3.02	Chlamydia detection rate (15-24 year olds)	2016	Updated data (baseline 2012). Inequalities data by gender.	Yes, added to PHE products (including PHOF) on June 15th

**Policy refresh: indicators for 2016 to 2019**

The Public Health Outcomes Framework was refreshed in May 2016, following a consultation in 2015. Details of the new framework can be found in the [government response to the consultation](#).

Note: More details on the indicators and their sources can be found in the definitions tab of each indicator in the Public Health Outcomes Framework data tool ([www.phoutcomes.info](http://www.phoutcomes.info)).
