

Field inspection of Part B deliberate release to assess compliance with Part VI Environmental Protection Act 1990 and the Genetically Modified Organisms (Deliberate Release) Regulations 2002

Consent reference 16/R08/02

Consent holder Rothamsted Research.

Species *Triticum aestivum* (wheat)

Details of the GMO Two separate plant lines modified for increased SBPase protein levels and activity.

APHA report number 16/R08/02 INSP 01 (2017)

Site details Harpenden, Hertfordshire.
OS Reference TL 121 131

Site inspection date 18/07/2017

Site inspection number 1

Staff seen Consent Holder; Cereal Transformation Scientist; Head of Farms and Estates.

Inspection details The Genetic Modification Inspectorate carried out a post-flowering / pre-harvest inspection of this 2017-sown research trial of GM *Triticum aestivum*. Checks were made on the size and layout of the GM plots and non-GM pollen barrier, the arrangements in place for growing-season monitoring, and plans for harvesting and post-harvest monitoring. All were in accordance with the requirements specified in the consent.

Report conclusions The Genetic Modification Inspectorate is content that the release is consistent with the conditions and limitations specified in the consent. No risks to human health or the environment, posed by the genetically modified organism, were identified.

Action taken None.
