

# Sharing your information to provide better care

To help your GP or other hospitals, in order to ensure continuity of care.

With other organisations which provide expert support services such as blood test processing and clinical alerts.

Data is only shared with those who need to see it in order to provide you with care and support.

To provide you with appropriate treatment, we need to share information about you with other organisations.

For more information about how we use and share information visit our website: [royalfree.nhs.uk/privacy](http://royalfree.nhs.uk/privacy)
