1. Executive Summary

Background

1. Apprenticeships are a structured programme of training, consisting of paid employment and learning, which give people the opportunity to work for an employer, learn on the job, build up knowledge and skills, and gain recognised qualifications within a specific occupation or trade. In Wales, apprenticeships are administered by the Welsh Government.
2. The National Minimum Wage is the minimum pay per hour almost all workers in the UK are entitled to by law. As well as separate minimum rates for those aged under 18, 18 to 20 and 21 to 24, there is a distinct National Minimum Wage rate for apprentices aged 16 to 18, and those aged 19 or over who are in their first year of the Apprenticeship. All other apprentices are entitled to the National Minimum Wage for their age. From 1 April 2016, the government introduced a new mandatory National Living Wage (NLW) for workers aged 25 and above, initially set at £7.20 an hour - 50p higher than the adult NMW rate of £6.70 which applies to those aged 21 to 24. Apprentices aged 25 and above are entitled to the NLW if they are in the second or later year of their apprenticeship.

Research Objectives

3. The main aim of this research was to provide an accurate, up-to-date picture of the pay of the apprentice population, both across Great Britain, and within England, Scotland and Wales, in order to assist with development and monitoring of Apprenticeship and National Minimum Wage policy. For example, evidence from the Apprenticeship Pay Survey contributes to the Low Pay Commission's recommendations to Government for the Apprenticeship minimum wage rate.

Methodology

4. The survey comprised 9,422 telephone interviews with apprentices, conducted from 9 June 2016 to 25 July 2016; 1,793 interviews were conducted with Level 2 and Level 3 apprentices in Wales. Interviews were also conducted with Level 4 (103 interviews) and Level 5 apprentices (83 interviews) in Wales: findings for these apprentices are reported in the 'Apprenticeship Pay Survey 2016 Great Britain' report.¹
5. Further details of the survey methodology can be found in Appendix A of the GB Apprenticeship Pay Survey Report, or in the supplementary Technical Report.

¹ Apprenticeship Pay Survey 2016 Great Britain report

Key Findings

Basic hourly pay

6. Median basic hourly pay was £6.63 for Level 2 and 3 apprentices in Wales. This was the same median basic hourly pay rate that was reported in 2014, although the mean hourly pay rate decreased from £7.43 in 2014 to £6.72 in 2016. The basic pay figure has been derived by dividing all basic pay (excluding higher rate pay, tips, bonuses and accommodation allowances) by the total number of hours worked (excluding any hours worked at a higher rate, but including time spent training).

Table 1.1 Mean and Median basic hourly pay for Wales apprentices in 2014 and 2016

	<i>2014 Base:</i>	2014 Mean	2014 Median	<i>2016 Base:</i>	2016 Mean	2016 Median
Level 2 / 3	1,285	£7.43	£6.63	1,610	£6.72	£6.63
Level 2	739	£6.57	£6.37	805	£6.34	£6.26
Level 3	546	£8.42	£6.89	805	£7.11	£6.82

Base: these results are based on those for whom it was possible from their survey responses to calculate a gross hourly pay figure.

7. There were large differences by framework, as illustrated in Table 1.2. The basic hourly pay figure for Level 2 and Level 3 apprentices in Wales was lowest in the Hairdressing framework (£4.89 median).

Table 1.2 Median basic hourly pay for Level 2 and Level 3 Wales apprentices in 2014 and 2016

	<i>2014 Base:</i>	2014 Median	<i>2016 Base:</i>	2016 Median
Hairdressing	20	**	73	£4.89

Customer Service	47	£6.34	100	£7.21
Management	74	£10.95	78	£8.51

Base: these results are based on those for whom it was possible from their survey responses to calculate a gross hourly pay figure. This table is ranked in ascending order of pay.

8. Results on hourly pay by year of Apprenticeship, age and gender for Level 2 and Level 3 apprentices in Wales are shown in Table 1.3. Pay increases with age and year of apprenticeship. As in 2014, there was little difference by gender.

Table 1.3 Mean and Median hourly pay for Level 2 and Level 3 Wales apprentices

	<i>2014 Base:</i>	2014 Mean	2014 Median	<i>2016 Base:</i>	2016 Mean	2016 Median
Total	1,285	£7.43	£6.63	1,610	£6.72	£6.63
Year of Apprenticeship:						
First year of Apprenticeship	1,076	£7.50	£6.54	1,124	£6.59	£6.48

Female	477	£7.44	£6.67	704	£6.87	£6.70

Base: these results are based on those for whom it was possible from their survey responses to calculate an hourly pay figure.

Non-compliance with NMW / NLW

9. In order to assess compliance with the NMW and NLW, apprentices' pay rates were calculated according to eligibility for NMW or NLW. In summary, the figure includes: hours spent training as well as those working; unpaid overtime hours; overtime paid at the 'standard rate'; and accommodation provision and charges. It excludes (the pay and the hours) of overtime paid at a higher rate, and any tips and bonuses.
10. It is worth noting that pay could appear compliant or non-compliant due to reporting error – for example, apprentices might round their pay up or down, or misremember the number of hours they worked, leading to an erroneous gross hourly pay figure. Also, non-compliance may not necessarily be 'malicious' on the part of the employer. It can arise, for example, from an apprentice voluntarily undertaking unpaid overtime or from undertaking long hours of training in their own time. Hence an apprentice's pay may be compliant (at or above the NMW / NLW) for the hours for which they are paid, but when voluntary unpaid hours are taken into account the hourly rate falls below the NMW / NLW.
11. Looking only at Level 2 and 3 apprentices in Wales for whom compliance can be assessed, 14 per cent were paid below the appropriate NMW or NLW, in line with 12 per cent in 2014.

12. When comparing compliance levels between 2014 and 2016, it is important to note that the lowest NMW rate for apprentices (applying to those aged 16 to 18, and all those in their first year of the apprenticeship) underwent a considerable increase between October 2013 (the rate applicable at the time of the 2014 survey) and October 2015 (the rate applicable for the 2016 survey); additionally, the new NLW rate came into force from April 2016, creating a new minimum rate (£7.20) for all those aged 25 and over and in the second year of their apprenticeship or later.
13. Table 1.4 shows the proportion of apprentices in Wales with compliant and non-compliant pay, grouped by age and year of apprenticeship. In contrast to results at a GB level, where increases in non-compliance took place in those groups where larger increases in the minimum rate had been implemented, in Wales there was no increase in non-compliance among those aged 16-18 or in the first year of their apprenticeship, or among those aged 25 and over and in their second year or later. Meanwhile, the proportion of apprentices with non-compliant pay in Wales did increase among those aged 19-20 and in the second year of their apprenticeship, from 13 per cent in 2014 to 39 per cent in 2016.

Table 1.4 Compliance by age and year of apprenticeship 2014 and 2016

		2014				2016			
		<i>Base</i>		Paid NMW or higher		Paid below NMW	<i>Base</i>		Paid NMW or higher
<i>Row percentages</i>									
Age 16-18 or in first year of apprenticeship	1,186	%	94	6	1,246	%	92	8	
Age 19-20 and in second year of apprenticeship	53	%	87	13	168	%	61	39	
Age 21-24 and in second year of apprenticeship	63	%	62	38	186	%	63	37	
Age 25+ and in second year of apprenticeship	85	%	75	25	97	%	72	28	

Base: all Level 2 and Level 3 apprentices with known compliance in Wales

14. By framework, non-compliance among Level 2 and Level 3 apprentices was higher than average in Hairdressing (47 per cent), while those on the Management framework were least likely (two per cent).

15. Non-compliance falls with age, from 30 per cent among those aged 16 to 18, to 18 per cent of those aged 19-20, 11 per cent of 21-24, and 10 per cent of those aged 25 and over.
16. Those nearer the beginning of their apprenticeship were less likely to receive non-compliant pay: eight per cent of those who had been on their course a year or less were paid less than the appropriate minimum rate, compared with 34 per cent of those who had been on their course for more than a year.
17. Those who stated that they received at least one day a week of formal training on average were more likely to receive non-compliant pay (21 per cent) than those who said they did not receive at least one day of formal training each week (nine per cent). This could imply that in some cases employers are failing to pay apprentices for time spent on formal training, thus pushing up non-compliance among this group.
18. Level 2 and Level 3 apprentices in Wales that had not worked for their employer before they started their Apprenticeship were more likely to be paid below the appropriate NMW rate (23 per cent) than those who were already working for their employer at the start of the Apprenticeship (11 per cent).
19. For Level 2 and Level 3 apprentices aged 16-18 or in the first year of their Apprenticeship, the mean pay figure among apprentices with non-compliant pay was £2.80 an hour (cf. their minimum wage of £3.30). A fairly high proportion of those aged 16 to 18 or in the first year of their apprenticeship were close to the NMW level, indicating that in some cases the apparent non-compliance could be due to measurement or calculation error (e.g. respondents giving rounded figures): 44 per cent were paid within 10 per cent of the correct rate (between £2.97 and £3.29), within which a smaller proportion (seven per cent) were very close (within three pence) to the correct rate.
20. Among those aged 19-20 and in the second year or later, the mean pay figure among non-compliant apprentices was £4.47 (cf. their minimum wage of £5.30). Four per cent had a gross hourly pay figure very close to the NMW rate (between £5.27 and £5.29), and overall more than two-fifths (44 per cent) were paid within ten per cent of the correct rate.
21. Among those aged 21 to 24 and in the second year or later of their Apprenticeship, the mean pay figure was £5.58 (cf. their minimum wage of £6.70). Four per cent were paid between £6.67 and £6.69, while overall more than two-fifths (44 per cent) were paid within 10 per cent of the correct NMW amount.

22. In order to assess the potential impact of underlying pay elements on compliance, levels of pay were assessed using a number of different pay calculations:
- Hourly pay excluding unpaid overtime;
 - Hourly pay based on total weekly earnings (that is, including all tips, bonuses and higher rate pay); and
 - Hourly pay based on basic pay and hours (excluding any additional earnings and accommodation – i.e. the 'basic pay rate' used throughout the rest of this report).
23. Compliance with the appropriate NMW rate was then calculated for each of these hourly pay figures (based on those apprentices for whom compliance could be determined for *all* of the above calculated pay figures, in order to ensure like-for-like comparisons).
24. Calculating NMW with unpaid overtime removed, using the basic hourly pay rate, or based on all earnings received, does not have a significant impact on the proportion of apprentices calculated as receiving non-compliant pay, either at an overall level or within any sub groups. It therefore seems to be the case that the inclusion or exclusion of unpaid overtime, bonuses, higher rate pay and accommodation had no impact on compliance overall in Wales.

Total weekly earnings

25. The mean total weekly earnings for Level 2 and 3 apprentices in Wales was £272 (median: £258). This is largely unchanged from 2014 when mean total weekly earnings was £276 (median: £259). Overall 93 per cent of their total weekly pay came from 'basic' pay – a small but statistically significant decrease from 95 per cent reported in 2014. The remainder came from overtime (six per cent), tips (three per cent) and bonuses (one per cent).
26. Earnings varied widely by framework, with the mean total weekly pay highest among Level 2 and Level 3 apprentices on the Management framework (£383) and lowest (at £183) in the Hairdressing framework.

2. Introduction

Background

27. Apprenticeships are a structured programme of training, consisting of paid employment and learning, which give people the opportunity to work for an employer, learn on the job, build up knowledge and skills, and gain recognised qualifications within a specific occupation or trade.
28. Apprenticeships are administered by the Skills Funding Agency (SFA) in England, Skills Development Scotland (SDS) in Scotland and the Welsh Government in Wales. Although funding arrangements differ slightly in each country, in all three countries employers are required to pay wages and meet other employment costs.
29. The National Minimum Wage is the minimum pay per hour almost all workers in the UK are entitled to by law². As well as separate minimum rates for those aged under 18, 18-20 and 21 to 24, there is a distinct National Minimum Wage rate for apprentices aged 16 to 18 and those aged 19 or over who are in their first year of the Apprenticeship. All other apprentices are entitled to the National Minimum Wage for their age. From 1 April 2016, the government introduced a new mandatory National Living Wage (NLW) for workers aged 25 and above, initially set at £7.20 an hour - 50p higher than the adult NMW rate of £6.70, which applies to those aged 21 to 24.
30. The current and recent National Minimum Wage rates are shown in Table 2.1. At the time of the survey the NMW rates that applied were the 2015 rates, shown in bold.

² Exceptions include self-employed people running their own business, company directors, and volunteers / voluntary workers, and workers younger than school leaving age. The full list is available at <https://www.gov.uk/national-minimum-wage/who-gets-the-minimum-wage>.

Table 2.1 National Minimum Wage Rates (hourly)

	Apprentices (16-18 or in first year)	Under 18	18-20	21-24 ³	25 and over ⁴
From 1 October 2015 to 30 September 2016 (the rate in effect at time of survey fieldwork)	£3.30	£3.87	£5.30	£6.70	£7.20
From 1 October 2014 to 30 September 2015	£2.73	£3.79	£5.13	£6.50	n/a
From 1 October 2013 to 30 September 2014	£2.68	£3.72	£5.03	£6.31	n/a

31. At the time the study was conducted, apprentices in their first year of study or aged 16 to 18 were entitled to a minimum £3.30 an hour, apprentices aged 18 to 20 in their second or later year of their Apprenticeship were entitled to £5.30 an hour, those aged 21-24 or in their second or later year were entitled to £6.70 an hour and those aged 25 and over were entitled to £7.20 an hour.

Research Objectives

32. The main objective of this research was to provide an accurate and up-to-date picture of the pay of apprentices across Great Britain, and within England, Scotland and Wales, in order to assist with development and monitoring of Apprenticeship and National Minimum Wage (NMW) / National Living Wage (NLW) policy. For example, evidence from the Apprenticeship Pay Survey contributes to the Low Pay Commission's recommendations to Government for the Apprenticeship minimum wage rate.
33. More specifically, the research objectives were to investigate:
- The wages employers are paying apprentices.
 - The number of hours apprentices spend working and undertaking training, in order to establish their hourly wage rates.
 - The range of wage rates and differences by type of apprentice, for example by gender, age, framework, ethnicity, disability, level, number of years since starting the programme and prior employment status.

³ Rate applies to those aged 21-24 from 1st April 2016 onwards; prior to April 2016, this rate applied to all aged 21 and over

⁴ Rate applies to those aged 25+ from 1st April 2016 onwards; prior to April 2016, those aged 25+ were eligible for the rate of £6.70

- The extent to which hourly wage rates are compliant with NMW / NLW minimum hourly rates.

Methodology

34. The survey comprised a large scale survey of 9,422 apprentices, conducted by telephone from 9 June 2016 to 25 July 2016; 1,793 interviews were conducted with Level 2 and Level 3 apprentices in Wales. Respondents had to be on provision (i.e. current apprentices) at the time of the interview.
35. Further details of the survey methodology can be found in Appendix A of the GB Apprenticeship Pay Survey Report, or in the supplementary Technical Report.

Comparisons with previous Apprenticeship Pay Surveys

36. Within this report we make comparisons with the 2014 Apprenticeship Pay survey. The Apprenticeship Pay Survey 2014⁵ involved 9,367 interviews covering England (5,481 interviews), Wales (1,724 interviews) and Scotland (2,162 interviews). Fieldwork was undertaken from 22 July 2014 – 14 September 2014.
37. It is also worth noting that the questionnaire used in the 2014 survey was substantially re-designed from that used in the 2011 and 2012. For these reasons caution is needed when making comparisons between the 2016 and 2014 surveys, and the earlier Apprenticeship Pay Surveys.

Key variables used in this report

38. In the following discussion of the pay and earnings variables used in the report, it is worth noting that all pay and earnings figures are reported in gross rather than net terms. Respondents that answered in net ('take home') terms had their responses converted to equivalent gross figures (how this was done is discussed in Appendix B in the section entitled 'Net to Gross Pay Conversion Calculation').

Basic gross hourly pay

39. This is calculated from dividing weekly pay excluding overtime, tips and bonuses by weekly hours spent working and training but excluding paid or unpaid overtime.

Gross hourly pay for calculating NMW / NLW compliance

40. To determine whether hourly pay is compliant with NMW / NLW or not a rate needs to be calculated which takes into account:
 - Pay excluding any hours paid at a higher rate, tips and bonuses. (Note that although bonuses can count towards the NMW / NLW, this only applies to the pay

⁵ www.gov.uk/government/publications/apprenticeship-pay-survey-2012

period in which they are paid, and in some cases a proportion can apply to the previous pay period. As the apprentice's pay should be compliant across all pay periods, including those in which bonuses have not been paid, we have not included bonus payments in the pay to calculate NMW / NLW compliance.)

- Hours that apprentices work and train, including unpaid overtime and overtime paid at the standard rate (overtime paid at a higher rate is excluded)
 - Accommodation provision and charges.
41. If respondents were unsure of their exact pay or hours then we were not able to calculate a gross hourly pay figure. Overall, we were able to calculate an hourly pay figure for calculating compliance with the NMW / NLW for 8,950 respondents (95 per cent of all respondents).
42. The hourly pay figure calculated in this way has been used to determine compliance or not with the NMW / NLW, but the actual pay rate has not been shown other than in Figures 3.13, 3.14 and 3.15 (and the equivalents in each chapter) which show pay levels of those paid below the NMW / NLW.

Compliance / Non-compliance with NMW / NLW

43. Cases where the information supplied by the apprentice indicates that they are not being paid the NMW / NLW are described in this report as non-compliant. From the survey responses of some apprentices it was not possible to determine if their pay was compliant or not, typically those answering 'don't know' to questions covering their pay or hours, and hence for whom an hourly pay figure could not be calculated.
44. As a result of 'don't know' responses, it was not possible to calculate an exact gross hourly pay figure for all apprentices⁶. However, among those where a gross hourly pay figure could not be calculated, compliance or non-compliance with the NMW / NLW was determined for cases where:
- An individual gave a range answer on pay or hours, calculating compliance using each end of the range they gave resulted in either compliance or non-compliance;
 - If someone said they were definitely above or definitely below the relevant NMW for their age / year of Apprenticeship they were included as compliant or not;
 - If someone knew their hourly pay rate, then this answer was used to calculate if their pay was compliant or not.
45. Throughout the report, the proportion of apprentices described as receiving compliant or non-compliant pay has been based on those for whom compliance is known one way or the other, hence excluding those where it was not possible to determine compliance.

⁶ Of those for whom it was possible to assess whether their pay was compliant or not, for 94 per cent (unweighted) it was possible to calculate an exact gross hourly pay figure.

46. The relevant NMW / NLW rate for apprentices depends on their age and whether they are in the first year of their Apprenticeship or not. Where a respondent was answering using a payslip, the relevant NMW / NLW figure used the age and year of Apprenticeship *at the time period of the payslip*, not their age / year of Apprenticeship at the time of the survey.
47. Pay could appear compliant or non-compliant due to reporting error – for example, apprentices might round their pay up or down, or misremember the number of hours they worked, leading to an erroneous gross hourly pay figure. Among those with calculated pay, over two-fifths (44 per cent) were calculated as being paid within 10 per cent of the NMW / NLW rate that applied to them; in these cases, relatively small errors in measurement could have led to their pay appearing non-compliant.
48. Apprentices were asked to have a pay slip to hand when answering, overall this applied in just under two-fifths (38 per cent) of cases in Wales; where a pay slip was not available apprentices gave hours based on the previous week worked, or a typical week, and pay (either gross or net) covering a time period of the respondent's choice (e.g. weekly, monthly or annual). Evidence from other pay surveys suggests respondents are likely to overestimate hours, underestimate earnings and round numbers up or down, rather than give completely accurate figures. Given the very precise numbers in this report, small errors can substantially impact on derived pay rates. For example, a first year apprentice working 40 hours per week at £3.30 per hour will earn £132.00, but they may report this as 40 hours per week for £130. This produces a derived hourly pay rate of £3.25, which is non-compliant by two per cent.
49. Based on self-reported hourly pay figures only (that is, where the apprentice stated that they knew their hourly pay figure⁷), the level of non-compliance was significantly lower, meaning that a number of apprentices whose pay was *calculated* as non-compliant gave a stated hourly rate that was compliant with the appropriate NMW / NLW. This discrepancy could arise for several reasons: apprentices being misinformed about their hourly rate; apprentices failing to factor in elements such as overtime or accommodation; and measurement errors as described above.
50. Non-compliance may not necessarily be 'malicious' on the part of the employer. It can arise, for example, from an apprentice voluntarily undertaking unpaid overtime or from undertaking long hours of training in their own time. Hence an apprentice's pay may be compliant (at or above the NMW / NLW) for the hours for which they are paid, but when voluntary unpaid hours are taken into account the hourly rate falls below the NMW / NLW.
51. Reducing non-compliance with the NMW / NLW is a priority for the Government. There are campaigns in place to increase awareness, for example in England the Apprentices Minister writes to all new apprentices informing them of their NMW / NLW entitlement. There are resources dedicated to dealing with cases of underpayment, notably the Acas Helpline. More information about the action being taking to reduce levels of non-compliance can be found on the gov.uk website.

⁷ Three-fifths (60 per cent) of Level 2 and Level 3 apprentices in England were able to state their hourly pay (an unweighted base of 2,948).

Total weekly earnings

52. As well as calculating hourly pay, a figure has also been calculated for total weekly earnings. In addition to 'basic pay' this includes tips, bonuses and overtime.

Report Interpretation

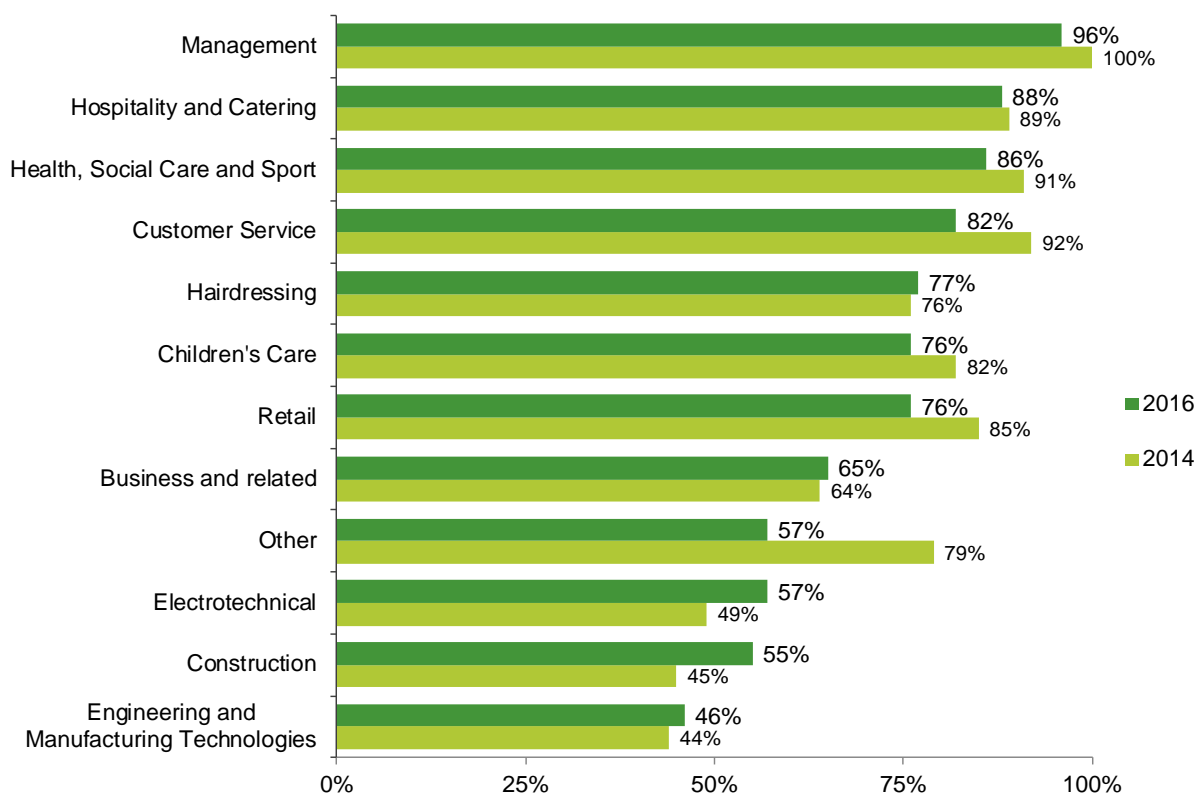

53. Throughout the report results have not been shown on tables and charts if the unweighted base size is less than 30. Where this is the case, a double asterisk (**) has been used in place of the data.
54. Where a single asterisk (*) has been used in the tables, it symbolises a percentage value greater than zero but less than 0.5 per cent. A zero percentage value is denoted by '-' in the tables.
55. Where we discuss statistical significance this is at the 95 per cent confidence level.
56. All figures on tables and charts are based on weighted findings from the 2016 Apprenticeship Pay Survey, unless otherwise stated.
57. Throughout the report, comparisons have been made between various demographic groups (age, gender etc.) as well as by factors relating to the Apprenticeship (framework, year of Apprenticeship, level etc.). Care should be taken when interpreting findings since differences may not be driven by demographic factors but may instead be explained by other underlying factors. For example, differences in total weekly earnings by gender could be related to the proportion of males and females working in higher or lower paid frameworks or by differences in working patterns (e.g. number of hours worked a week).

3. Pay levels of Level 2 and Level 3 apprentices in Wales

Routes into Apprenticeships

58. Nearly three quarters of Level 2 and 3 apprentices (71 per cent) had already been working for their employer when they started their apprenticeship. This is lower than found in the 2014 Apprenticeship Pay Survey (78 per cent), which could indicate that employers are now more likely to recruit new workers onto Apprenticeships.
59. There were noticeable differences across framework in terms of whether apprentices were working for their employer prior to beginning their training (see Figure 3.1). The frameworks with the highest proportions of those already working for their employer were Management (96 per cent), Hospitality and Catering (88 per cent) Health, Social Care and Sport (86 per cent) and Customer Service (82 per cent).
60. There were some changes by framework since 2014: Construction and related (55 per cent) and Electrotechnical apprentices (57 per cent) were more likely to have already been working for their employer in 2016 than in 2014 (45 per cent and 49 per cent respectively); conversely, in 2016 smaller proportions of apprentices in Retail (76 per cent), Customer Service (82 per cent) and Children's Learning and Development and Well Being (76 per cent) had worked for their employer before starting their apprenticeship than in 2014 (85 per cent, 92 per cent and 82 per cent respectively).
61. Similarly to the 2014 survey, results showed that the likelihood of apprentices working for their employer prior to enrolment increased with age. Less than half of 16-18 year olds (48 per cent) and two thirds of 19-20 year olds (57 per cent) worked for their employer before starting their apprenticeship. This increased to nearly three quarters (72 per cent) of 21-24 year olds and 86 per cent of those aged 25 or older. In line with 2014 results, female apprentices were also more likely to have already been working for their employer (82 per cent, compared with 60 per cent of men).

Figure 3.1 Proportion of Level 2 and Level 3 apprentices in Wales working for their employer prior to starting their apprenticeship, by framework

Base: All Wales Level 2 and Level 3 apprentices: 2014 (1,495); 2016 (1,793)

Working arrangements and number of hours contracted to work

Contractual and employment arrangements

62. The vast majority (89 per cent) of Level 2 and Level 3 apprentices in Wales reported that they had a written contract with their employer, eight per cent had no written contract, and three per cent were unsure. These results were all in line with 2014.
63. In most cases written contracts covered the full year (84 per cent of all Level 2 and Level 3 apprentices). Of apprentices contracted to work only part of the year, 16 per cent were contracted for between 12 and 26 weeks, 38 per cent for between 27 and 39 weeks, and eight per cent for between 40 and 51 weeks; the remainder were unsure of the number of weeks they were contracted to work.
64. More than three quarters (77 per cent) of apprentices had a permanent job with their employer with no fixed end date, less than in 2014 (80 per cent).

65. Employment arrangements and contractual statuses varied by framework and age, as shown in Table 3.1 Written contracts and employment arrangements by framework and age of Wales Level 2 and Level 3 apprentices. As in 2014, written contracts were least common for apprentices in Hospitality and Catering (77 per cent), Electrotechnical (80 per cent) and Hairdressing (81 per cent). Construction and related (66 per cent) and Children's Learning and Development and Well Being apprentices (67 per cent) were least likely to be employed on a permanent basis.
66. Likelihood to have a written contract increased with age, from 81 per cent of those aged 16-18 to 92 per cent of those aged 25 and over. Similarly, older apprentices were more likely to be employed on a permanent basis: ranging from three fifths (60 per cent) of those aged 16 to 18 to 89 per cent of those aged 25 or older. These results show the same patterns as the 2014 survey.

Table 3.1 Written contracts and employment arrangements by framework and age of Wales Level 2 and Level 3 apprentices

⁸ This question was asked of all apprentices, irrespective of whether or not they had a written contract.

Contracted hours versus the number of hours worked

67. The vast majority (84 per cent) of Level 2 and Level 3 apprentices worked a certain number of set hours each week, as was the case in 2014 (84 per cent). As shown in Figure 3.2, this was most often 35 to 39 hours a week (37 per cent of all Level 2 and Level 3 apprentices) or 40 to 44 hours a week (21 per cent). Apprentices had a mean of 35.1 contracted hours a week and a median of 37.5, very close to the 2014 figures (34.6 hours and 37.0 hours respectively).
68. Apprenticeship funding rules state that apprentices must be employed for at least 30 hours a week, or, in exceptional circumstances (for example due to personal situations), apprentices may work part-time for between 16 and 29 hours a week. Despite this, one per cent of apprentices in 2016 reported contracted hours of between one and 15 hours a week (down from two per cent in 2014). This was most common among apprentices in Retail (six per cent). This was also more common for Level 2 apprentices (two per cent) than Level 3 apprentices (one per cent).
69. Average contracted hours (mean: 35.1, median: 37.5) were lower than average actual hours worked (mean: 40.5, median: 40.0). Overtime hours and pay are covered later in this chapter.
70. Overall 14 per cent worked and trained more than 50 hours a week. Certain groups were more likely to be working and training for more than 50 hours a week:
 - Male apprentices (18 per cent, compared with 10 per cent of women);
 - Older apprentices (18 per cent of those aged 21-24, and 14 per cent of those aged 25 plus, compared with 11 per cent of those aged 19 to 20 and 11 per cent of those aged 16-18);
 - Those on the Hospitality and Catering (31 per cent), Health, Social Care and Sport (20 per cent), Engineering, Manufacturing Technologies and related (19 per cent), Construction and related (15 per cent) and Electrotechnical (15 per cent) frameworks.

Figure 3.2 Number of hours contracted to work versus number of actual hours working and training

Base: Contracted hours: All Wales Level 2 and Level 3 apprentices (1,793);
 Actual hours: All Wales Level 2 and Level 3 apprentices for whom a calculation of stated hours could be made (1,609)

71. Table 3.2 shows actual hours worked against the hours apprentices were contracted to work. In addition, the final column shows the percentage of apprentices who worked or trained more hours than contracted. Overall, 70 per cent of apprentices with set contracted hours worked or trained a higher number of hours than they were contracted for. This level was higher among those with lower contracted hours: nearly four-fifths (78 per cent) of those contracted for less than 20 hours a week and three-quarters (73 per cent) of those contracted for between 20 and 29 hours a week worked or trained longer actual hours than specified in their contracts.

Table 3.2 Number of hours contracted to work versus number of actual hours working and training (Wales Level 2 and Level 3)

Contracted hours	Base		Actual hours worked					% working longer actual hours than contracted ⁹
			1-19	20-29	30-39	40-49	50+

Base for contracted hours: All Wales Level 2 and Level 3 apprentices with a specified number of contracted hours. Base for actual hours: all Wales Level 2 and Level 3 apprentices for whom a calculation of hours worked could be made. Figures in bold denote figures that are higher than the overall average.

Provision of formal training

73. As part of their apprenticeship, apprentices are required to spend a minimum number of hours undertaking formal training. Although the Apprenticeship Pay Survey does not aim to separate hours spent training from hours spent working, due to interest in training levels, for the 2016 survey a question was introduced to ask apprentices if they received at least one day per week of formal training. 'One day per week' was selected as being a good approximation of the recommended amount of training, as well as being easy for apprentices to conceptualise during the telephone interview.
74. More than two fifths (45 per cent) of Level 2 and Level 3 apprentices in Wales stated that they received on average at least one day per week of formal training.
75. Receiving at least a day of formal training per week was more common among:
- Men (60 per cent) than women (29 per cent);
 - Younger apprentices (71 per cent of 16 to 18 year olds and 62 per cent of 19 to 20 year olds did so, compared with 43 per cent of those aged 21 to 24, and 26 per cent of those aged 25 and older); and
 - Those in the second or later year of their apprenticeship (49 per cent) compared with two-fifths (43 per cent) of those on the apprenticeship for a year or less.
76. There were considerable variations by framework, as shown in Figure 3.3. Spending at least one day per week on average in formal training was significantly more likely among apprentices in Construction and related (83 per cent), and least common among apprentices on the Management framework (17 per cent).

Figure 3.3 Proportion receiving at least one day of formal training per week on average, by framework (Wales Level 2 and Level 3)

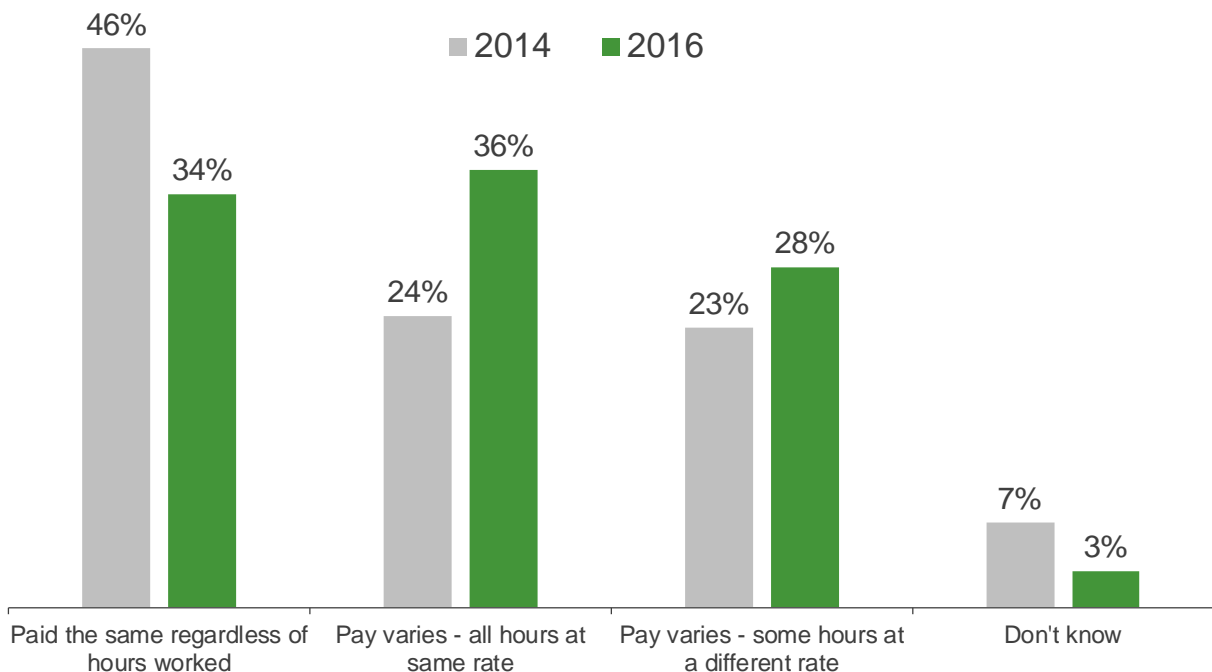

Base: All Level 2 & Level 3 Wales apprentices (range: 85 to 286)

Rates of Pay

Pay arrangements

77. Just over a third of apprentices (34 per cent) were paid the same total amount each week regardless of the number of hours they worked. Weekly pay varied for the majority (65 per cent) of apprentices; split between those for whom all hours were paid at the same rate (36 per cent) and those where some hours were paid at a different rate (28 per cent). As Figure 3.4 shows, fewer apprentices in 2016 had a fixed rate of pay compared with 2014 (46 per cent).

Figure 3.4 Pay arrangements for apprentices in 2016 and 2014 (Level 2 and 3 across Wales)

Base: All Wales Level 2 and 3 apprentices: 2016: (1,793); 2014: (1,495)

78. This fall in 2016 compared with 2014 in the proportion paid the same amount each week regardless of the hours worked was found across all frameworks, with the exception of Retail which saw a 3 percentage point increase. As Table 3.4 shows, Customer Service, Construction and related, Engineering and Manufacturing technologies, and Management frameworks saw the biggest reductions since 2014 in the proportion paid the same each week regardless of hours (each a reduction of 15-30 percentage points).

Table 3.4 Proportion paid the same amount regardless of hours worked, by framework (Wales Level 2 and Level 3)

	<i>Base (2014 / 2016)</i>	Paid the same regardless of hours worked

GB Total	1,495 / 1,793	46	34	-12

Base: All Wales Level 2 and Level 3 apprentices

79. There were few differences in terms of pay arrangements by age, although those aged under 21 were more likely than average to get paid the same amount each week regardless of hours worked. There was however substantial variation by framework, as illustrated in Table 3.5, with the proportion of apprentices that were paid the same amount each week ranging from 17 per cent in the Hospitality and Catering and Electrotechnical frameworks to 70 per cent in the Business and related framework.

Table 3.5 Pay arrangements for apprentices by framework and age (Level 2 and Level 3 across Wales)

Basic Hourly Pay levels

80. Median basic hourly pay was £6.63 for Level 2 and 3 apprentices in Wales. This was the same median basic hourly pay rate that was reported in 2014, although the mean hourly pay rate decreased from £7.43 in 2014 to £6.72 in 2016.
81. Figure 3.5 shows median hourly pay in 2016 by framework in ascending order, and compares with the corresponding figures from 2014. Information on how this figure is calculated is discussed in the Technical Report, and in Chapter 2 of the GB Apprenticeship Pay Report.
82. Frameworks that paid below the average median hourly pay included Hairdressing, Construction, Children's care, Electrotechnical, Engineering and Manufacturing Technologies, and Hospitality and Catering.
83. Hairdressing reported the lowest median hourly pay (£4.89) and Management the highest (£8.51), though the median hourly pay for the latter decreased 22 per cent from the corresponding 2014 figure (£10.95), a bigger decrease than any other framework. Median hourly pay also fell substantially in the Children's care framework, from £6.30 in 2014 to £5.44 in 2015 (a 14 per cent decrease). In contrast, the biggest increase in median hourly pay was reported in the Customer Service framework, from £6.34 in 2014 to £7.21 to 2016 (a 14 per cent increase).

Figure 3.5 Median basic hourly pay in 2016 and 2014 (Level 2 and Level 3 apprentices across Wales)

Base: All Wales Level 2/3 apprentices for whom a calculation of basic hourly pay rate was possible, by framework (2014 range: 47 to 245; 2016 range: 73 to 261)

N.b. Base size for Hairdressing too small in 2014 to provide robust comparisons

84. Table 3.6 shows mean and median basic hourly pay by key demographics. Unsurprisingly, pay increases with age, level of apprenticeship and by how long apprentices had been on their course.

Table 3.6 Basic hourly pay for Level 2 and Level 3 apprentices across Wales

	<i>Base</i>	Mean	Median
	<i>n</i>	£	£
Level			
Level 2	805	6.34	6.26
Level 3	805	7.11	6.82
Gender			
Male	906	6.58	6.48
Female	704	6.87	6.70
Age			
16-18	313	4.48	3.87
19-20	497	5.95	5.51
21-24	540	7.07	6.89
25+	260	7.79	7.21
Length of time on Apprenticeship			
One year or less	1,124	6.59	6.48
More than a year	486	7.10	6.82
Wales Total	1,610	6.72	6.63

Base: these results are based on those for whom it was possible from their survey responses to calculate a gross hourly pay figure.

85. The proportions of apprentices falling within specific pay bands – alongside comparisons with 2014 – is shown in Figure 3.6. Later in this chapter we discuss pay levels for those not receiving the NMW / NLW in full.

Figure 3.6 Distribution of basic hourly pay, 2016 and 2014 (%) (Level 2 and 3 apprentices across Wales)

Base: Wales Level 2 and Level 3 apprentices: 2016: (1,610); 2014: (1,285)

86. Peaks in the distribution of pay tended to correspond with the various NMW / NLW thresholds: i.e. between £3.00-£3.49, £5.00-£5.49, £6.50-6.99 and £7.00-£7.49. The highest peak increased from £6.00-£6.49 in 2014 to £7.00-£7.49 in 2016. Fewer apprentices in 2016 were paid £12.00 or more an hour (three per cent) than in 2014 (seven per cent), although this was more common amongst those aged 25 and over (six per cent) and Management apprentices (16 per cent).

Pay increases

87. Over two-fifths of apprentices (43 per cent) reported that their hourly pay rate had increased during their apprenticeship, higher than in 2014 (27 per cent). Increases in pay were most common amongst those aged 19-20 (48 per cent).
88. Male apprentices were more likely to have received an increase in pay compared with females (52 per cent and 33 per cent respectively).

89. Likelihood to have received a pay increase also varied considerably by framework, as shown in Table 3.7.
90. Amongst those that had experienced a pay increase, 41 per cent reported that this was because they had completed the first year of their apprenticeship (equivalent to 18 per cent of all apprentices); 14 per cent because they had turned 19 (six per cent of all apprentices); 12 per cent because they had turned 21 (five per cent of all apprentices); four per cent because they had turned 25 (two per cent of all apprentices); and 14 per cent because of the introduction of the National Living Wage (six per cent of all apprentices).
91. This meant that around a quarter of all apprentices (26 per cent) – or 61 per cent of apprentices who had received a pay increase – had experienced a pay increase due to factors that changed their NMW band (i.e. a change in age, year of apprenticeship or introduction of the NLW). It is of course the case that some apprentices may have received a pay increase without knowing the reason(s) why.

Table 3.7 Whether experienced any pay increases by framework and age (Level 2 and Level 3 apprentices across Great Britain)

Base: All Wales Level 2 and Level 3 apprentices / All Wales Level 2 and Level 3 apprentices where hourly pay could be calculated

Pay with respect to the number of hours contracted to work

92. Overall the mean basic hourly pay for apprentices with contracted hours was £6.75 and the median was £6.70. This was in line with the overall Wales average (mean of £6.72 and median of £6.63). Mean and median basic hourly pay were highest amongst apprentices who were contracted to work 16-29 hours a week (£6.83 and £6.75 respectively). Evidently, apprentices contracted on full-time hours were likely to earn less than those contracted to work part-time hours, as illustrated in Table 3.8:

Table 3.8 Mean and median basic hourly pay rate based on contracted weekly hours (Level 2 and 3 apprentices in Wales with set contracted hours)

	<i>Base</i>	Mean	Median
		£	£
Fewer than 16 hours	22	**	**
16-29 hours	163	6.83	6.75
30 hours or more	1,186	6.75	6.70
Wales Total	1,371	6.75	6.70

Base: All Wales Level 2 and Level 3 apprentices that worked contracted hours and for whom it was possible from their survey responses to calculate a basic hourly pay figure.

Premium and Overtime rates

93. Over a third (36 per cent) of apprentices were paid a different rate for some of the hours they worked.
94. Apprentices with variable hours and who answered the survey using a payslip were asked whether any of the total hours they worked in a week were paid at a higher rate than their standard rate. Around a fifth (20 per cent) were paid a higher rate for at least some of their hours. The mean higher hourly pay rate for these apprentices, where both the higher hourly rate and basic rate were calculable, was £10.85 (median: £10.23), in comparison to the overall £7.47 (median: £7.20) basic rate for this same group, a difference of £3.38 per hour. Caution should be taken when interpreting these findings due to a relatively small base size (unweighted 73).
95. Apprentices who did not answer the survey using a payslip were asked how much on average they were paid per hour for the paid overtime they had worked. The mean hourly rate for paid overtime for these apprentices was £8.38 (median: £7.50). In comparison the mean basic hourly pay rate for these apprentices was £7.00 (median: £6.89).

Total weekly earnings

Average total weekly earnings

96. The mean total weekly earnings for Level 2 and 3 apprentices in Wales was £272 (median: £258). This is largely unchanged from 2014 when mean total weekly earnings was £276 (median: £259). This total weekly earnings figure includes basic pay, pay from overtime, tips from customers and bonuses. The figure is based on Level 2 and 3 apprentices in Wales for whom a total weekly earnings figure could be calculated (1,559).
97. As shown in Figure 3.7, mean weekly earnings varied considerably by framework, ranging from £383 (median: £365) in Management to £183 (median: £170) in Hairdressing. A complete table of these figures can be found in Appendix A.
98. Figure 3.7 also illustrates the composition of total weekly earnings by each individual component: basic pay, overtime, tips from customers and bonuses. As would be expected, basic pay constitutes the greatest proportion of total weekly earnings across all frameworks (an average of 93 per cent – a small but statistically significant decrease from 95 per cent reported in 2014).
99. There were differences by framework in terms of the other components of weekly earnings:
 - The proportion of weekly earnings from **overtime** was highest in the Retail and Health and Social Care frameworks (11 per cent and nine per cent respectively), compared with an average of six per cent across all apprentices.

- **Tips from customers** was highest in the Hairdressing (six per cent of weekly pay) and Hospitality and Catering frameworks (three per cent), compared with the average of less than one per cent across all apprentices.
- The proportion of weekly earnings from **bonuses** was highest in the Retail framework (three per cent), compared with the average of one per cent across all apprentices.

Figure 3.7 Mean total weekly earnings of Level 2 and 3 Wales apprentices split by basic pay, overtime, tips and bonuses, and the percentage of the mean total weekly earnings made up by basic pay, by framework¹⁰

Base: All Wales L2 and L3 Apprentices for whom it was possible to calculate weekly earnings: 2014 (1,256), 2016 (1,559)

Earnings at basic pay

100. The mean weekly earnings from basic pay – i.e. earnings excluding paid overtime, tips from customers and bonuses – across all Wales Level 2 and 3 apprentices was

¹⁰ Some apprentices are provided with free accommodation, paid at a standard rate which is added to their pay eligible for NMW calculations of total earnings. However, because for others the cost of accommodation is deducted, and because a very low proportion of Level 2 and 3 Wales apprentices were provided with accommodation by their employer (four per cent), this has not been included in Figure 6.7.

£252 (median: £250), which is broadly in line with 2014 (mean £261; median £250). Basic pay accounted for the vast majority of total weekly earnings (93 per cent), which is a small but statistically significant decrease from 95 per cent reported in 2014.

101. As detailed in Table 3.9, there was substantial variation in weekly earnings from basic pay by framework. Those on the Management framework earned above average basic pay (mean £370; median £346), whereas earnings from basic pay was lowest for those on the Hairdressing framework (mean £169; median £156).
102. Earnings from basic weekly pay was higher than average amongst male apprentices (mean: £265; median: £261) and those aged 25 and above (mean: £279; median: £275).

Table 3.9 Mean and median total weekly earnings from basic pay for Level 2 and 3 Wales apprentices, by framework

Overtime

103. Around three-fifths (62 per cent) of Level 2 and 3 apprentices in Wales had worked overtime (either paid or unpaid) for their employer during their apprenticeship; an increase from 58 per cent in 2014.

104. Table 3.10 shows that working overtime was most common in Engineering and Manufacturing Technologies (71 per cent); Electrotechnical (70 per cent) and Health, Social Care and Sport (69 per cent).

Table 3.10 Proportion of Wales Level 2 and 3 apprentices working overtime, by framework

Wales Total	1,793	62

Base: all Wales Level 2 and Level 3 apprentices

105. Male apprentices were more likely than female apprentices to have worked overtime (66 per cent compared with 58 per cent respectively). The proportion of apprentices that worked overtime increased with age; from 55 per cent of apprentices aged 16-18 to 65 per cent amongst apprentices aged 25 or over. As Figure 3.8 shows, the

incidence of apprentices ever having worked overtime tended to be higher amongst those with a higher basic hourly pay.

Figure 3.8 Proportion of Wales Level 2 and Level 3 apprentices working overtime, by basic hourly pay

Base: All Wales Level 2 and 3 Apprentices for whom a basic hourly pay rate was calculated (1,610)

106. Among apprentices that worked overtime (and could provide information on the number of overtime hours worked¹¹), the mean number of weekly overtime hours (either paid or unpaid) was 8.0 hours (median 5.0 hours). Of those who worked overtime:

- 71 per cent worked less than 10 hours overtime per week;
- 16 per cent worked between 10 and 14 hours; and
- 13 per cent worked 15 or more hours overtime per week.

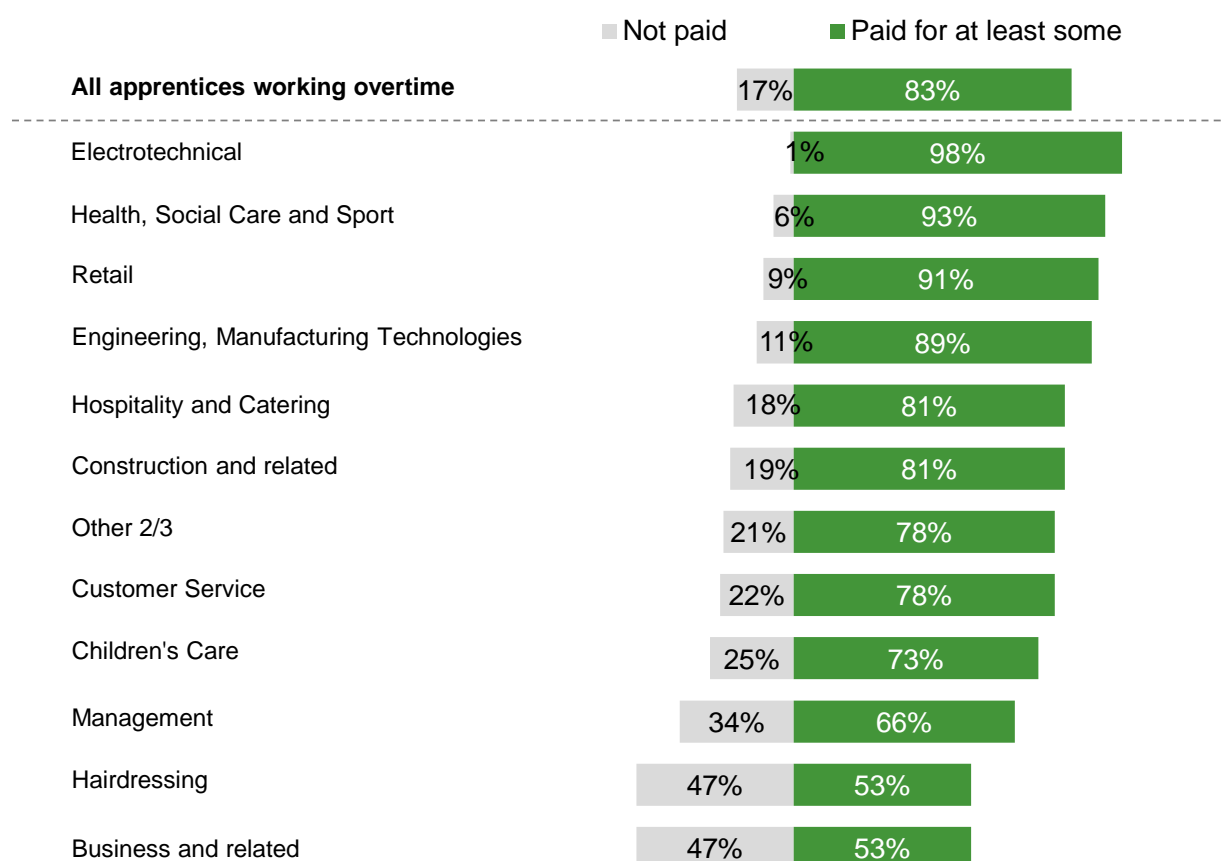

107. Due to low base sizes it is not possible to analyse by framework.

¹¹ Either in their last full working week, or a typical working week, or (for apprentices who answered with a payslip) the period covered by the payslip averaged to a weekly amount.

Earnings from overtime

108. Around four-fifths (83 per cent) of Level 2 and 3 apprentices in Wales that had worked overtime had been paid for at least some of the additional hours they worked. Seventeen per cent were not paid for any of the additional hours they worked. The proportion of apprentices that were paid for any of their overtime has increased compared to 2014 (78 per cent).
109. As shown in Figure 3.9, apprentices in the Electrotechnical and Health, Social Care and Sport frameworks were the most likely to be paid for any of their overtime hours (98 per cent and 93 per cent respectively). In the case of Electrotechnical, the proportion of apprentices that are paid for any of their overtime represents a significant increase since 2014 (from 84 per cent to 98 per cent).
110. Apprentices in the Hairdressing and Business and related frameworks were the least likely to be paid for any of their overtime hours (53 per cent of apprentices in both frameworks were paid for at least some of their overtime).

Figure 3.9 Proportion of Level 2 and 3 Wales apprentices that were paid or not paid for their overtime, by framework

Base: All Level 2 and 3 Wales apprentices working overtime, by framework (range: 45 to 191)

111. Among apprentices that were paid for at least some of their overtime hours (and were able to state how many paid overtime hours they worked in a typical week), the

mean number of paid overtime hours was 8.5 (median: 6.0 hours). Of those who worked paid overtime and could state their hours:

- 71 per cent worked less than 10 hours paid overtime;
- 17 per cent worked between 10 and 14 hours; and
- 13 per cent worked 15 or more hours paid overtime per week.
- Due to low base sizes it is not possible to report figures by framework.

112. Among apprentices that were paid for their overtime (and were able to state how much they were paid for this), the median amount earned in a week from overtime was £50.00. (mean £82.12).

Unpaid overtime

113. Apprentices should be paid for all the hours they work, but there are times where apprentices work longer hours without extra pay. This is referred to in the report as 'unpaid overtime'. Unpaid overtime could be at the choice of the apprentice, or as a result of a request from the employer; the questionnaire did not distinguish between the two¹².

114. Among apprentices that worked overtime, 17 per cent were not paid for any of their overtime hours (equivalent to 10 per cent of all Level 2 or 3 apprentices in Wales). This group reported working a mean average of 4.5 unpaid overtime hours per week (median: 2.5 hours)¹³.

Time off in lieu or flexi leave

115. Just under two-fifths (38 per cent) of Level 2 and 3 apprentices in Wales that had ever worked overtime, either paid or unpaid, were given time off in lieu or flexi leave in return¹⁴; the same proportion reported in 2014 (37 per cent).

116. The provision of time off in lieu or flexi leave was highest in the Management and 'Other' frameworks (both 68 per cent), and lowest in the Construction and Health and Social Sport frameworks (both 23 per cent). Those who were never paid for their overtime hours were more likely to be given time off in lieu or flexi leave than those who were paid for at least some of the overtime hours they worked (59 per cent and 34 per cent respectively).

¹² Where an employer has asked the apprentice to work unpaid overtime, this is counted in their total working hours and included in the calculation of their National Minimum Wage rate (discussed in the next chapter). Where the extra hours are the choice of the apprentice, these hours do not count towards their working time; however, their employer does have a responsibility to prevent this from happening.

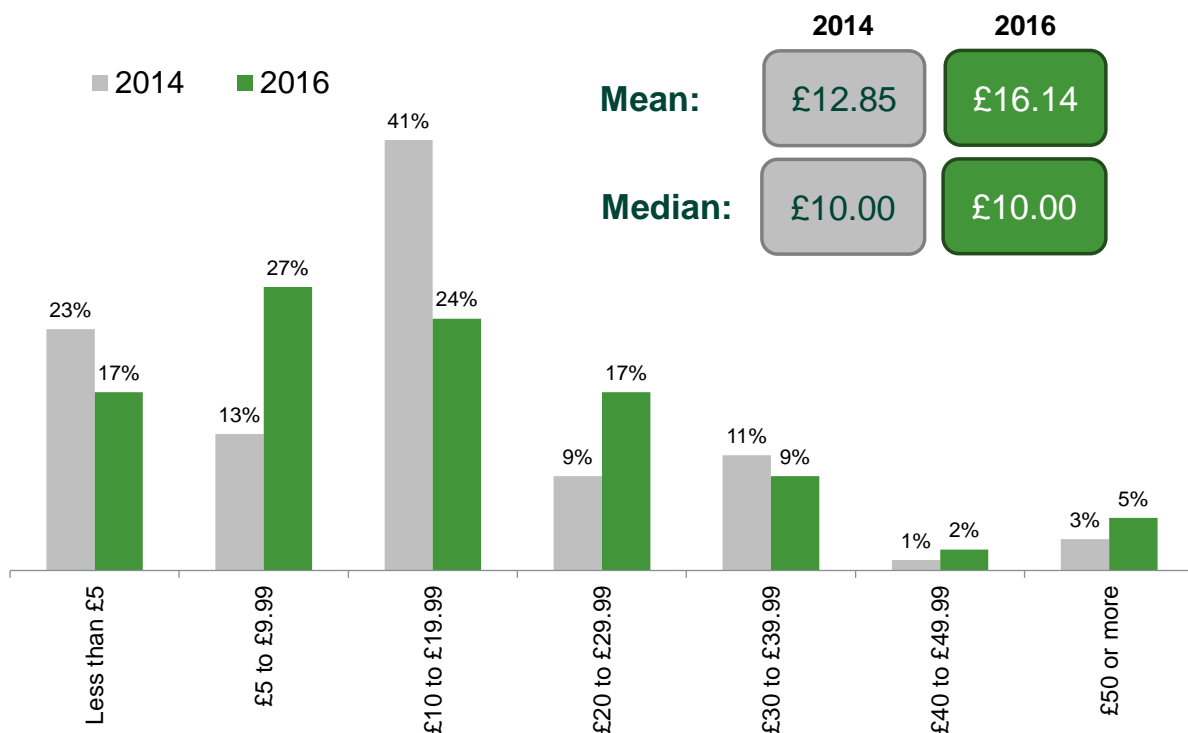

¹³ Some or all of this unpaid overtime could have been taken as flexi leave or as time off in lieu, but the extent to which this occurred was not asked in the survey.

¹⁴ Apprentices were asked "Do you ever get given time off or flexi leave in return for working overtime?" but the questionnaire did not explore how much of apprentice's unpaid overtime was taken as time off in lieu or as flexi leave.

Tips from customers

- 117. Eleven per cent of Wales Level 2 and 3 apprentices received tips from customers, an increase from six per cent in 2014.
- 118. Tips were more common among younger apprentices (ranging from 17 per cent of those aged 16-8 to six per cent of those aged 25 and over). Receipt of tips was also most common in the Hairdressing (75 per cent) and Hospitality and Catering frameworks (59 per cent).
- 119. Of apprentices receiving tips, the vast majority (84 per cent) received less than £30 in tips in a typical week (see Figure 3.10). The median amount received in tips per week was £10.00 (the same as in 2014).
- 120. As reported at the start of this chapter, tips accounted for an average of less than one per cent of total weekly earnings across all apprentices but accounted for six per cent in Hairdressing and three per cent in Hospitality and Catering.

Figure 3.10 Amount received in tips by Level 2 and Level 3 Wales apprentices in a typical week

Base for bars: All Level 2 and 3 Wales apprentices receiving tips who were able to provide either an integer or range figure (2014: 107; 2016: 193)

Base for mean/median: All Level 2 and 3 Wales apprentices receiving tips who were able to provide an integer figure (2014: 77; 2016: 156)

Bonuses

121. Under a fifth (16 per cent) of Level 2 and 3 apprentices in Wales received bonuses from their employer, in line with the proportion reported in 2014 (15 per cent).

122. Bonuses were more common among:

- Those on Engineering and Manufacturing Technologies (30 per cent), Customer Service (26 per cent), Retail (22 per cent) and Hairdressing frameworks (21 per cent).
- Younger apprentices (16 per cent of those aged 16 to 24, compared with 11 per cent of those aged 25 and over);
- Male apprentices (21 per cent, compared with 10 per cent of females);

123. Among apprentices that received bonuses, the median weekly bonus was £7.69 (mean: £21.80), similar to that reported in 2014 (median £7.69; mean £15.83). Low base sizes do not allow for meaningful analysis by framework.

Accommodation

124. The provision of accommodation by an employer to an apprentice is the only benefit in kind which can be taken into account when calculating basic hourly pay in relation to the NMW.

- If accommodation is provided for free, an “offset rate” of £5.35 (at the time of the survey) is added to the apprentice’s wages for each day that the accommodation is provided for
- When an apprentice is charged for accommodation:

If the charge for accommodation is less than the offset rate would have been no deduction is made from the apprentice’s wages

If the charge for accommodation is more than the offset rate would have been, this amount is deducted from the apprentice’s wages.

125. In line with 2014, four per cent of Level 2 and 3 apprentices in Wales were provided with accommodation, either free or charged for. Accommodation was provided for an average of five days a week (both mean and median). Accommodation was provided free of charge to three per cent of apprentices, while less than one per cent of apprentices were charged for accommodation.

126. The provision of accommodation was most common in the Electrotechnical framework (14 per cent).

Compliance with the National Minimum Wage and National Living Wage

127. This section looks at the extent to which the pay of apprentices in Wales was compliant with the National Minimum Wage (NMW) or National Living Wage (NLW) rate for their age and year of apprenticeship. Details of how non-compliance is assessed are provided in chapter 2 of the report, in the section entitled 'Compliance / Non-compliance with the National Minimum Wage (NMW) and National Living Wage (NLW)'.
128. As discussed in the Introduction (Chapter 2, paragraphs 47 - 50), pay calculated as non-compliant could reveal genuine or accidental negligence on the part of employers; however, due to the very small margins of error involved in the calculations, some cases of apparent non-compliance could be due to errors or rounding in the reporting of pay and hours figures by apprentices taking part in the research. The impact of various calculation methods is discussed later in this chapter (from paragraph 164 onwards).
129. Based only on those apprentices for whom compliance or non-compliance could be calculated given their survey responses¹⁵, 86 per cent were paid at or above the appropriate NMW or NLW, while 14 per cent were paid below the appropriate rate. This is in line with 12 per cent in 2014.
130. When comparing compliance levels between 2014 and 2016, it is important to note that the lowest NMW rate for apprentices (applying to those aged 16 to 18, and all those in their first year of the apprenticeship) underwent a considerable increase between October 2013 (the rate applicable at the time of the 2014 survey) and October 2015 (the rate applicable for the 2016 survey): the rate increased from £2.68 in October 2013 to £3.30 in October 2015 (a 23 per cent increase). Smaller increases were made between 2013 and 2015 to the minimum rates for 19 to 20 year olds in their second year or later (increasing from £5.03 in 2013 to £5.30 in 2015, a five per cent increase) and for 21 to 24 year olds in their second year or later (from £6.31 to £6.70, a six per cent increase). Additionally, the new NLW rate came into force from April 2016, creating a new minimum rate (£7.20) for all those aged 25 and over and in the second year of their apprenticeship or later.
131. Table 3.11 shows the proportion of apprentices with compliant and non-compliant pay, grouped by age and year of apprenticeship. In contrast to results at a GB level, where increases in non-compliance took place in those groups where larger increases in the minimum rate had been implemented, in Wales there was no increase in non-compliance among those aged 16-18 or in the first year of their apprenticeship, or among those aged 25 and over and in their second year or later. Meanwhile, the proportion of apprentices with non-compliant pay in Wales did increase among those aged 19-20 and in the second year of their apprenticeship, from 13 per cent in 2014 to 39 per cent in 2016.

¹⁵ An unweighted base of 1,699

Table 3.11 Compliance by age and year of apprenticeship in 2014 and 2016 (Wales Level 2 and Level 3)

<i>Row percentages</i>		2014				2016		
		<i>Base</i>	Paid NMW or higher	Paid below NMW		<i>Base</i>	Paid NMW or higher	Paid below NMW

Age 25+ and in second year of apprenticeship	%	85	75	25	%	97	72	28

Base: all for whom compliance / non-compliance could be calculated

132. As in 2014, there were considerable differences in the proportions receiving compliant pay by framework, as shown in Table 3.12. Hairdressing apprentices were by far the most likely to have received non-compliant pay (36 per cent), while those on the Management framework were least likely (two per cent). In line with the overall lack of change in non-compliance in Wales, the proportions being paid below the NMW / NLW remained in line with 2014 in framework. However, there was an increase in Children's Care (from eight per cent in 2014 to 24 per cent in 2016) and a decrease in Retail (from 18 per cent in 2014 to seven per cent in 2016).

Table 3.12: Compliance with NMW / NLW by framework for Wales Level 2 and Level 3 apprentices

Wales Total	%	1,388	88	12	%	1,699	86	14

Base: all Wales Level 2 and Level 3 apprentices for whom compliance / non-compliance could be calculated

133. Non-compliance fell with age, from 30 per cent among those aged 16 to 18, to 18 per cent of those aged 19-20, 11 per cent of 21-24, and 10 per cent of those aged 25 and over.
134. Those nearer the beginning of their apprenticeship were less likely to receive non-compliant pay: eight per cent of those who had been on their course a year or less were paid less than the appropriate minimum rate, compared with 34 per cent of those who had been on their course for more than a year.
135. Those who stated that they received at least one day a week of formal training on average were more likely to receive non-compliant pay (21 per cent) than those who said they did not receive at least one day of formal training each week (nine per cent). This could imply that in some cases employers are failing to pay apprentices

for time spent on formal training, thus pushing up non-compliance among this group. There was also a connection between total hours worked and compliance: those with non-compliant pay worked higher total hours per week (mean average: 43.0 hours) compared to those with compliant pay (mean average: 40.1 hours).

136. Non-compliant pay was more common among Level 2 apprentices (18 per cent) than those on Level 3 provision (11 per cent). Non-compliant pay was also more common among:
- Those who were not already working for their employer when they started their course or training (23 per cent) compared with existing employees (11 per cent);
 - Those employed for the duration of training only (27 per cent), compared with those with a fixed end date (17 per cent) or employed on a permanent basis (12 per cent);
 - Those without a written contract (24 per cent) compared with those with a written contract (13 per cent);
 - Those who always get paid the same amount each week (18 per cent) compared with those whose pay varies depending on the hours worked (13 per cent);
 - Male apprentices (17 per cent) compared with female apprentices (12 per cent).
137. Results for compliance by age group combined with year of apprenticeship are shown in Figure 3.11.
138. Those aged 19 and over in the first year of their apprenticeship were most likely to receive compliant pay: 91 per cent of those aged 19 to 20 and in their first year had compliant pay, rising to 97 per cent of those aged 21 to 24 in their first year, and those aged 25 and over in their first year.
139. Non-compliance was highest among those aged 19-20 and in the second year or later of their apprenticeship (39 per cent), and among those aged 21-24 and in their second year or later (37 per cent). At either end of the scale, levels of non-compliance were similar among those aged 16-18 and in their first year (31 per cent) and those aged 25 and over in their second year or later (28 per cent). A quarter of 16-18 year olds in their second year or later received non-compliant pay (26 per cent).

Figure 3.11 Compliance by age and year of apprenticeship (Wales Level 2 and Level 3 apprentices)

Base: All Level 2 & Level 3 Wales apprentices for whom a calculation of compliance could be made, by NMW / NLW eligibility (range: 66 to 396)

140. Table 3.13 and Figure 3.12 show the pay distribution for Level 2 and Level 3 apprentices in Wales, also indicating within each pay band the relevant compliance rate. These figures are again based on respondents for whom it was possible to calculate an exact hourly pay figure (1,608 of the 1,793 Level 2 and Level 3 apprentices interviewed).
141. Overall, although the level of non-compliance has remained in line with 2014, the proportion of apprentices in Wales paid over £9 an hour has decreased: 13 per cent of Level 2 and Level 3 apprentices in Wales for whom an hourly pay rate could be calculated received this rate, compared with 16 per cent in 2014.
142. As in 2014, a very small proportion of apprentices were paid £1.50 an hour or less (0.2 per cent). Two per cent were paid between £1.51 and £2.67 (below the 2014 minimum rate), and five per cent were paid between £2.68 and £3.29; the vast majority of these were eligible for the £3.30 minimum.

Table 3.13 Apprentice pay rates and compliance / non-compliance (Wales Level 2 and Level 3)

	Proportion of all apprentices in each pay / compliance band							
	£0.00- £1.50	£1.51 - £2.67	£2.68- £3.29	£3.30- £5.29	£5.3- £6.69	£6.70- £7.19	£7.20 - £9.00	Over £9.00
Compliant	N/A	N/A	N/A	18.0	18.8	10.4	25.1	12.6
Non-compliant	0.2	1.9	5.1	3.7	3.4	0.8	N/A	N/A

Base: All Wales L2 and L3 apprentices with a specific calculated hourly pay figure (1,608). Each figure is based on the overall base; hence for example 5.1 per cent of all Level 2 and 3 apprentices where an hourly pay figure could be calculated received non-compliant pay of £2.68 to £3.29 an hour.

143. As well as showing the distribution of hourly pay rates, Figure 3.12 also shows which NMW or NLW rate applied to respondents, and whether the pay was compliant or not. For example, it shows in the final column that one per cent of all apprentices for whom exact hourly pay could be calculated received over £9 an hour while needing a minimum of £5.30 an hour to be compliant, and 11 per cent received over £9 an hour while needing a minimum of £3.30 to be compliant.

Figure 3.12 Level 2 and Level 3 apprentice pay rates and non-compliance distribution (Wales)

Base: All Level 2 & Level 3 Wales apprentices with calculated hourly pay figure (1,608)

Figures not shown for results of <0.5%

144. Just over a fifth (22 per cent) of all Level 2 and Level 3 apprentices were paid between £3.30 and £5.29; the majority of these (18 per cent of all Level 2 and Level 3 apprentices) were eligible for a minimum rate of £3.30, and hence had compliant pay; however small proportions should have been receiving at least £5.30 (two per cent of all apprentices), £6.70 (one per cent) or £7.20 (one per cent).
145. Just under a quarter (23 per cent) of all apprentices were paid between £5.30 and £6.69 an hour; two per cent should have received at least £6.70 an hour, and one per cent should have received at least £7.20.
146. Ten per cent of all apprentices were paid between £6.70 and £7.19 an hour. One per cent of all apprentices were paid in this range and had non-compliant pay, as they should have received the new NLW of £7.20; prior to the introduction of the NLW in April 2016 this pay would have been compliant, suggesting that the introduction of the NLW has had a small impact on the overall level of non-compliance. Looking just at those eligible for the NLW, in total just under a third (31 per cent) had non-compliant pay, nine per cent of whom were paid between £6.70 and £7.19, at or above the pre-April 2016 minimum rate.
147. Just under two-fifths (37 per cent) of all apprentices were paid at or above the NLW rate of £7.20 an hour.

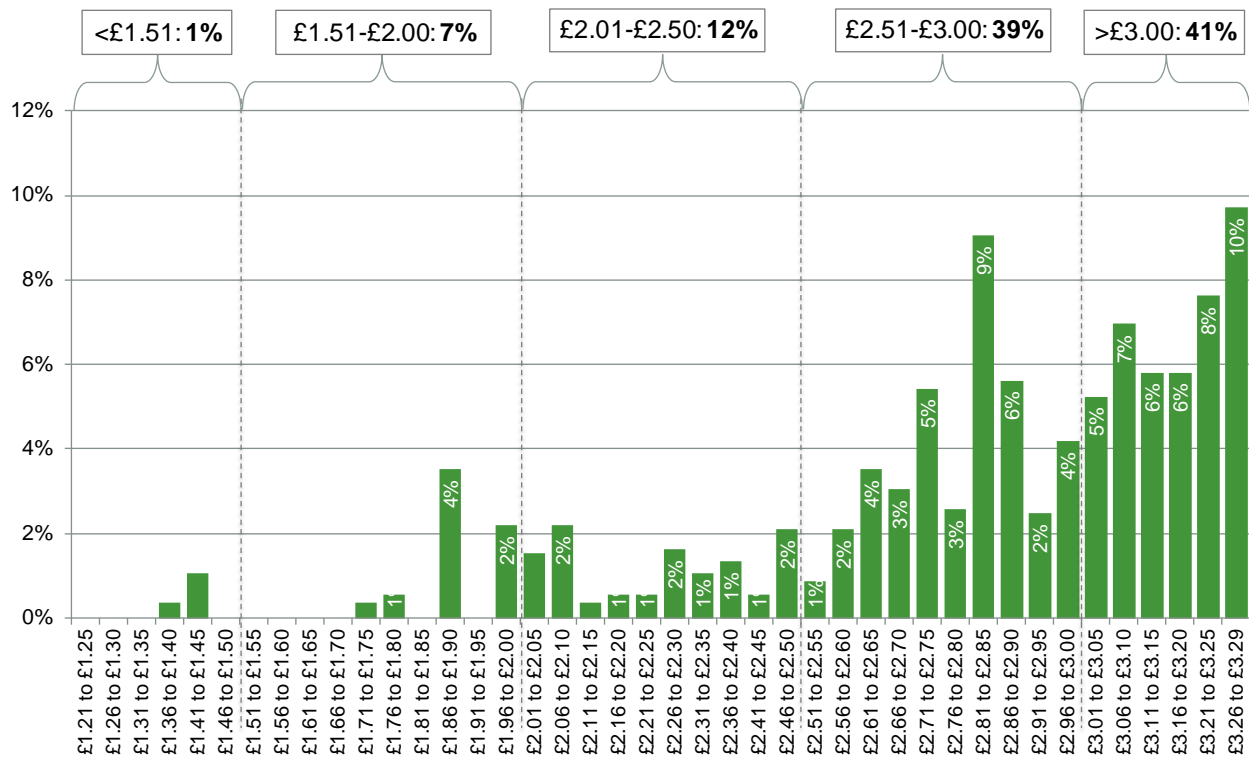

Apprentices paid less than the National Minimum Wage or National Living Wage

148. The figures in this chapter to date have looked at the rate of compliance / non-compliance among different groups. This analysis now looks at the profile of apprentices in Wales receiving non-compliant pay.
149. Among those whose pay was non-compliant with the NMW, 44 per cent were aged under 19 or were on the first year of their apprenticeship, and were therefore eligible for a minimum of £3.30 an hour; this proportion is in line with 2014, when just over a third (35 per cent) of all apprentices with non-compliant pay were under 19 or in their first year (at which point the minimum rate was £2.68).
150. Just under a fifth of those with non-compliant pay (17 per cent) were aged 25 and over and in their second year or later, and were therefore eligible for the NLW of £7.20 an hour, and the same proportion (17 per cent) were aged 19 or 20 (eligible for NMW of £5.30 an hour), while a fifth (21 per cent) were aged 21 to 24 (eligible for NMW of £6.70 an hour).

Distance from the National Minimum Wage / National Living Wage

151. Among Level 2 and Level 3 apprentices in Wales calculated to have non-compliant pay, a small proportion (five per cent) were paid very close to the relevant NMW or NLW rate (within three pence). Overall more than two-fifths (44 per cent) were paid within 10 per cent of the appropriate rate, an increase on the 31 per cent of non-compliant apprentices who were paid within 10 per cent of the appropriate rate in 2014.

Figure 3.13 Distribution of pay for those with non-compliant pay aged 16-18 or in the first year of apprenticeship (Wales Level 2 and Level 3)

Base: All Wales Level 2 & Level 3 aged 16-18 or in first year of apprenticeship with non-compliant pay (146)

152. Figure 3.13 shows the distribution of pay below £3.30 for those aged 16 to 18 or in the first year of their apprenticeship among those with calculable pay figures. (Note this section uses the calculated gross hourly pay rather than the basic hourly pay figures used elsewhere in the report – see the discussion on this in Chapter 2).
153. A fairly high proportion of those aged 16 to 18 or in the first year of their apprenticeship were close to the NMW level, indicating that in some cases the apparent non-compliance could be due to measurement or calculation error (e.g. respondents giving rounded figures): 44 per cent were paid within 10 per cent of the correct rate (between £2.97 and £3.29), within which a smaller proportion (seven per cent) were very close (within three pence) to the correct rate.
154. Overall, however, those aged 16 to 18 or in the first year of their apprenticeship with non-compliant pay were receiving higher levels of pay than found in the 2014 survey: the proportion being paid more than £2.50 an hour trebled from 26 per cent in 2014 to 80 per cent in 2016.
155. The mean pay figure for this group of non-compliant apprentices was £2.80 an hour, the median £2.88. This compares with a mean of £2.19 and a median of £2.31 in 2014.

Figure 3.14 Distribution of pay for those with non-compliant pay aged 19-20 and in the second year or later of apprenticeship (Wales Level 2 and Level 3)

Base: All Wales Level 2 & Level 3 aged 19-20 and in second+ year of apprenticeship with non-compliant pay (61)

156. Of those with non-compliant pay aged 19 to 20 and in the second year of their apprenticeship or later, four per cent had a gross hourly pay figure very close to the NMW rate (between £5.27 and £5.29), and overall more than two-fifths (44 per cent) were paid within 10 per cent of the correct rate (between £4.77 and £5.29).
157. As shown in Figure 3.14, there was a spike just above the £5.00 level, with more than one in ten (11 per cent) of apprentices with non-compliant pay receiving between £5.16 and £5.20.
158. Among those with non-compliant pay aged 19 to 20 and in the second year of their apprenticeship or later, a quarter (26 per cent) were paid more than £5.00 an hour, while a further half (52 per cent) received between £4.01 and £5.00. In contrast to the picture across Great Britain, no non-compliant apprentices in this group in Wales received less than £2.00 an hour (with £2.44 the lowest pay figure).
159. The mean pay figure for non-compliant apprentices aged 19 to 20 and in the second year of their apprenticeship or later was £4.47, and the median £4.73. Comparisons to 2014 figures are not possible in Wales for this group, due to the low base size in 2014.

Figure 3.15 Distribution of pay for those with non-compliant pay aged 21-24 and in the second year or later of apprenticeship (Wales Level 2 and Level 3)

Base: All Wales Level 2 & Level 3 aged 21-24 and in the second year or later of apprenticeship with non-compliant pay (62)

160. Among non-compliant apprentices aged 21 to 24 and in the second year of their apprenticeship or later, four per cent had a gross hourly pay figure very close to the NMW rate (between £6.67 and £6.69), and overall more than two-fifths (44 per cent) were paid within 10 per cent of the correct rate (between £6.04 and £6.69).
161. A further third (35 per cent) received between £4.66 and £6.00. However, two per cent of non-compliant apprentices in Wales aged 21 to 24 and in the second year or later of their apprenticeship reported pay of £2.00 an hour or less.
162. The mean pay figure for non-compliant apprentices aged 21 to 24 and in the second year of their apprenticeship or later was £5.58, and the median was £6.00. Comparisons to 2014 figures are not possible in Wales for this group, due to the low base size in 2014.
163. The base size for non-compliant apprentices in Wales aged 25 and over and in the second year of their apprenticeship was too low (27) to allow for analysis of pay distribution within this group.

Impact of underlying pay elements on compliance

164. In calculating the compliance of an apprentice's wages with the National Minimum Wage or National Living Wage, basic pay at their standard hourly rate, the provision of accommodation (and/or any associated charges), and unpaid overtime hours are considered (see chapter 2). It is feasible that some apprentices are intentionally paid below the NMW, for example, an hourly rate that is too low or an employer charging high amounts for live-in accommodation. Conversely, underpayment could be the result of mistakes. Earnings below NMW could arise from a delay in an apprentice's pay being increased following a change in eligibility (completing their first year or an increase in age) or from an apprentice voluntarily working additional hours on top of their paid hours. It may also occur due to mistakes by employers about which elements of apprentices' pay counts towards the minimum wage or a lack of knowledge about the NMW rates themselves.

165. This section examines the extent to which particular elements of pay may be contributing to non-compliance. To do this, a range of comparative rates were calculated (each with different pay elements included or excluded) and the compliance of the resultant rates with current NMW / NLW rates investigated. To ensure like-for-like comparisons all of the figures have been based on Wales Level 2 and Level 3 apprentices for whom compliance could be determined for all of the pay elements. Table A2 in Appendix A shows the pay elements and hours that have been included in each of the different compliance calculations:

- The NMW / NLW calculation (current method);
- Pay calculated with unpaid overtime removed;
- Basic hourly pay rate; and
- Pay calculated with all earnings and all hours.

166. Table 3.14 shows the levels of non-compliant pay resulting from each of the calculation methods.

Table 3.14 Comparison of non-compliance by different calculation methods by age, gender, year of apprenticeship, and framework (Wales Level 2 and Level 3)

		NMW (current method)	Unpaid overtime removed	Basic hourly pay rate	All earnings and all hours
	<i>Base</i>	%	%	%	%
TOTAL 2016	<i>1,607</i>	15	14	15	14
Age					
16-18	<i>313</i>	31	30	31	28
19-20	<i>498</i>	18	18	18	17
21-24	<i>542</i>	11	11	12	11
25+	<i>254</i>	9	9	9	9
Gender					
Male	<i>903</i>	17	17	17	16
Female	<i>704</i>	12	12	12	11
Year of apprenticeship					
A year or less	<i>1,129</i>	8	8	8	8
More than a year	<i>478</i>	34	34	34	31
Framework					
Business and related	<i>157</i>	14	14	14	14
Children's Care, Learning and Development	<i>110</i>	25	24	24	24
Construction and related	<i>183</i>	26	25	26	27
Customer Service	<i>101</i>	5	5	6	4
Electrotechnical	<i>145</i>	18	18	18	18
Engineering, Manufacturing Technologies and related	<i>260</i>	18	18	19	16
Hairdressing	<i>72</i>	37	35	35	31
Health, Social Care and Sport	<i>202</i>	6	6	6	6
Hospitality and Catering	<i>76</i>	8	8	8	5
Management	<i>78</i>	3	3	3	3
Retail	<i>104</i>	7	7	7	5
Other 2/3	<i>119</i>	17	17	17	16

167. As shown in Table 3.14, calculating NMW with unpaid overtime removed, using the basic hourly pay rate, or based on all earnings received, does not have a significant impact on the proportion of apprentices calculated as receiving non-compliant pay, either at an overall level or within any sub groups.
168. It therefore seems to be the case that the inclusion or exclusion of unpaid overtime, bonuses, higher rate pay and accommodation had no impact on compliance overall in Wales. However, this could be due to the fact that each of these pay elements only applied to a minority of apprentices. Looking at just the groups receiving each of these pay elements, Table 3.15 looks at just those receiving any additional earnings, and those who worked unpaid overtime, and the compliance levels for each when calculated both with and without those elements.

Table 3.15 Impact on compliance levels according to certain pay elements, among the apprentices who received that element of pay (Wales Level 2 and Level 3)

	<i>Base</i>	Proportion of apprentices	Standard non-compliance	Unpaid overtime removed	All earnings and all hours included
Received any additional earnings (tips, bonuses, or paid overtime)	587	36%	15%	n/a	12%
Worked unpaid overtime	102	6%	16%	12%	n/a

Base: All Level 2 and Level 3 Wales apprentices for whom a calculation could be made from the extra earning elements and current compliance level was known.

169. In contrast to Great Britain as a whole, where non-compliance was lower when unpaid overtime was removed or additional earnings were taken into account, in Wales, no difference was found between the two calculation methods for either group.
170. When non-compliance is estimated based on payslip information only, this has a relatively small effect, and, in contrast to the overall GB picture, non-compliance among payslip respondents is slightly higher: 15.0 per cent of payslip respondents were calculated to have non-compliant pay, compared with 14.2 per cent of non-payslip respondents. Among those respondents whose payslip contained both their pay and hours, non-compliance drops to 11.8 per cent; however, it should also be considered that there may be a bias in that the types of apprenticeships likely to provide payslips clearly showing pay and hours worked may also be more likely to provide compliant pay.

171. Based on self-reported hourly pay figures only (that is, where the apprentice stated that they knew their hourly pay figure¹⁶), the level of non-compliance was significantly lower: just two per cent of this group gave a non-compliant figure for their hourly pay. Overall, half (50 per cent) of apprentices in Wales whose pay was *calculated* as non-compliant gave a stated hourly rate that was compliant with the appropriate NMW / NLW. This discrepancy could arise for several reasons: apprentices being misinformed about their hourly rate; apprentices failing to factor in some elements of the NMW / NLW such as overtime or accommodation; and measurement errors as described in the introduction of this report (Chapter 2, paragraph 47).

Awareness of the Apprentice Rate of National Minimum Wage

172. The vast majority of apprentices in Wales (95 per cent) had heard of the National Minimum Wage, in line with 2014 (95 per cent). As in 2014, there was no difference in level of awareness between those with compliant and non-compliant pay.

Figure 3.16 Awareness of NMW, NLW and hourly rates (Wales Level 2 and Level 3)

Base: All Level 2 and Level 3 apprentices in Wales (1,793)

¹⁶ Just under two-thirds (64 per cent) of Level 2 and Level 3 apprentices in Wales were able to state their hourly pay (an unweighted base of 1,089).

173. Certain groups were less likely to be aware of the NMW, including:

- Younger apprentices (87 per cent of those aged 16-18 were aware, rising to 97 per cent of those aged 25 and older);
- Level 2 apprentices (93 per cent aware) compared with Level 3 apprentices (96 per cent aware);
- Apprentices in Hairdressing (88 per cent aware) and Construction (90 per cent aware).

174. Apprentices were less aware of the National Living Wage, which came into force from 1st April 2016; less than three-quarters (72 per cent) said they had heard of it, though this rises to 80 per cent among those affected by the NLW (i.e. those aged 25 plus). Those with non-compliant pay were less likely to have heard of the NLW (62 per cent, compared with 74 per cent of those with compliant pay).

175. Just under two-thirds (64 per cent) of Level 2 and Level 3 apprentices in Wales were aware that there is a National Minimum Wage rate for certain apprentices, up from just over half (55 per cent) in 2014. In contrast to awareness of the NMW in general, apprentices in the middle age groups were more aware of there being a NMW for apprentices: 70 per cent of those aged 19-20 and 66 per cent of those aged 21-24 were aware, compared with 63 per cent of those aged 16-18 and 59 per cent of those aged 25 or older.

176. Other groups less likely to be aware of the NMW for apprentices were:

- Female apprentices (60 per cent aware) compared with male apprentices (69 per cent aware);
- Apprentices in Health, Social Care and Sport (53 per cent) and Hospitality and Catering (51 per cent).

177. Of all Level 2 and Level 3 apprentices in Wales, a quarter (25 per cent) said they knew the minimum hourly rate for apprentices, up from 16 per cent in 2014¹⁷. Those with compliant pay were less likely to be aware of the hourly rate (24 per cent) than those with non-compliant pay (33 per cent).

178. Other groups less likely to be aware of the minimum hourly rate for apprentices included:

- Older apprentices (18 per cent of those aged 25 and older were aware, rising to 37 per cent among those aged 16 to 18);
- Female apprentices (22 per cent aware, compared with 28 per cent of men);

¹⁷ Note that while apprentices were asked if they knew the minimum hourly rate, this knowledge was not tested (i.e. they were not asked to give the hourly figure as part of the interview).

179. As shown in Table 3.16, apprentices on frameworks with above average awareness of the apprenticeship NMW also tended to have above average awareness of the hourly rate. Apprentices on Business and related frameworks had the highest awareness of the hourly rate (38 per cent), while those on the Health, Social Care and Sport framework had the lowest awareness (13 per cent).

Table 3.16 Awareness of an Apprenticeship NMW and of the NMW hourly rate by framework (Wales Level 2 and Level 3 apprentices)

	<i>Base</i>	Aware of apprenticeship NMW	Aware of hourly rate
		%	%
Business and related	174	82	38
Engineering and Manufacturing Technologies	286	77	36

WHEN TALKING TO NAMED RESPONDENT

S2 **Good morning / afternoon, my name is <NAME> calling from IFF Research, an independent market research company. We're doing a short survey for the Department for Business, Innovation and Skills <IF WALES: and the Welsh Government> <IF SCOTLAND: and the Scottish Government> about learning and training, hours of work, and pay.**

You should have received a letter in the post explaining what the survey is about. As the letter stated, you might find it useful to have a payslip or your contract with you as I will be asking some questions relating to your pay and this will help you give accurate answers. These questions are so we can understand whether employers are conforming to rules relating to fair pay.

The survey should only take 10 minutes. Would now be a good time for you to answer a few questions?

[IF WELSH SAMPLE]: INTERVIEWER NOTE: IF RESPONDENT REQUESTS AN INTERVIEW IN WELSH, SELECT CONTINUE AND CHOOSE S2A=1.

INTERVIEWER ADD IF NECESSARY:

We are not trying to sell you anything. We are only collecting information about training courses, work and pay. Your feedback is extremely important as it will help to inform Government policy on fair pay and national pay reviews which could benefit employees.

Your employer will not be informed by us that you have taken part in the survey.

The Department for Business, Innovation and Skills is the Government department in charge of in-work learning and training in England.

The Skills Funding Agency is the Government agency responsible for funding in-work learning and training in England.

The Welsh Government and the Scottish Government provide funding for in-work learning and training in Wales and Scotland.

REASSURANCES TO USE IF NECESSARY

- The interview will take around 10 minutes to complete.
- The interview is completely confidential and we will not inform your employer that you have taken part in the research
- Please note that all data will be reported in aggregate form and your answers will not be reported to our client in any way that would allow you to be identified.
- Your personal details will not be passed on to a third party without first seeking express permission.
- All personal information and pay related information will be used for analysis purposes and will not be linked directly to you or your employer
- If respondent wishes to confirm validity of survey or get more information about aims and objectives, they can call:
 - **MRS: Market Research Society on 0500396999**
 - **IFF: Tariq Oozeerally or Sam Selner on 0207 250 3035**
 - **BIS: Bryan Halka: 0207 215 5876**
 - [IF SCOTLAND SAMPLE]: **Scottish Government – Stuart King 0300 244 6786**
 - [IF WALES SAMPLE]: **Welsh Government – Claire McCloy 01443 663711**

A Course or training undertaken

ASK IF EMPLOYER NAME IS PROVIDED ON THE SAMPLE (OTHERS ASK A2)

- A1 **According to [ENGLAND: the Skill Funding Agency's] [SCOTLAND: Skills Development Scotland's] [WALES: the Welsh Government's] records we were supplied with, you are undertaking this course/training whilst working for <TEXT SUB: EMPLOYER FROM SAMPLE>. Can I check, is this correct?**

IF NO: PROBE WHETHER WITH EMPLOYER WHEN STARTED THE COURSE BUT HAVE SINCE CHANGED EMPLOYER OR DID NOT WORK FOR STATED EMPLOYER

Yes	1	ASK A3
No – that was the employer I started the course or training with but I am no longer with this employer / changed employer	2	ASK A1a
No – did not work for them. Training / course being done with a different employer	3	ASK A1a
I am not employed whilst doing this course/training	4	THANK AND CLOSE
Don't know / refused	X	ASK A3

IF NO AT A1 (A1=2 OR 3)

- A1a **What is the name of the employer you are working for?**

WRITE IN

2015	8
2014	1
2013	2
2012	3
2011	4
Earlier	5
Can't remember year	6

PROGRAMMER: whether been doing the Apprenticeship for less than a year?DUMMY QA

A year or less	(A6 = 1 or X) & (Sample indicates a year or less) Or A6=2 & [(A7 (YEAR = 2016) OR (Year = 2015 and current i.e. interview month same month or earlier than A7 month)]
More than a year	Not the above

PROGRAMMER: NOTE FOR SUBSEQUENT TEXT SUBSTITUTIONDUMMY Q1

Course name	FROM SAMPLE UNLESS T3 ANSWERED (IN WHICH CASE TAKE T3 ANSWER)
Current employer name	FROM SAMPLE UNLESS A1a OR A2 ANSWERED IF EMPLOYER NAME REFUSED / DON'T KNOW SUBSTITUTE 'your employer'

B Employment circumstances

ASK ALL

- B1 **Thinking of the employer you were working for when you started the <INSERT COURSE NAME FROM DUMMY Q1> course or training, had you already been working for them when you started the course or training?**

Yes	1	
No	2	
Can't remember	X	

- B2 THERE IS NO B2

ASK IF WORKED FOR EMPLOYER BEFORE COURSE/TRAINING (B1=1)

- B3 **Did your pay increase, decrease or stay the same as a direct result of starting your <INSERT COURSE NAME FROM DUMMY Q1> course / training?**

SINGLE CODE.

Increase	1
Decrease	2
Stayed the same	3
Changed but not as a direct result of starting the course	4
Can't remember	X

- B4 **THERE IS NO B4**

ASK ALL

B5 **Can you tell me if you are aged...READ OUT**

[IF ASKED: this is just to help us understand some of your later answers]

16-18	1
19-20	2
21-24	3
Or 25 or older	4
(DO NOT READ OUT) Refused	V

PROGRAMMER: Dummy variable "AGE AND YEAR"

Aged 16-18	B5=1 or age on sample 16-18	<i>Apprenticeship NMW applies (£3.30 per hour)</i>
Aged 19+ and in first year of Apprenticeship	((B5=2, 3 or 4) or (age on sample 19+) & (answers from A6/A7 indicate < 1 year)	<i>Apprenticeship NMW applies (£3.30 per hour)</i>
19+ and in second+ year of Apprenticeship	((B5=2, 3 or 4) or (age on sample 19+) & (answers from A6/A7 indicate 1 year plus)	<i>Relevant NMW is not Apprenticeship NMW</i>
Aged refused	Age unknown on sample and B5=V	

C Payslip, pay and hours

ASK ALL

- C1 **I am now going to ask you some questions about your pay and hours of work. For these questions, I am asking specifically about any pay you get from <INSERT EMPLOYER NAME FROM DUMMY Q1>, and not for any second jobs you might have. First can you tell me, do you always get paid the same amount each week, or does this vary depending on how many hours you work?**

SINGLE CODE

Always get the same amount each week	1
It varies depending on the hours worked	2
Don't know	3

IF VARIES DEPENDING ON THE HOURS WORKED (C1=2)

- C2 **Are all the hours that you work paid at the same rate, or do you get a higher hourly rate for some hours, for example for working overtime, at weekends etc.?**

SINGLE CODE

All paid at the same rate	1
Some paid at a different rate	2
Don't know	3

ASK ALL

C3 READ OUT. SINGLE CODE.

	Yes	No	Don't know
a) Do you have a set number of hours you are contracted to work each week?	1	2	3
IF YES AT C3 a): b) How many hours a week is this?	(allow decimals)		3
ASK ALL c) Do you ever work overtime - by this we mean any time paid or unpaid in addition to what you consider to be your [IF C3_a=2/3: normal] [IF C3_a=1: contracted] working hours?	1	2	3
IF YES at C3 c) d) Is any of this overtime or additional hours paid?	1	2	3
ASK ALL e) Do you receive any bonuses, commissions or tips	1	2	3
f) Do you receive payslips from your employer?	1	2	3
IF YES AT C3 f) g) Do you have a recent payslip to hand now?	1	2	3
IF NO / DON'T KNOW AT C3 g) h) Would it to be possible for you to get one now to assist your answers when I come to ask pay-related questions? We would strongly encourage you to use a payslip if possible, to help you answer the pay-related questions easily and quickly. INTERVIEWER NOTE: ONLY CODE YES ONCE RETURN WITH ONE	1	2	3

IF C1=1 & C3D=1

C3a **Can I just check, you mentioned that you get paid the same amount each week, but that you also sometimes do paid overtime. Are these both right?**

Yes	1	IF SO FORCE C1 = 2 AND ASK C2, THEN CONTINUE
No	2	AMEND EITHER C1 OR C3d

IF PAYSリップ AVAILABLE (C3g =1 OR C3h=1) – IF NOT GO TO SECTION D

C4 I'd like to ask you a few questions about your pay. What month and year does this payslip cover?

INTERVIEWER NOTE: Payslip might not cover the full month (i.e. it might be weekly). We are asking them to tell us "which year and month is the payslip from."

DS NOTE YEAR CODES TO REMAIN CONSISTENT WITH 2014 SURVEY, BUT SHOULD BE SHOWN IN ORDER 2016 THRU '2012 OR EARLIER' ON SCREEN

HARD CHECK: 100 MORE HOURS NOT PERMISSIBLE

IF EVER DO OVERTIME (C3 C=1) AND SECTIOND_DUM=1

- D9 **Would you say this is the usual number of hours you spend working overtime in a typical week with <EMPLOYER NAME FROM DUMMY Q1>?**

Yes	1	
No	2	
Don't know	X	

ASK IF NOT TYPICAL WEEK (D9=2 OR X)

- D10 **How many hours would you usually spend working overtime during a typical full working week? [i.e. paid or unpaid hours in addition to what you consider to be your normal working hours]**

IF DON'T KNOW PLEASE ASK RESPONDENT TO PROVIDE BEST ESTIMATE. IF RANGE PROVIDED I.E. 35-40 HOURS, PLEASE PROBE FOR EXACT FIGURE.

WRITE IN	/ HOURS A WEEK
DON'T KNOW / IT VARIES TO MUCH...X	

SOFT CHECK IF D10<10 OR D10>50:

Just to confirm, I've recorded that during a typical full working week you usually work [D10 INTEGER] hours OVERTIME. Is that correct?

Yes	1	
No INTERVIEWER NOTE: If 'no' is selected you will be automatically routed back to re-ask question D10.	2	RE-ASK D10

HARD CHECK: 100 MORE HOURS NOT PERMISSIBLE

DP: ALLOW FOR DECIMAL HOURS

ASK IF UNABLE TO GIVE USUAL HOURS WORKING OVERTIME (D10 = X)

D11 **Thinking about the last four weeks, how many hours a WEEK ON AVERAGE did you spend working overtime?**

[SO IF IN THE LAST 4 WEEKS – 8,0,0,0 hours overtime answer would be 2]

WRITE IN	/ HOURS A WEEK
Don't know	X

SOFT CHECK IF D11<10 OR D11>50:

Just to confirm, over the last four weeks on average PER WEEK you worked [D11 INTEGER] hours OVERTIME. Is that correct?

Yes	1	
No INTERVIEWER NOTE: If 'no' is selected you will be automatically routed back to re-ask question D11.	2	RE-ASK D11

HARD CHECK: 100 MORE HOURS NOT PERMISSIBLE

DP: ALLOW FOR DECIMAL HOURS

IF DON'T KNOW – PROMPT WITH RANGES [ALL RESPONDENTS WHERE AN EXACT ANSWER GIVEN INTERVIEWER TO CODE RANGE AND CHECK CONSISTENT]

None	1	20-24 hours a week	9
1-2 hours a week of overtime on average	2	25-29 hours a week	10
3-4 hours a week	3	30-34 hours a week	11
5-6 hours a week	4	35-39 hours a week	12
7-8 hours a week	5	40-49 hours a week	13
9-10 hours a week	6	50+ hours a week	14
11-14 hours a week	7	Don't know	X
15-19 hours a week	8		

DUMMY VARIABLE: D1_TOT_USUALHRS – ALLOW DECIMALS / NO ROUNDING

PROGRAMMER NOTE: NEED TO CALCULATE TOTAL “USUAL” HOURS GIVEN FOR WORKING/TRAINING AND “USUAL” OVERTIME (IF DO OVERTIME):

USUAL WORKING HOURS:

IF YES AT D4:

USUAL WORKING HOURS = SUM OF D1 AND D2

IF NO/DON'T KNOW AT D4:

USUAL WORKING HOURS = ANSWER GIVEN AT EITHER D5 OR D6

PLUS (IF EVER DO OVERTIME, C3C=1)

USUAL OVERTIME:

IF YES AT D9

USUAL OVERTIME = ANSWER AT D8

IF NO/DON'T KNOW AT D9

USUAL OVERTIME = ANSWER GIVEN AT EITHER D10 OR D11

ASK IF ASKED D1, EXCEPT IF RANGE GIVEN AT D6 OR D11 (D6RAN=1-13 OR D11RAN=1-15)

- D12 **So can I just check, based on your responses, in a typical week, you would usually spend <D1_TOT USUALHRS> hours working and training, including all paid and unpaid overtime? Does that seem accurate?**

Yes	1	
No INTERVIEWER NOTE: If 'no' is selected you will be automatically routed back to re-ask question D1.	2	RE-ASK FROM D1

E Pay, bonuses and tips

NON-PAYSLIP RESPONDENTS (IE EXCLUDE IF FULLY ANSWERED C6 TO C11) – OTHERS ASK E10

- E1 **I am going to ask you a few questions about your pay. Ideally we are interested in your gross pay - by which I mean how much you get paid BEFORE any deductions for tax, national insurance or any other deductions. Are you able to answer in terms of your gross pay?**

Yes – can answer gross pay (before deductions)	1	
No – can only answer NET pay (take-home pay)	2	
Refused	X	

ASK ALL ANSWERING ABOUT GROSS PAY (E1=1)

- E2 **Would it be easier to give your gross pay with an...?**

Apprenticeship Pay Survey 2016

We are about to carry out the 2016 Apprenticeship Pay Survey and very much hope you will be able to take part. This is an important research project providing up to date information on training, hours and pay of those in workplace training schemes and will be used by the Government when setting policy related to pay and improvements to workplace training. **By 'Apprenticeship', we mean any training leading to a nationally-recognised qualification undertaken whilst working for an employer.** Our records indicate that you are an apprentice.

An interviewer from IFF Research, an independent research organisation, will call you in the next few weeks to arrange a suitable time for you to take part in a 10-minute telephone interview. To help with providing accurate information regarding your hours and pay, **we strongly recommend that you try to have a recent pay slip or contract to hand during the interview.** The sorts of questions you will be asked are:

- the number of hours you spend working for your employer (in a typical week)
- the number of *additional* hours you spend learning and training on top of your normal work. (This could include attending college, courses, workshops or training sessions at your employer's premises or held externally, learning at home, learning from workbooks, time with your assessor, and time filling in a portfolio.)
- how much you earn (ideally the amount you earn in *gross terms* i.e. before tax, national insurance and other deductions).

These questions are asked to enable us to look at wage levels nationally, measure changes with previous years and monitor whether employers are adhering to the rules on fair pay. If you wish to find out more about the research objectives and content of the interview, please visit

<https://www.gov.uk/government/news/thousands-of-apprentices-to-take-part-in-major-pay-study--2>

Your employer will not be informed that you have taken part. The information you provide will be used for research purposes only. All your responses will be completely anonymous, and the research company will not pass us any information by which you could be identified without your permission. The research is being conducted in accordance with the Data Protection Act and the Market Research Society Code of Conduct

If you do not want to take part in the research, please call the freephone number 0800 054 2381 and quote the reference number at the top of this letter.

If you have any questions about the interview arrangements or the conduct of the study, please call **Sam Selner or Tariq Oozeerally at IFF Research on 0207 250 3035 or email ApprenticeshipPaySurvey@iffresearch.com**. If you would like to talk to someone at BIS about why the survey is being carried out, please call Bryan Halka on 0207 215 5876 or e-mail bryan.halka@bis.gsi.gov.uk.

Many thanks in advance for your help.
