIUS AND SABA	BQ	535
CUW	CURAÇAO	CW	531
QOK	KOSOVO	QO	951
MAF	SAINT MARTIN (FRENCH PART)	MF	663
SXM	SINT MAARTEN (DUTCH PART)	SX	534
SSD	SOUTH SUDAN	SS	728
BLM	ST BARTHÉLEMY	BL	652

Changes to the following:

ANT Netherlands Antilles – Mark as No in 'current' as was dissolved in 2010

SHN St Helena - Update name to St Helena, Ascension and Tristan da Cunha

The following data items are affected and will be created again with new codeset:

100026, 10028, 100139, 100140, 100141, 100142, 100143, 100211, 100212, 100213, 100216, 900016, 900017, 900053, 900054, 900055, 400020, 400050
