Thanks [REDACTED], Carol

The attachment just included one sheet, with no signature. Ideally we would like to see any report on headed notepaper with the Veterinary practice's details on it, but at the very least we would want to see the vet's name (including RCVS number) and signature on any report. Otherwise, as [REDACTED] says, it's just a piece of paper.

Regards

Thanks Carol

Thanks Carol, however if, like me, the circus team cannot read all the details on the letter itself then it is a useless piece of paper. People, artis, and others could say you made it all up, of course we know that you didn't but I would suggest you cover all possibilities. Did you copy it on your phone? You really need to scan the whole document in and then save it and attach as a file document in my opinion. Maybe defra can read the whole document as it is but I can't.

Best wishes

Dear all

I have spoken to the vets as we are no longer in that town, they are going to or post me a report or email it about Zebedee. I am home next week so if they have not emailed it I am hoping the report will be at home and I can send you the copy
