

# **Triton Knoll Offshore Wind Farm Project**

.....

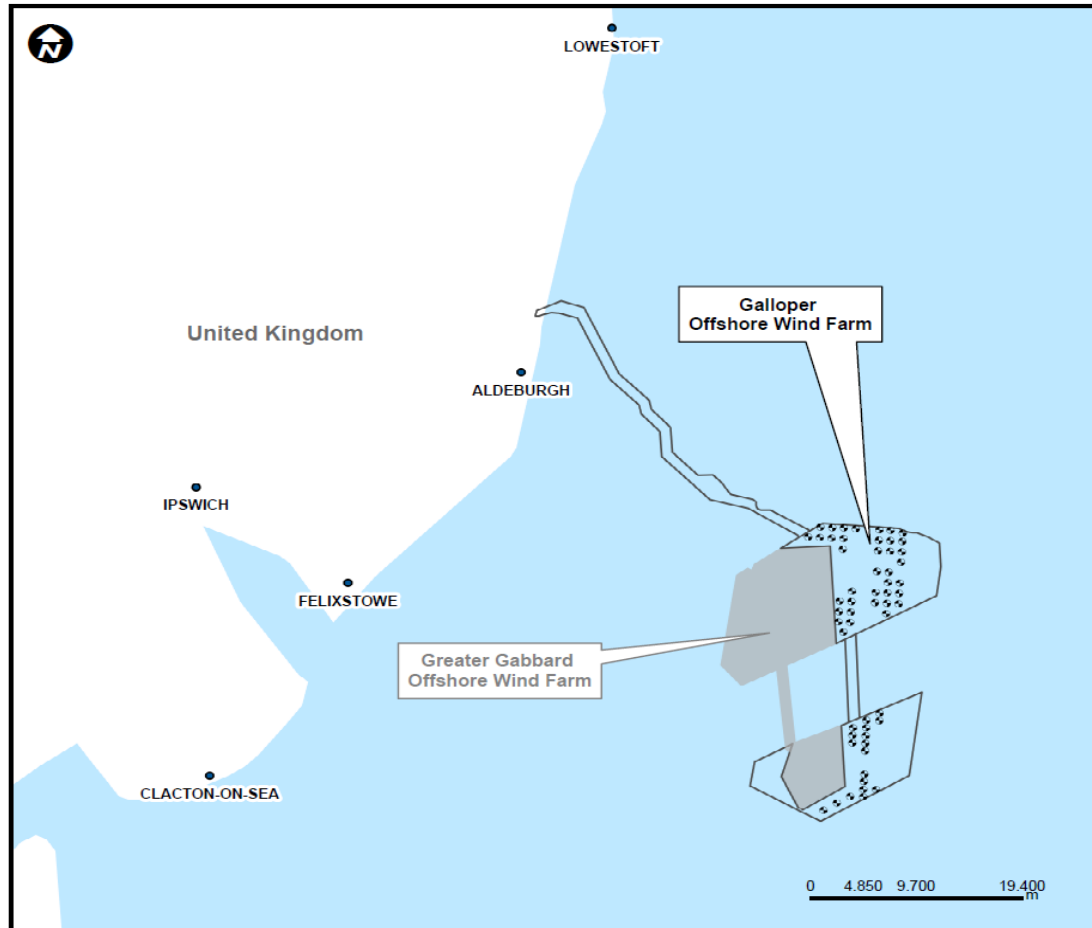

## **EV144: Galloper presentation 1**

**Toby Edmonds**  
**Project Director, GWFL**

# Galloper Offshore Wind Farm

## History

- Awarded development rights by The Crown Estate in May 2010
- Granted development consent in May 2013 by the Secretary of State for Energy and Climate Change
- October 2014 Ofgem awarded GWFL a grace period under the Renewable Obligation (RO) scheme
- Early ground enabling works took place from June to November 2014.
- And then...

## Moving forward

- Revised business case
- Optimised project design – working with Siemens
- Launched the banking and new partner process in February 2015
- On October the 30<sup>th</sup> reached Financial Close

So in:

- 8 months
- 3 new project partners
- 13 new investors
- Confirmed the key contractors

**SIEMENS**

## Next steps

- RWE Innogy will continue to have day to day management of the project
- Overall construction will take place from now until operation in March 2018
- Long and short terms bases for construction, turbine assembly, operations & maintenance
- Tier 2 & 3 contracts will be placed by us and our contractors
- Continue our work in the local community
