TREASURY CHAMBERS
11 February 2015

DAVID GAUKE

Section 1.

Introduction

1. Supply Estimates are the means by which the government seeks authority from Parliament for its own spending each year. A full description of Supply Estimates was included in *Central Government Supply Estimates 2014-15: Main Supply Estimates* (HC 1233) presented to Parliament on 29 April 2014.

Supplementary, Revised and New Estimates

2. In the course of a financial year the government may need to ask Parliament for additional resources, capital and/or cash by means of a Supplementary Estimate. There is one scheduled opportunity for departments to amend departmental budgets and Estimates, the details of which are set out in this booklet.
3. Revised Estimates are rare but they may be presented in the summer to replace corresponding Main Estimates before Parliament formally approves them. Revised Estimates normally reduce the amount sought in the original Estimate or vary the way in which it is spent. New Estimates may also be introduced, for example to reflect a new entity, and are usually presented at the same time as the Supplementary Estimates.

Out-of-Turn Supplementary Estimates

4. In addition, Out-of-Turn Supplementary Estimates may be presented at any time during the year whilst Parliament is sitting. This is only allowed in the most exceptional circumstances, where urgent additional provision is needed at short notice and where this cannot wait for a normal Estimates round.

Total Estimates to date

5. For the current year, Main Estimates were presented to Parliament on 29 April 2014 in HC 1233. This booklet sets out the request for changes since that publication.

Original provision, changes and revised Supply

6. **Table 1** below shows the total voted Supply provision sought for 2014-15 in the Main Estimates, the changes sought in the Supplementary Estimates and the revised plans.

† Numbers may not add up in the table due to rounding.

7. There are 47 Supplementary Estimates for central government departments in this booklet. In addition, there are 3 Supplementary Estimates for independent bodies (e.g. the Electoral Commission), who present their own booklets, seeking the changes set out in **Table 2**.
8. The main aggregate for public expenditure is **Total Managed Expenditure (TME)**, which includes Departmental Expenditure Limits (DEL), for which firm 4 year plans were set in the 2010 Comprehensive Spending Review (Cm 7942), and Annually Managed Expenditure (AME), which is subject to annual review as part of the Budget process. These definitions are explained in more detail in Chapter 1 of the *Public Expenditure Statistical Analyses 2014* (Cm 8902) and in section 1 of HC 1233.
9. The main elements of DEL and AME that are not funded through the Supply Estimates are central government expenditure funded directly from other sources, (e.g. the National Insurance Fund).

In-year controls

10. Parliament votes limits on:
 - The net resource DEL requirement;
 - The net capital DEL requirement;
 - The net resource AME requirement;
 - The net capital AME requirement;
 - The net non-budget requirement; and
 - The net cash requirement for the Estimate as a whole.

11. The operation of in-year controls for 2014-15 was explained in Section 1 of HC 1233. Changes to resource DEL, administration budgets and capital DEL, as a result of the Supplementary Estimates are summarised in **Tables 3, 4 and 5**.
12. **Table 6** compares the present plans (voted spending only) for 2014-15 with the forecast outturn for the first 6 months of the year for each Estimate.

Parliamentary procedure

13. Supplementary Estimates seek funds for expenditure in addition to, or a reduction in, that sought in previous Supply Estimates in the same financial year. They may be presented to:
 - Seek authority, and additional resources, capital and/or cash as necessary, for any new services; and
 - Increase or decrease the provision for existing services.
14. The House of Commons has an opportunity to debate and vote on Supplementary Estimates (and where applicable New Estimates), followed by detailed examination by departmental Select Committees. This process is described more fully in Section 3 of HC 1233.

Format of Supplementary Estimates

15. Each Supplementary Estimate is produced in a standard format and consists of an introduction, Part I, Part II and Part III. The format and organisation of Estimates is explained more fully in section 2 of HC 1233.

Introduction

16. Each Supplementary begins with an introduction which explains why changes to the existing provision are being sought.

Part I

17. Part I of each Supplementary Estimate states, as necessary, the changes sought to resource DEL, capital DEL, resource AME, capital AME, non-budget expenditure and the net cash requirement (as relevant) for the financial year. It also reproduces the 'ambit', which is the formal description of all the expenditure and income (not just any new services) to be financed from the Estimate. Where an ambit has been amended since the publication of the Main Estimate, the new services or income will be identified by the insertion of an asterisk (*) before the additional text.

Part II

18. Part II of the Supplementary Estimate contains 3 tables. The first table identifies the sections within each budgetary limit where changes to resources and capital are being proposed and also shows movement in cash. This is followed by a reproduction of original Main Estimate Part II table showing the revised subhead detail, including the additional provision sought for each subhead (including unchanged subheads) as a result of the Supplementary Estimate. The third table (Part II: resource to cash reconciliation) provides a reconciliation between the net resource total and the net cash requirement (NCR).

Part III – other statements and notes

19. Part III of the Supplementary Estimates contains a number of notes. Each Supplementary Estimate will contain at least:

- **Part III: Note A** - the Statement of Comprehensive Net Expenditure (SoCNE) and Reconciliation table, either restated or updated from that appended to the Main Estimates. Individual Select Committees may, of course, request additional department-specific explanatory information to supplement this material;
- **Part III: Note B** - an Analysis of Departmental Income (resource and capital), which is being used to offset gross spending;
- **Part III: Note C** - an analysis of extra receipts payable to the Consolidated Fund;
- **Part III: Note D** - an Explanation of the Accounting Officer responsibilities.

20. The Supplementary Estimates may be accompanied by further notes providing additional information to Parliament about the specific nature of the department's plans, details of the grants-in-aid (G-in-A) paid to Arms Length Bodies (ALBs), changes in accounting policies, etc, where relevant.

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
Non-statutory	
Contingent liabilities in connection to Private Finance Initiative (PFI) contracts to Academies. These contingent liabilities are a result of the Department providing an indemnity to the local authority for potential costs on buildings they own, with existing PFI arrangements, which will be used by the academies. This type of indemnity is considered to be low risk and is only a feature of the academies programme in very specific circumstances. These contingent liabilities only arise where an academy is using a local authority building with an existing PFI contract.	2,100,000
Free Schools Group for Principal designates. The majority of contingent liabilities recorded by Free School Group currently relate to the potential costs that maybe incurred resulting from the engagement of staff prior to the opening of a Free School e.g. head teacher /deputy head teacher. It is important that the senior staff likely to be running the school once it is opened, are involved and take forward the development of the potential Free School prior to opening. These staff will, in many cases have had to tender their resignation at an existing school to take up their post in the Free School. The Department has agreed to underwrite the salaries of these staff for up to two terms in the event that the Free School does not open as planned. Each potential liability is calculated on an individual basis for each project. Once the Free School opens the liability will expire.	330
Free School Norwich. The contingent liability that would arise from the re-instatement cost of the school building to its original condition.	110
Guarantee provided to Tottenham Hotspur Property Company in relation to a commercial lease arrangement for an Academy Trust site.	12,500
Indemnity provided to Kent County Council for any unforeseen liability to the contractor in respect of contamination, defect or asbestos presence at the Duke of York Royal Military school site.	5,000
CET Westminster - indemnity provided to the Church of England Commissioners to cover the costs / associated charges arising from defending any legal action against the Commissioners for allowing their property to be used as a free school	5,000
East London UTC - indemnity for one year to Tottenham Hotspur Property Co Ltd cover the cost of a fully serviced lease	467
A guarantee to Local Government Pension Scheme (LGPS) to meet the pension deficit if an Academy Trust closes	6,500
Tottenham UTC - indemnity to cover the cost of the 35 year lease	16,500
Compensation to be held under the Civil Service Appeals Board for a former employee of the Department for Education	62
The EFA has entered into a number of tenant default agreements which give rise to a contractual obligation to pay monies to the landlord up to a fixed cap in certain circumstances where the Free School tenant is in breach of its lease	2,768

Part III: Note D - Explanation of Accounting Officer responsibilities

The Accounting Officer prepares resource accounts for each financial year.

The following individuals are responsible for the expenditure within this Estimate:

Accounting Officer: Sir Bob Kerslake

Executive Agency Accounting Officers:

Simon Ridley Planning Inspectorate

In accordance with Chapter 3 of Managing Public Money (issued by the Treasury), the following individuals have been appointed as Accounting Officers of the department's ALBs.

ALB Accounting Officers:

Andy Rose	Homes and Communities Agency
Helen Megarry	The Housing Ombudsman
Anthony Essien	The Leasehold Advisory Service
David Rossington	West Northamptonshire Development Corporation
Heather Lees	Commission for Local Administration in England
Antonio Masella	Valuation Tribunal Service

Sir Bob Kerslake has personal responsibility for the proper presentation of the department's resource accounts and their transmission to the Comptroller & Auditor General, and is also responsible for the use of public money and stewardship of assets.

In discharging these responsibilities, particular regard is given to:

- observing any accounting and disclosure requirements (including any Accounts Direction) and applying suitable accounting policies on a consistent basis;
- making judgements and estimates on a reasonable basis;
- stating whether applicable accounting standards, as set out in the Financial Reporting Manual (FRM), or an
- preparing the accounts on a going concern basis.

The responsibilities of an Accounting Officer, including responsibility for regularity and propriety of the public finances for which an Accounting Officer is answerable, for keeping proper records and safeguarding assets, are also set out in Chapter 3 of Managing Public Money.

In accordance with Managing Public Money requirements, the relationship between the Principal Accounting Officer and Additional Accounting Officer(s) together with their respective responsibilities, is set out in writing. Similarly, the relationship between the Principal Accounting Officer and the ALB Accounting Officer(s) is set out in writing.

Part III: Note F - Accounting Policy changes

1) Prior Period Adjustment

The Supplementary Estimate includes a voted PPA to reflect changes to the outturn figures for 2013-14. This will be corrected as part of the preparation of the 2014-15 Annual Report and Accounts.

Inventories - This is a technical accounting adjustment, which reflects an amendment in the 2014-15 Financial Reporting Manual (FRoM), clarifying the accounting treatment for inventories. The effect of the clarification is to reduce the carrying value of inventories (from fair value to lower of cost and net realisable value) and therefore increases the profit on disposal of inventories.

2013-14:

Resource DEL - £(42,600,000)

Capital DEL - £42,600,000

Resource AME - 12,200,000

The total gross Prior Period Adjustment included in the Supplementary Estimate is therefore £54.8 million.

2) Help to Buy: Equity Loan

The NAO has agreed with the Department's proposal to change the recognition point (to completion) for Help to Buy to more correctly reflect accounting standards.

This change results in a reduction of 2013-14 Capital DEL expenditure of c.£50m and 2013-14 AME expenditure of c£2m. This will be corrected as part of the preparation of the 2014-15 Annual Report and Accounts. As this is a reduction of prior year expenditure, this does not require a voted Prior Period adjustment.

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
STATUTORY	
Statutory Contingent Liability taken on under the provisions of the Banking Act 2009 in respect of Homeowners Support Scheme.	993

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
An Indemnity of up to £50m, in respect of any one accident, has been given to Heathrow Airports Holdings Limited formerly British Airports Authority (BAA). This is in respect of damage or injury caused to third parties arising out of the negligence of NOMS in their use of vehicles.	50,000
HMCTS legal claims: HMCTS is involved in a number of legal cases dealing with ex-gratia and compensation claims. The estimated cost of settlement for HMCTS is £3.2m.	3,200
HMCTS property transfer: As a result of the July 2005 High Court challenge it has meant that HMCTS has not been able to gain control of a number of properties intended to come within the 31 March 2005 Property Transfer Scheme. HMCTS faces a contingent accommodation liability for the properties that it is yet to gain control of. If HMCTS is not able to effect a transfer of ownership and control of these properties, it faces potential accommodation obligations to the parties who ultimately own the property rights and will control the underlying economic benefits. Based on the value of the properties at 31 March 2007, it is estimated that HMCTS could be exposed to additional costs of up to £0.3m per annum with a total maximum contingent liability since 1st April 2005 of £2.9m.	2,900
NOMS legal claims: Claims for injury to staff, prisoners and the public amounting to £54.5m have been lodged, where the likelihood of a liability arising is possible but not likely.	54,500
NOMS would be liable as underwriter of last resort to meet losses incurred by the privately managed prisons.	Unquantifiable
The National Probation Service has reported the Provision of Indemnity to members of the thirty five local area Probation Trusts to maintain the same status of indemnity that was provided by local authorities. The government has agreed that an individual trust member should be indemnified against legal damages and costs arising from advice given, or actions done, honestly and in good faith in the execution of his or her board functions, except where the member has acted recklessly. (Minute of 6th June 2005).	Unquantifiable
Mubarek Inquiry team Indemnity in relation to any legal action taken against the chairman or members of the Independent Inquiry into the death of Zahid Mubarek at the Feltham Young Offenders Institution. (Minute 10th March 2006).	Unquantifiable
Fee paid judicial office holders' claims: Pension entitlements are provided to salaried judges under the Judicial Pension Scheme (JPS). In September 2005, a retired fee paid judicial office holder brought a claim in the Employment Tribunal seeking retrospective parity of treatment with salaried judicial office holders by claiming pension entitlements under the Part Time Workers Regulations. The UK Supreme Court ruled on 6 February 2013 that the retired fee paid judicial office holder was entitled to a pension on terms equivalent to those applicable to a salaried judicial office holder. This lead case set the precedent for other stayed cases, which in addition to pension entitlements, extended to non-pension entitlements relating to fee paid judicial office holders' employment terms and conditions. The case was remitted to the Employment Tribunal to determine the quantum of the liability to the eligible judicial office holders.	
During 2013-14 and 2014-15, there were several hearings held at the Employment Tribunal and Employment Appeal Tribunal to address the quantum of the pension entitlement and determine which judicial office holders were eligible to make claims. In addition to pension entitlements, these hearings also addressed claims for non-pension entitlements relating to fee paid judicial office holders' employment terms and conditions.	

Based on the UK Supreme Court ruling and the latest judgments from the Employment Tribunal and Employment Appeal Tribunal, an estimate of the liability to the group of fee paid judges to which eligible claimants belong has been prepared. The liability has two main elements: the pension entitlement, with a separate element of the pension liability relating to retired fee paid judges, and a Judicial Service Award which compensates retirees for the tax paid on pension lump sums paid on retirement; and the non-pension entitlement, relating to fee paid judicial office holders' employment terms and conditions, such as holiday and sick pay, payments in respect of training and writing up fees, increases in daily fees and cancellation fees where bookings are not honoured.

During 2014-15, eligible claimants were invited to submit claims to the MoJ in relation to the above rulings. The majority of these claims have now been received and a process is underway to calculate, and subsequently make offers to, those fee paid judges who have submitted an eligible claim. A portion of the offers made have been accepted and paid out in 2014-15. The liabilities recognised by the JPS and the MoJ reflect the best estimate of the expenditure required to settle the remaining claims at the end of the reporting period. There were a large number of stayed claims and outstanding appeals lodged which were not heard before the end of the reporting period or before these accounts were finalised. These claims remain as contingent liabilities. No estimate has been made in relation to the stayed cases as whether a stayed case is heard will depend on the individual circumstances of the claimant, and given the large number of stayed claims and outstanding appeals, this was considered impracticable.

Employment Tribunals - MoJ is currently defending a number of Employment Tribunal claims at various stages.	Unquantifiable
Other European Court of Human Rights claims: MoJ is currently engaged in twelve other cases at the European Court of Human Rights (ECtHR), some of which may involve possible financial liability and others which are unquantifiable. These cases represent several topics including: Claims for breach of Article 6 of European Convention on Human Rights (ECHR).	Unquantifiable
Headquarters legal claims: There are around five outstanding legal claims against MoJ, some of which involve possible financial liabilities. These legal claims include a Judicial Review challenging: Refusal to pay compensation for miscarriages of justice.	Unquantifiable
Data Protection Act: There are two claims against MoJ for alleged failure to comply with the Data Protection Act. These cases are ongoing.	Unquantifiable
Criminal Injuries Compensation: On occasion, compensation cases at appeal stage may go to judicial review and these could potentially have an impact on the CICA's future liabilities. There were 91 active cases as at 31 March 2013.	Unquantifiable
Payment by Results schemes: New contracts were awarded for Payment by Results (PbR) schemes at HMP Doncaster and HMP Peterborough. The contract stipulates a mechanism by which an additional payment or claw back would be payable to or from the contractor.	Unquantifiable
The first cohort of offenders at HMP Doncaster ran from 1 October 2011 to 30 September 2012, and the second cohort ran from 1 October 2012 to 30 September 2013. The period over which the offenders' re-offending will be monitored runs for 18 months from 30 September 2012 until 31 March 2014. The first cohort of offenders at HMP Peterborough ran from 9 September 2010 to 9 September 2012. reoffending will be monitored over the period until July 2014. NOMS considers that at 31 December 2013 any potential liability arising from the success of the scheme, in conjunction with its timing, is uncertain.	
Employment and Reoffending Pilot Scheme: The Employment and Reoffending pilot scheme runs for four cohort periods, the first of which is seven months from 1 September 2011 to 31 March 2012, and the remainder full years from 1 April to 31 March up to 2015. After the cohorts have been formed, there is a lag of 21 months before the levels of payment are known. This comprises twelve months follow up, six months waiting period for offences to proceed through the courts and a three month period to for data collection and analysis. As the level of reoffending for any of the cohorts will not be known until the end of the 21 month period, the liability as at 31 December 2014 is uncertain.	Unquantifiable

<p>Following the outsourcing of Community Payback Services from London Probation Trust (LPT) to a private sector provider in October 2012, NOMS has a contingent liability to fund the first £2m of any future pension deficit that may arise.</p>	Unquantifiable
<p>London Probation Trust (LPT) considers that it is not liable to pay corporation tax on its activities for 2011–12 nor in previous years. This is contrary to HM Revenue & Customs (HMRC) advice and LPT is currently in discussion with HMRC and NOMS. The Trust has therefore included a contingent liability in respect of corporation tax. The value of any liability is still to be determined.</p>	Unquantifiable
<p>Devon & Cornwall - The Trust is aware of an Employment Tribunal case being brought by former members of staff. The Trust has taken legal advice as to the likelihood of these actions being successful. The Trust considers that due to the uncertain nature of the timing, outcome and costs involved no provision is to be made in the accounts. The Trust intends to defend these actions and legal advice is that the probability of success is in excess of 60% but should the Trust be unsuccessful the costs could be in the region of £70k.</p>	Unquantifiable
<p>Northamptonshire - The Trust is a member of the East and West Midlands Probation Training Consortium which ceased in March 2013. NPT represents a 5.37% share of the consortium and total costs and liabilities are not fully quantified at this stage to enable a provision for full winding up costs to be made. However, Northamptonshire PT have included a severance provision for NPT staff affected based on anticipated costs to fall due to the Trust. Northamptonshire PT have received notification of two potential claims, one for which a legal costs provision has been established. The Trust have also been involved in ongoing discussions regarding the second potential case for which further legal costs have been provided for. No further provisions have been made as at the time of the accounts, there is not a reliable estimate for these.</p>	Unquantifiable
<p>Surrey & Sussex - On 31 March 2001 West Sussex Probation Committee (WSPC) amalgamated with the East Sussex Probation Committee (ESPC) to form Sussex Probation Board (SPB). As a result West Sussex Probation Board employees transferred their pension benefits to the East Sussex County Council (ESCC) Pension Scheme with effect from 31 March 2001. Under the Pension Regulations at the time liabilities attributable to active and deferred pensioner members remained with the Old Fund in West Sussex County Council (WSCC). Since 2001 Sussex Probation Board has ceased to contribute to the West Sussex Pension Scheme and during 2005 a bulk transfer of assets was made from the West Sussex Scheme to the East Sussex scheme.</p>	Unquantifiable
<p>In 2009 the Government issued a consultation in respect of draft proposals to amend the Local Government (Benefits, Membership and Contributions) Regulations 2007 and the Local Government Pension Scheme (Administration) Regulations 2008 to comply with the Fair Deal for Staff Pensions for staff transferring from the Learning and Skills Council to Local Education Authorities on 1 April 2010, and to manage the transfer of assets and liabilities in administering authorities affected by the merger of Probation Boards to Probation Trusts.</p>	
<p>As a result of the above it is possible that Sussex Probation Board had an obligation arising from the amalgamation of West Sussex Probation Committee and East Sussex Probation Committee to form Sussex Probation Board in relation to the active and deferred pensioner members that remained with the Fund at West Sussex County Council. For the reason SSPT is disclosing this as a contingent liability.</p>

Part III: Note D - Explanation of Accounting Officer responsibilities

The Accounting Officer prepares resource accounts for each financial year.

The following individuals are responsible for the expenditure within this Estimate:

Accounting Officer: Stephen Lovegrove

In accordance with Chapter 3 of Managing Public Money (issued by the Treasury), the following individuals have been appointed as Accounting Officers of the department's ALBs.

Stephen Lovegrove has personal responsibility for the proper presentation of the department's resource accounts and their transmission to the Comptroller & Auditor General, and is also responsible for the use of public money and stewardship of assets.

In discharging these responsibilities, particular regard is given to:

- observing any accounting and disclosure requirements (including any Accounts Direction) and applying suitable accounting policies on a consistent basis;
- making judgements and estimates on a reasonable basis;
- stating whether applicable accounting standards, as set out in the Financial Reporting Manual (FRM), or an organisation's version of it, have been followed, and explain any material departures in the accounts; and
- preparing the accounts on a going concern basis.

The responsibilities of an Accounting Officer, including responsibility for regularity and propriety of the public finances for which an Accounting Officer is answerable, for keeping proper records and safeguarding assets, are also set out in Chapter 3 of Managing Public Money.

In accordance with Managing Public Money requirements, the relationship between the Principal Accounting Officer and Additional Accounting Officer(s) together with their respective responsibilities, is set out in writing. Part III: Note F - Accounting Policy changes

A change in Accounting Policy for the Coal Authority is being implemented in 2014-15 relating to the treatment of Mine Water Schemes and Subsidence Pumping Stations.

Mine Water Schemes and Subsidence Pumping Stations are now held at nil value, on the basis that the assets are commissioned to resolve legacy mining issues for which the benefits have previously been received by private mining operators.

Costs incurred in the design, build, refurbishment and bringing the assets into working condition for their intended operational use are capitalised following completion of a feasibility study and gateway review.

When the assets are brought into operational use, the carrying values are impaired to nil value, with the loss being recognised through the Comprehensive Statement of Net Expenditure.

Decommissioning costs are not provided for on the basis that the Mine Water Schemes and Subsidence Pumping Stations will continue operationally in perpetuity.

Assets under construction are valued at cost.

This gives rise to a reduction in depreciation within Resource DEL of £2,964,000 is included in the changes shown in the Part II table in subhead G4, and an increase in impairments within Resource AME of £6,885,000 in 2014-15.

This change also leads to a Prior Period Adjustment relating to 2013-14, where an additional cost to Annually Managed Expenditure of £5,588,000 has been recognised in relation to the impairment of Mine Water Schemes and Subsidence Pumping Stations.

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
As at 31 March 2014 the following liabilities fell to be met from the Department's Estimate:-	
Statutory Indemnities	
– Indemnity in respect of National Grid Company's liabilities re: the interconnector linking the UK and France.	Unquantifiable
Indemnities to Directors	
– Nuclear Liabilities Fund – Secretary of State Trustee Indemnities: Indemnities have been given to the three Trustees of the NLF appointed by the Secretary of State. These indemnities are against personal liability following any legal action against the Fund.	Unquantifiable
– Nuclear Liabilities Fund – British Energy Trustee Back Up Indemnities: Given to the two BE appointed Trustees of the Nuclear Liabilities Fund. These indemnities are against personal liability following any legal action against the Fund. These indemnities can only be used following failed recourse to an indemnity given by British Energy.	Unquantifiable
– Indemnities have been given to the Directors appointed by the Department to Low Carbon Contracts Company Limited and to Electricity Settlements Company Limited. These indemnities are against personal liability following any legal action against the companies.	Unquantifiable
Other	
– Statutory liability for third party claims in excess of the operator's liability in the event of a nuclear accident in the UK.	Unquantifiable
– Liability for non-compliance with the Cogeneration Directive (2004/8/EC), in the event that contractors for DECC incorrectly certify combined heat and power plants.	Unquantifiable
– High Activity Sealed Sources (HASS) Directive: Council Directive 2003/122/EURATOM on the control of high-activity sealed radioactive sources and orphan sources. Liability for costs of retrieving and disposing of sealed radioactive sources in the event that a company keeping such sources becomes insolvent.	Unquantifiable
– Radioactive contaminated land remediation: under section 9 of The Radioactive Contaminated Land (Modification of Enactments) (England) (Amendment) Regulations 2007 SI 2007/3245 the Secretary of State is deemed to be the appropriate person to bear responsibility for remediation of land contaminated by a nuclear occurrence under the part 2A contaminated land regime.	Unquantifiable
– Energy Research Partnership: an indemnity for loss or damage caused to other Parties to the consortium agreement.	Unquantifiable
– EU Emissions Trading Scheme: Member States are required to appoint a Single Auction Monitor to oversee the auctioning of allowances in Phase III. The Joint Procurement Agreement for the Single Auction Monitor (JPA) provides for Member States to indemnify the Commission should the Commission be required to compensate a third party or another Member State for damages which arise in connection with the JPA e.g. as a result of failure to comply or if a challenge were brought in response to a decision taken by one of the Committees formed under the Agreement.	Unquantifiable
– Green Deal - Contingent Capital Fund. There may be a need for additional government funding to replenish junior capital, if there is high repayment default under the scheme. Maximum exposure is £30m but modelling indicates that this is highly unlikely to be called on.	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
– DECC has undertaken to support Ofgem's costs for administering the Renewables Obligation scheme. Where there is insufficient money in both the buyout fund and late payment fund the remaining costs will be met by DECC for England and Wales.	Unquantifiable
– DECC has issued a letter of indemnity to National Grid covering any financial losses which might result from third party claims in relation to preparatory work for EMR (Electricity Market Reform) delivery.	Unquantifiable
– DECC has indemnified Elexon Ltd against third party claims relating to the design and or implementation of CfD (Contracts for Difference) and CM (Capacity Markets) settlement systems which are not covered by insurance and/or guarantees by their sub-contractors.	Unquantifiable
– Planning Act 2008: cost of compensation payable as a result of revocation of a Development Consent Order, in the event that an Order is subject to legal challenge.	Unquantifiable
– OECD (Organisation for Economic Co-operation and Development) and IEA (International Energy Agency): an indemnity for any loss to the IEA arising from use of its data in the Department's Global Climate Change 2050 Pathways Calculator, limited to a maximum of £100,000.	Unquantifiable
– Coal Industry Act 1994: Responsibility for compensation claims relating to personal injuries suffered by former British Coal mineworkers transferred to the Department on 1 January 1998 by a restructuring scheme under the Coal Industry Act 1994. The timing and amounts of any liability are uncertain, except where provision has been made in the accounts. The future liabilities will depend on the nature of any injury and whether the courts decide that compensation is due.	Unquantifiable
– Nuclear Liabilities Fund (British Energy) - The then Secretary of State for Trade and Industry created a constructive obligation due to her announcement in 2002 to the House of Commons regarding British Energy (BE) restructuring, stating that the Government would underwrite the Nuclear Liabilities Fund (NLF) in respect of BE's uncontracted and decommissioning liabilities to the extent that the assets of the Fund fall short. The restructuring was successfully completed on 14 January 2005, and the Department has assumed responsibility for these liabilities to the extent that the NLF is insufficient to meet liabilities as they fall due. Since 2009 the BE estate has been owned and operated by EDF Energy (EDF E). There is a high level of uncertainty relating to possible future cash flows which the Department might need to make for a prolonged period of time. In practice this will depend on investment returns received by the NLF, contributions made under contract to the NLF by EDF E (which have an indexation component) as well as the actual costs of meeting the decommissioning and uncontracted liabilities. As such, it is difficult to quantify whether this represents a contingent liability or asset. The Department's current estimate of the assets available to the NLF to meet its liabilities is £8.8 billion (2013: £9.0 billion) The latest estimate of the discounted liabilities for decommissioning and uncontracted liabilities is £7.2 billion (2013: £5.4 billion). However despite assets exceeding discounted liabilities by £1.6 billion, the undiscounted liabilities are greater than £19 billion and therefore this position is disclosed as a contingent liability. Currently 15% of the fund is invested externally, and the remainder is lodged with the National Loans Fund. This is risk-free, but the projected returns are lower than the projected returns on the externally-invested funds. There have been discussions about investing the assets exclusively with the National Loans Fund, but as yet no firm decisions have been taken. The discounted liabilities figure increased significantly during the year because reviews carried out by EDF E (and independently scrutinised by the Nuclear Decommissioning Authority) identified a number of one-off increases arising as a result of refining both the plans for decommissioning the estate and the plans for managing and storing spent fuel and other radioactive wastes. It is not expected that a similar scale of increase in the liabilities will arise in the future but they will continue to be subject to regular reviews.	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– Deed Relating to the British Coal Staff Superannuation Scheme under Paragraph 2(9) of Schedule 5 to the Coal Industry Act 1994 and Deed Relating to the Mineworkers' Pension Scheme under Paragraph 2(9) of Schedule 5 to the Coal Industry Act 1994: Government Guarantees were put in place on 31 October 1994, the day the Schemes were changed to reflect the impact of the privatisation of the coal industry. They are legally binding contracts between the Trustees and the Secretary of State for Energy and Climate Change. The Guarantees ensure that the benefits earned by Scheme members during their employment with British Coal, and any benefit improvements from surpluses which were awarded prior to 31 October 1994, will always be paid and will be increased each year in line with the Retail Prices Index. The 1994 arrangements provided for the following notional sub-funds to be established within each overall fund: Guaranteed Fund; Bonus Augmentation Fund; Guarantor's Fund; and Investment Reserve. If at any periodic valuation the assets of the Guaranteed Fund were to be insufficient to meet its liabilities, the assets must be increased to bring the Fund back into balance. This might necessitate one or more of the following steps: transfer of assets from the Investment Reserve; equal transfers from the Guarantor's Fund and the Bonus Augmentation Fund; payments from the Government under the terms of the Guarantees. This is a long term contingent liability dependent on the performance of the schemes' investments and their mortality experience.</p>	Unquantifiable
<p>– Site restoration liabilities inherited from British Coal: The Department has inherited liabilities from British Coal to reimburse certain third parties with the costs necessary to meet statutory environmental standards in the restoration of particular coal-related sites. In addition to specific claims already provided for it remains possible that the Department will be held responsible for further environmental liabilities. The timing and amounts of any liability are uncertain.</p>	Unquantifiable
<p>– Feed in Tariffs: DECC faces damages claims estimated at £196m plus costs from solar energy and construction companies affected by changes to Feed in Tariffs. The claims are being defended and the preliminary hearing took place on 19 May 2014.</p>	196,000
<p>– EU Emissions Trading Scheme (ETS): Permission for judicial review has been sought by two separate claimants in respect of the treatment of airlines under the aviation ETS and by four claimants in respect of the allocation of carbon allowances in relation to stationary ETS. While one of the aviation claims is stayed the other five are in progress. Liabilities are uncertain at this stage but may result in compensation claims plus costs if the government is unsuccessful in its defence, although the Department considers there are good arguments that these claims should be made against the EU.</p>	Unquantifiable
<p>– Other: There are potential liabilities to the Department in respect of claims from suppliers, employees and/or third parties which depend on actual or potential proceedings. The timing and amounts of any liabilities are uncertain.</p>	Unquantifiable
<p>– Inventories: At 31 March 2014 the NDA held inventories of reprocessed uranic material. These materials are currently held at nil value, due to uncertainty over their future use.</p>	Unquantifiable
<p>– Pension Schemes - Deficits: Whilst not the lead employer, the NDA is the lead organisation and has ultimate responsibility for certain nuclear industry pension schemes, including the Combined Nuclear Pension Plan, the Magnox section of the ESPS, and the GPS pension scheme. Provisions for known deficits are included within NDA Nuclear Provisions, however, movements in financial markets may adversely impact the actuarial valuations of the schemes, resulting in an increase in scheme deficits.</p>	Unquantifiable

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– Subsidence damage and public safety liabilities: Licensees of mining operations are required to provide security to the Coal Authority to cover the future costs of settling subsidence damage liabilities within their Areas of Responsibility. Outside the Areas of Responsibility of the holders of licences under Part II of the 1994 Act, the Authority is responsible for making good subsidence damage. Where an Area of Responsibility is extinguished the Authority would become responsible for the discharge of outstanding subsidence liabilities. The Authority also has an on-going liability to secure and keep secured most abandoned coal mines. In all cases the liability for operating collieries is the responsibility of the licensees/lessees and security is held to address those liabilities. Both of the above liabilities have been provided for within the Coal Authority provision based on analysis of trends and claims experience. However it is possible that significant, unexpected events outside of this provision may materialise.</p> <p>In addition to the contingent liabilities outlined above the following should be noted: Wentworth Woodhouse Damage Notices have been submitted to the Coal Authority in respect of subsidence damage “in excess of £100 million” to Wentworth Woodhouse, a Grade 1 listed Country House. The Coal Authority has rejected these notices. Lands Tribunal Proceedings are ongoing and the Coal Authority will continue to strongly defend its case.</p>	Unquantifiable
<p>– Restructuring Scheme: Where liabilities transferred under the various Coal Authority Restructuring Schemes (CARS) have crystallised due to planning conditions, agreements, claims etc., provision has been made. It has not, however, been possible to quantify contingent liabilities that may arise out of indemnities or warranties that may materialise in the future.</p>	Unquantifiable
<p>– Legal claims: The Coal Authority is subject to various claims and legal actions in the ordinary course of its activities, for which provision is made in the accounts, where appropriate, on the basis of information available.</p>	Unquantifiable
<p>– Legal claims: The CNPA has a number of potential liabilities in respect of claims from employees, which depend on actual or potential proceedings. The timing and amounts of any payment are uncertain. These liabilities have not been provided for as CNPA believes that the claims are unlikely to be successful and unlikely to lead to a transfer of economic benefit.</p>	Unquantifiable
<p>– Legal claims: The NDA considers the likelihood of liabilities arising from two legal cases which are ongoing at the reporting date to be remote.</p>	Unquantifiable
<p>– Indemnities: The NDA has non-quantifiable contingent liabilities arising from indemnities given as part of the contracts for the management of the Low Level Waste Repository, Sellafield and Dounreay. These indemnities are in respect of the uninsurable residual risk that courts in a country which is not party to the Paris and Brussels Conventions on third party liability in the field of nuclear energy may accept jurisdiction to determine liability in the event of a nuclear incident. These are not treated as contingent liabilities within the meaning of IAS 37 since the possibility of a transfer of economic benefit in settlement is considered too remote.</p>	Unquantifiable

Part III: Note D - Explanation of Accounting Officer responsibilities

The Accounting Officer prepares resource accounts for each financial year.

The following individuals are responsible for the expenditure within this Estimate:

Accounting Officer: Robert Devereux

In accordance with Chapter 3 of Managing Public Money (issued by the Treasury), the following individuals have been appointed as Accounting Officers of the department's ALBs.

ALB Accounting Officers:

Dr Richard Judge	Health and Safety Executive
James Sanderson	Independent Living Fund
Michelle Cracknell	The Pensions Advisory Service
Stephen Soper	The Pensions Regulator
Tony King	The Pensions Ombudsman

Robert Devereux has personal responsibility for the proper presentation of the department's resource accounts and their transmission to the Comptroller & Auditor General, and is also responsible for the use of public money and stewardship of assets.

In discharging these responsibilities, particular regard is given to:

- observing any accounting and disclosure requirements (including any Accounts Direction) and applying suitable accounting policies on a consistent basis;
- making judgements and estimates on a reasonable basis;
- stating whether applicable accounting standards, as set out in the Financial Reporting Manual (FRM), or an organisation's version of it, have been followed, and explain any material departures in the accounts; and
- preparing the accounts on a going concern basis.

The responsibilities of an Accounting Officer, including responsibility for regularity and propriety of the public finances for which an Accounting Officer is answerable, for keeping proper records and safeguarding assets, are also set out in Chapter 3 of Managing Public Money.

In accordance with Managing Public Money requirements, the relationship between the Principal Accounting Officer and Additional Accounting Officer(s) together with their respective responsibilities, is set out in writing. Similarly, the relationship between the Principal Accounting Officer and the ALB Accounting Officer(s) is set out in writing.

Section in Part II: Subhead Detail	Service	£'000
Section I - DEL	Establishment and Development of Regional Forums on Ageing	171

Part III: Note H - Expenditure in the form of adjustable advances

Discretionary Housing Payments

A discretionary scheme that allows Local Authorities to make awards to people who qualify for Housing Benefit and who are experiencing financial difficulties with housing costs. DWP pay this to Local Authorities at the start of the year via a grant, this is reconciled at the end of the year with underspends being returned to HMT. Any shortfall would be met by DWP.

£125 million for 2014/15 was transferred from AME into DEL at the Autumn Statement 2013 for Discretionary Housing Payments, to be increased by a further £40 million from existing DEL ringfenced budgets.

Part III: Note J - Staff Benefits

For the financial year 2014-15 budget holders have delegated authority to award reward vouchers to staff under the terms of the Department's Reward and Recognition Scheme. The vouchers are for a range of well known retail outlets and are given in recognition of valuable or exceptional contributions to business performance, as well as to recognise the importance the Department places on the loyalty and commitment of employees. Individual awards will not exceed £150 and, in total, the expenditure for the Reward and Recognition Scheme will not exceed 0.25% of the DWP paybill. In practice the total expenditure is likely to be less than £3 million.

The Department operates an Employee Discount Scheme which provides staff with the opportunity to purchase a range of on-line goods and retail vouchers at a reduced price. The cost of items purchased is met by the employee however the Department pays an annual fee to a third party provider for the operation of the contract. This cost is determined by the number of employees registered with the scheme and is likely to be in the region of £50,000.

The Department also operates a Childcare Vouchers (Salary Sacrifice Scheme) which lets staff vary their contract of employment to sacrifice part of their salary (from £1 to £243 per month) in exchange for childcare vouchers. Budget holders have delegated authority to provide staff with childcare assistance, the availability, method and amount of assistance is at the discretion of the budget holder.

Part III: Note K - Contingent Liabilities

Nature of liability	£'000
Contingent liabilities disclosed under IAS 37	
Remploy Limited	Unquantifiable
<p>The Secretary of State for Work and Pensions has given a formal guarantee in respect of Remploy Limited. In the event of Remploy Limited implementing proposals for its liquidation, previously approved by the Secretary of State, the Secretary of State has agreed to pay Remploy Limited a sum equal to excess of its debts over its assets. In addition to this guarantee over Remploy's net liabilities, the Department also guarantees to cover any shortfall in its pension provision.</p>	
Financial Assistance Scheme (FAS)	Unquantifiable
<p>Regulations came into force in April 2010 enabling the transfer to Government of FAS qualifying pension scheme assets and their associated pension liabilities. As a result, the FAS pension provision (note 23a) will increase as the assets and the associated liabilities transfer. It is estimated that the total value of the assets transferred to Government will reach £1.7 billion. However, until the assets transfer it is not possible to estimate the impact on the FAS pension liability.</p>	
Transfer of State Pensions and Benefits	
<p>In 2007, regulations were put in place to allow staff employed in certain EU institutions to transfer an enhanced cash value of potential entitlement to the state pension and other contributory benefits to the Pension Scheme for Officials and Servants of Community Institutions. Until the transfer value has been calculated, a contingent liability arises. The overall time limit is 10 months between the date of application and the transfer payment, however the limits can be extended if needed.</p>	
<p>Since 2007, 1,304 transfer applications have been received, 79 per cent of which have resulted in transfer payments.</p>	
Compensation claims	Unquantifiable
<p>The Department has contingent liabilities arising from compensation payments that may become due as a result of compensation claims against the Department by staff and members of the public. Claims relate to employment tribunal, personal injury and Civil Service Appeals Board cases. There is significant uncertainty surrounding the estimated liability and the timing of payments, which can fluctuate based on various factors such as medical evidence received, witness statements and whether claims proceed to trial or are settled early.</p>	
Personal Injury Claims	
<p>HSE have received a small number of personal injury claims from employees. In two cases, it is probable that a payment will be made, but there is significant uncertainty about the timing and amount.</p>	

Part III: Note K - Contingent Liabilities (*continued*)

Nature of liability	£'000
<p>Fixed Term Appointments</p> <p>An Employment Tribunal ruled against the Department's position that the release of Fixed Term Appointment (FTA) employees at the agreed end date of their contract of employment does not constitute a redundancy situation.</p> <p>Around 3,700 FTA employees whose contracts of employment had been extended beyond two years have been released by the Department since 2008. Since then around 300 have brought redundancy compensation claims which have been settled. As the Department's liability will depend on the number of future qualifying cases brought, the value of the liability cannot be estimated with any certainty.</p>	Unquantifiable
<p>Compensation Recovery</p> <p>The Department recognises recoveries from insurance companies in respect of ongoing compensation claims made by benefit recipients. Once the recovery is made the insurance company has the right to appeal within one month. If the appeal is successful recoveries are refunded to the insurance company. Analysis of historic data suggests it is reasonable to recognise a contingent liability of £3 million for successful appeals.</p>	Unquantifiable
