

Data included in 1st August 2017 online Health Profiles update

Data for the indicators listed below have been added to or removed from the Health Profiles (HP) data tool as part of the August update - see www.healthprofiles.info. All indicators are at England and both tiers of local authorities unless otherwise stated.

Health Profiles indicator number	Health Profiles indicator name	Time period added	Updated specifically for HP?	Already in public domain in exact format?
22	Estimated dementia diagnosis rate (aged 65+)	2017	No, updated in PHOF	Yes, published by NHS Digital and PHE in Dementia Profiles

The following indicators have been updated in the Health Profiles data tool since the previous update on 3rd May, in order to keep them consistent with other PHE Official Statistics products:

Health Profiles indicator number	Health Profiles indicator name	Time period added	Updated specifically for HP?	Already in public domain in exact format?
12	Smoking prevalence in adults	2016	No, updated in Local Tobacco Control Profiles and PHOF	Yes, published by PHE in products (including Health Profiles) on June 15th
20	New sexually transmitted infections (STI)	2016	No, updated in Sexual and Reproductive Health Profiles	Yes, published by PHE in products (including Health Profiles) on June 15th
