Registered Medical Practitioner in England and Wales have a statutory duty to notify a Proper Officer of the local authority, often the CCDC (Consultant in Communicable Disease Control), of suspected cases of certain infectious diseases:

| | | |
|----------------------------------------|----------------------------------------|--------------------------|
| Acute encephalitis | Haemolytic uraemic syndrome * | Rubella |
| Acute infectious hepatitis | Infectious bloody diarrhoea * | SARS * |
| Acute meningitis | Invasive group A Streptococcal disease | Scarlet fever |
| Acute poliomyelitis | Legionnaires disease * | Smallpox |
| Anthrax | Leprosy | Tetanus |

| Diphtheria | Mumps | Whooping cough |
| Enteric fever (typhoid or paratyphoid) | Plague | Yellow fever |
| Food poisoning | Rabies | |

* Notifiable from 6th April 2010

Notifications of infectious diseases, some of which are later microbiologically confirmed, prompt local investigation and action to control the diseases. Proper officers are required every week to inform the PHE (formerly the Registrar General) anonymised details of each case of each disease that has been notified. PHE has responsibility of collating the weekly returns from proper officers and publishing analyses of local and national trends.
