

Data to be included in 3rd May 2017 Wider Determinants of Health update

Data for the indicators listed below will be added to the Wider Determinants of Health data tool as part of the May update – see fingertips.phe.org.uk/profile/wider-determinants.

Indicator Name	Time period added	Already in public domain in exact format?
Air pollution: fine particulate matter	2015	Yes, published by Defra
Density of fast food outlets	2014	No*
Economic inactivity rate	2015/16	Yes, published by nomis
Long term claimants of Jobseeker's Allowance	2016	Yes, published by nomis
Individuals not reaching the Minimum Income Standard [^]	2012/13-2014/15	No**
Inequality in life expectancy at birth ^{^^}	2013-2015	No
19-24 year olds not in education, employment or training [^]	2016	No***

* Lower tier local authority data without confidence intervals are already published by PHE. The upper tier local authority and regional data, and lower tier confidence intervals are not previously in the public domain.

** A chart of these data is published by the Joseph Rowntree Foundation in their annual Households below a Minimum Income Standard report, however the underlying data are not published.

*** Confidence Intervals are calculated from values published by the Department for Education in this format.

Indicators are available at lower tier, upper tier, regional and England geographies except where the following notes apply:

[^] Indicator available at regional geography only.

^{^^} Indicator available at local authority geography only.
