CONSTRUCTION AND INTERPRETATION

1.1 Unless otherwise stated this Service Level Commitment shall be interpreted in accordance with the Franchise Agreement between the Secretary of State and the Franchisee dated March 2015. Words and expressions defined in such Franchise Agreement shall have the same meaning in this Service Level Commitment.

1.2 Terms used in this Service Level Commitment shall have the following meaning:

“Boxing Day” means 26th December of any year.

“Christmas” means 25th December of any year.

“Early Service” means the first passenger service in any Operating Day operated to meet a relevant requirement of a part of the Service Level Commitment or such other Passenger Services specified to be the Early Service in the Service Level Commitment;

“Journey Time” means the time interval in the Timetable between the departure of a Passenger Service from a relevant station and its subsequent arrival at a relevant station;

“Late Service” means the last Passenger Service in any Operating Day, operated to meet a relevant requirement of a part of the Service Level Commitment or such other Passenger service specified to be the Late service in the Service Level Commitment;

“Limited Station Stop” has the meaning given to it in clause 4.3;

“Maximum Journey Time” means the Maximum Journey Time between two stations in the Timetable required to be complied with if the Franchise is to be compliant with the Service Level Commitment;

“New Year” means 1st January of any year;

“Operating Day” means a day on which Passenger Services are required to be operated by the Franchisee to comply with the Service Level Commitment;

“Request Stop Station” means, in relation to any particular Passenger Service, a station at which such Passenger Service need only call when a passenger or intending passenger wishes to join such train or service or leave such train or service at such station;

“Route” means each of the sub divisions listed in paragraph 9 of this Service Level Commitment;

“Sleeper” means a Passenger Service including coaches containing compartments with beds and which may also include coaches for the conveyance of seated passengers;

“Summer” means that period in any year from the Passenger Change Date in May until the Passenger Change Date in September (or if this does not exist in any year until the second Saturday after August Bank Holiday Monday);
and

“Winter” means any time of the year not falling within the definition of Summer.

- 1.3 The following provisions of this Part 1 to this Appendix 1 shall apply in respect of the Service Level Commitment set out in Part 2 to this Appendix 1.

2. DAYS AND TIMES OF DAY

- 2.1 Except to the extent the context otherwise requires, references to a day (including an Operating Day) means the period commencing at 0200 on one day and ending at 0159 on the following day and references to particular days of the week shall be construed accordingly.
- 2.2 References to periods of times and periods of days include the times and days such periods start and finish.
- 2.3 All references to time are to the twenty-four hour clock.

3. SERVICES

- 3.1 Except where expressly indicated to the contrary, references to services, all services or any part or any proportion of services are to be construed as references to the Passenger Services (or the relevant part or proportion thereof) required to be included by the Franchisee in its Timetable pursuant to Paragraph 5.3 of Schedule 1.1 of the Franchise Agreement. The Service Level Commitment is a minimum specification and references to services do not include additional railway passenger services not required by the Service Level Commitment that the Franchisee may operate from time to time.
- 3.2 Except where expressly indicated to the contrary, where an interval or frequency is specified for a service, such specification shall apply at the departure point for the relevant service.
- 3.3 Except where expressly indicated to the contrary, all services are to run in both directions and the requirements of the Service Level Commitment (including any interval between services, frequency of service or stopping pattern) are to apply in each direction.

- 3.4 Unless discretion is given in the wording of this Service Level Commitment, the Franchisee must not decrease the number of services nor decrease or cut short the stopping pattern of the services specified. Where discretion is allowed this will normally be shown by using ‘may’ instead of ‘shall’ to describe the services. As noted in Paragraph 3.1 the Service Level Commitment is a minimum specification and this Paragraph 3.4 shall not restrict the ability of the franchisee to operate additional passenger services not included in the Service Level Commitment where this is consistent with its obligations under the Franchise Agreement.
- 3.5 In relation to Paragraph 3.4., where a service commences or terminates at a station which is normally intermediate in any stopping pattern, that service shall, unless otherwise indicated, call at intermediate stations shown in the Route definition.
- 3.6 Pick up/set down only trains: To assist with passenger flows, up to five services in the morning peak can be made set down only at Reading and up to five services in the evening peak can be made pick up only at Reading, providing the interval between services making normal stops does not extend to more than 15 minutes. On Fridays and Saturdays services in Flows A3 and B from London Paddington to Exeter St David’s or points west thereof may be made pick up only at Reading.

4. STATIONS

- 4.1 Except where expressly indicated to the contrary and subject always to compliance with the other provisions of the Service Level Commitment (including any Maximum Journey Times) nothing in the Service Level Commitment shall prevent services which are required to be included by, or on behalf of, the Franchisee in the Timetable pursuant to Paragraph 5.3 of Schedule 1.1 of the Franchise Agreement calling at any stations which are not specified in the Service Level Commitment or any relevant part of it.
- 4.2 The Franchisee may designate any station, at which a service calls, as a Request Stop Station. Any such designation by the Franchisee shall be clearly advertised in advance to intending passengers (including the Timetable).
- 4.3 Unless otherwise shown, the timing bands shown under the specification for a Limited Stop station refer to the time calls should be made at the station concerned.

5. CONNECTIONS

- 5.1 Except where expressly indicated to the contrary, a service that is required to be included in the Timetable shall be provided so as to enable travel between the stations specified without passengers being required to change train. Where a service may be provided by a Connection or where a Connection is required to be provided between two services, such service or combination of services may be provided without change of train being required.

- 5.2 Except where expressly indicated to the contrary, where Connections are required to be provided by the Franchisee, they shall conform to the requirements laid out in the Connections section of the introductory pages of the current “National Rail Timetable”.
- 5.3 Except where expressly indicated to the contrary, where services are subject to Maximum Journey Times, such Maximum Journey Times need not apply where the services are required to be, or may be, provided by Connections and such Connections are actually provided.

6. BANK HOLIDAYS

In the event of a Bank Holiday, and on the Weekdays between Christmas and the New Year, the service required to be included in the Timetable for such day shall be the service required to be included on a Saturday for each station with capacity enhanced if potential loadings indicate this will be required. There is no requirement to provide any service on Christmas or Boxing Day. Services on 24 December and 31 December may commence to run down after 2000.

7. SERVICE INTERVALS

- 7.1 Except where expressly indicated to the contrary, where the Franchisee is required to include within the Timetable services for a specified period (which period shall commence and end with an Early Service and / or end with a Late Service), with a specified interval between each such service during such period, then the following shall apply:

- (a) the minimum number of services to be included in the Timetable in such period shall be determined in accordance with the following formula:

$$S = \frac{TM}{IM}$$

where:

S is the minimum number of services to be included in the Timetable;

TM is the total minutes in the specified period; and

IM is the number of minutes in the specified interval, rounded down to the nearest whole number;

- (b) the interval between any two services during such period may be extended by:
- (i) five minutes; or,
 - (ii) if greater, an amount of minutes equivalent to one-sixth of the specified interval between each service rounded down to the nearest whole number, subject to the other provisions of this paragraph 7.1 and such extension not exceeding ten minutes;

(c) the interval between any two services may be reduced, subject to the other provisions of this paragraph 7.1, below the interval between each service required in accordance with paragraph 7.1(a) for such period, by such amount as the Franchisee may determine, provided that the quantum of services is maintained and provided that;

(d) the interval between services during such specified period shall be such that, for any period which occurs during such specified period and has a duration equivalent to:

$$((4 \times SI) + E) \text{ minutes}$$

where:

SI is equal to the specified interval between such services; and

E is equal to the extension permitted to such interval under paragraph 7.1(b),

at least four services shall be included in the Timetable in such period; and

(e) the intervals between the start of such period of time and the first service in such period (save where such period of time starts with an Early Service) and between the last service in such period and the end of such period (save where such period of time ends with a Late Service) shall each be no more than the interval between each service specified for such period and (save where such period of time starts and/or ends with an Early Service/Late service) one of such intervals shall be no more than half such interval between each service.

7.2 Except where expressly indicated to the contrary, where one period ends and another period begins immediately thereafter and services are specified at different intervals for each such period, the maximum interval between the last service in the first period and the first service in the second period shall be the longer of the maximum intervals allowed for each such period.

7.3 An exception to a specified standard service interval may be shown as permitted if

(a) $(SI + E)$ is exceeded by the interval between two successive trains and/or

(b) The addition of two or more intervals in a sequence of four services is greater than $(\text{the number of intervals involved} \times SI) + E$.

Where an exception to a regular interval is shown in this Service Level Commitment paragraph 7.1 (b) shall not apply.

7.4 Paragraph 7.1 (d) does not apply where an exception or extension to Interval is permitted.

9 NEW STATIONS, NEW ROUTES AND CROSSRAIL

- 9.1 This SLC and/or one or more SLCs applying to dates following the expiry of this SLC will be amended to facilitate and require the serving of already (at the time of signing of the Franchise Agreement) funded new stations once open at Marsh Barton, Edginswell, Tavistock and (from December 18 at the earliest) Reading Green Park. This is likely to entail redrafting of the SLC once the associated Timetables are validated by Network Rail through the industry process set out in the Network Code. Until then a notification to Network Rail by the Franchisee for a Timetable to include (or make passive provision for) calls at one or more of these stations will even if outside SLC parameters (to the extent driven by the new station) be a compliant bid in so far as the Franchise Agreement is concerned.
- 9.2 This SLC and/or one or more SLCs applying to dates following the expiry of this SLC may be amended to facilitate and require the serving of new Routes once open in connection with Metro-West. This is likely to entail redrafting of the SLC once the associated Timetables are validated by Network Rail through the industry process set out in the Network Code. Until then a notification to Network Rail by the Franchisee for a Timetable to include (or make passive provision for) services serving such a Route or Routes will even if outside SLC

parameters (to the extent driven by the new Route or Routes) be a compliant bid in so far as the Franchise Agreement is concerned.

- 9.3 This SLC and/or one or more SLCs applying to dates following the expiry of this SLC may be amended to facilitate and require the transfer of elements of or complete Routes to Crossrail provision by another operator. This is likely to entail redrafting of the SLC once the associated Timetables are validated by Network Rail through the industry process set out in the Network Code. Until then a notification to Network Rail by the Franchisee for a Timetable to include (or make passive provision for) services impacted by such a change will even if outside SLC parameters (to the extent driven by the Crossrail provision) be a compliant bid in so far as the Franchise Agreement is concerned.

Capacity Requirement

1. Capacity Requirement for AM Peak at Key Locations

It is a mandatory requirement that the Franchisee must maintain at least the same number of seats in standard accommodation provided by the franchisee of the Greater Western franchise ending in September 2015 in the morning peak to each of London Paddington, Bristol Temple Meads, Cardiff Central, Exeter St Davids, Plymouth and Truro.

The capacity and connectivity provided by franchised train services and included in the May 2015 timetable is the base position and is to be maintained as a minimum throughout the franchise term, subject to the service structure changes mandated through the introduction of Crossrail train services and other service changes required by this document.

The May 2015 capacity requirement is specified below:

Arriving into: 0700-0959	Paddington	Bristol TM	Cardiff C	Exeter St D	Plymouth	Truro
London trains	22,319	3,402	3,402	1,890	1,134	1,134
Non-London trains		6,462	1,072	2,164	617	1,224
Total	22,319	9,864	4,474	4,054	1,751	2,358

Note: London trains comprise both trains destined for Paddington and those that originated at Paddington

2. Capacity Requirement for AM Peak Into London Paddington

An increment in morning peak passenger capacity will be delivered into London in conjunction with Crossrail by December 2019. The first phase of Crossrail services will commence operation in May 2018 with the transfer of two franchise services per hour to Crossrail, which will provide a capacity uplift into London (although the franchisee will provide a reduced level of capacity from this point). The second phase will commence operation in December 2019 when further franchise services transfer to Crossrail and additional Crossrail services are provided. The franchisee will therefore provide less capacity from December 2019, although overall there will be a net increase in capacity into London Paddington.

The franchisee will provide Intermediate stages of additional capacity into London Paddington. The first of these will take place from the May 2017 timetable and the second from the December 2018 timetable.

The minimum capacity requirement provided by the franchisee in the morning peak for Paddington, taking these interventions into account, is specified below:

Minimum amount of standard class Total Capacity required arriving at Paddington 0700-0959			
From May 2017	From May 2018	From December 2018	From December 2019
28,800	25,200	31,000	24,200
<i>Included in these numbers are:</i>			
Minimum standard class Total Capacity to be provided on trains arriving 0800-0859			
11,800	10,600	11,500	8,200
Minimum number of standard class seats to be provided on Main Line trains arriving 0700-0959			
14,400	14,400	21,100	21,100
Minimum number of standard class seats to be provided on Main Line trains arriving 0800-0859			
6,000	6,000	7,100	7,100

Notes:

- 1) *These figures exclude capacity provided by Heathrow Express, Heathrow Connect and Crossrail;*
- 2) *The 'Main Line' is defined as a train passing Ealing Broadway on the main line (as opposed to the Relief Line) under normal operating conditions; and*
- 3) *Standing capacity on Main Line trains cannot be counted towards the overall capacity number.*

3. Capacity Requirement for AM Peak Into Bristol

An increment in the Great Western franchise operated morning peak passenger capacity to be delivered into Bristol Temple Meads by March 2019 is specified below:

	Arriving 0700-0959	Arriving 0800-0859
London trains	4,100	800
Non-London trains	9,000	4,100
Total	13,100	4,900
