

# Consultation response from the Forum of Private Business

Dear Alba,

Having spoken to a small sample of our larger members the feedback from the Forum of Private Business is as follows:-

## **2. Questions for consideration**

### **Q1. Do you agree with the proposed changes to the thresholds?**

Yes these proposals sound sensible and fair in the circumstances

### **Q2. Do you agree with the potential benefits of these proposals?**

I feel you could have laid out the features and benefits a little more simply and clearly in the document but we feel that they outweigh any downside, though again a little more detail on potential downsides would have been useful, perhaps you could look at stating the risks and benefits separately and with a little more clarity in any future documents, we aren't experts in this area so simple and clear works well!

### **Q3. Do you have any other comments about the proposed changes**

Other than those stated above, no and I hope our feedback helps.

Regards Ian
