Table 1:	Gazetteer of heritage assets for the South Cheshire area	3
----------	--	---

1 Introduction

1.1 Structure of the cultural heritage appendices

1.1.1 The cultural heritage Appendices for the South Cheshire community area (CA5) comprise:

- a baseline report (Volume 5: Appendix CH-001-005);
- a gazetteer of heritage assets (this Appendix);
- an impact assessment (Volume 5: Appendix CH-003-005); and
- survey reports, incorporating geophysical survey and remote sensing studies, which are available in the Background Information and Data document¹.

1.1.2 In addition there are two route-wide cultural heritage Appendices:

- a historic landscape character report (Volume 5: Appendix CH-005-000); and
- a geoarchaeology desk study report (Volume 5: Appendix CH-006-000).

1.1.3 Maps referred to throughout the cultural heritage Appendices are contained in the Volume 5: Cultural Heritage Map Book.

1.2 Scope and coverage

1.2.1 This Appendix provides descriptive information for the South Cheshire area relating to identified designated and non-designated heritage assets that lie within the following study areas:

- designated assets where the assessment has determined a potential for impacts on setting or significance within 2km of the Proposed Scheme and the Zone of Theoretical Visibility (ZTV); and
- all non-designated assets and their settings within the land required for the Proposed Scheme and within a 500m buffer zone.

1.2.2 Heritage assets have been grouped where appropriate; e.g. clusters of listed buildings within conservation areas or groups of archaeological features.

¹ HS2 Ltd (2017), *High Speed Two (HS2) Phase 2a (West Midlands - Crewe), Background Information and Data, Cultural heritage survey reports*, BID-CH-004-005, www.gov.uk/hs2

2 Information supplied

2.1.1 For each asset or group of assets the following information has been provided in Table 1:

- unique identifier: e.g. SCH001;
- asset type: simple classification of asset type using following classes:
 - ancient woodland;
 - archaeology;
 - built heritage;
 - historic hedgerow;
 - historic landscape; and
 - settlement.
- name: either name used in designation record(s) or other identifiable name;
- description: short description of the asset and, where relevant, its setting, including references to relevant sources;
- period: primary period relating to asset using period classifications from Volume 5: Appendix CH-001-005 Cultural heritage baseline report;
- designation: if applicable, key designation or designations for some groups;
- grade: where applicable, grade of any designated assets;
- significance/value: score based on the Environmental Impact Assessment Scope and Methodology Report² classifications i.e. high, moderate, low, not significant; an 'unknown' category has been introduced in respect of Light Detection and Ranging (LiDAR) and aerial photographic investigation (API) features, in instances where there is presently insufficient evidence to determine significance;
- national heritage list (NHL) reference: NHL reference for designated assets, where relevant; and
- Historic Environment Record (HER) reference: HER reference, where relevant.

² The Scope and Methodology Report and its Addendum are set out in Volume 5: Appendix CT-001-001 and CT-001-002

3 Gazetteer

Table 1: Gazetteer of heritage assets for the South Cheshire area

Unique identifier	Asset type	Name	Description	Period	Designation	Grade	Significance /value	NHL reference	HER reference
SCH001	Number not used	Number not used	Number not used	Number not used	Number not used	Number not used	Number not used	Number not used	Number not used
SCH002	Built heritage	Wrinehill Bridge	An 18 th century road bridge constructed with red brick; it includes a stone parapet band and stone caped parapet terminating in square piers. A single segmental arch spans Checkley Brook; on the east side it is flanked by pilaster buttresses and on the west side by stepped buttresses with stone caps.	Post-medieval	Listed building	II	Moderate	1038573	MST495
SCH003	Archaeology	Site of Tip Green Forge	The site of Tip Green Forge, which is the earliest recorded forge in Cheshire, operating from 1619. The 1844 Tithe map records 'Forge Meadow' and 'Forge Field' immediately to the north of Checkley Brook while Iron stone and slag have been found in the stream.	Post-medieval	Non-designated	N/A	Low	N/A	MCH5645
SCH004	Built heritage	Summer House	A house constructed in approximately 1710 - 1720. The house is two storeys with an attic and basement and was built using red brick in a Flemish bond with ashlar dressings, a plain tile roof and brick stacks.	Post-medieval	Listed Building	II	Moderate	1374377	MST8720
SCH005	Built heritage	Milepost 50 metres south of the Hand And	A 19 th century cast iron milepost. The milepost is painted, triangular in plan with a chamfered top. It	Post-medieval	Listed building	II	Moderate	1038578	N/A

Unique identifier	Asset type	Name	Description	Period	Designation	Grade	Significance /value	NHL reference	HER reference
		Trumpet public house	reads 'BETLEY 1 mile. BASFORD 4 miles. NANTWICH 8 1/2 miles. NEWCASTLE 7 miles. KEELE 4 miles'.						
SCH006	Built heritage	The Steps	An early 17 th century timber framed house. The house is constructed on a high brick plinth, with brick infill panels and some brick rebuilding. The roof has been constructed using plain tiles and contains a central stack of engineering panels with straight braces. The house fronts the A531 Main Road, facing west and lies within the settlement of Ravenshall. The wider setting comprises rural, agricultural land.	Post-medieval	Listed building	II	Moderate	1038574	N/A
SCH007	Built heritage	Ravenshall House	An early 17 th century two storey house, remodelled in the 19 th century. The house is T-shaped in plan and has a Baffle-entry principal range constructed with red brick while the rear wing is timber framed. The house has a plain tile roof with a brick ridge stack, an integral end stack and a sandstone lateral stack attached to rear wing. The house fronts Main Road (A531), facing east and lies within the settlement of Ravenshall. The wider setting comprises rural, agricultural land.	Post-medieval	Listed building	II	Moderate	1038577	N/A
SCH008	Number not used	Number not used	Number not used	Number not used	Number not used	Number not used	Number not used	Number not used	Number not used

Unique identifier	Asset type	Name	Description	Period	Designation	Grade	Significance /value	NHL reference	HER reference
SCH009	Built heritage	The Croft And Prospect House	An early 19 th century house constructed in red brick, which has since been divided in two. The house is two storeys, although there are reduced proportions to the second floor, with a plain tile roof and a brick integral end stack. The house is set back from the A531 Main Road, facing west and lies within the settlement of Ravenshall. The wider setting comprises rural, agricultural land.	Post-medieval	Listed Building	II	Moderate	1038576	N/A
SCH010	Built heritage	Den Bridge and sidings, Grand Junction Railway	A 19 th century road bridge constructed over the Grand Junction Railway and its sidings. It forms part of the operational railway network.	Post-medieval	Non-designated	N/A	Low	N/A	MCH5731
SCH011	Built heritage	Checkley Hall	A group of designated assets associated with the Grade II* Checkley Hall, a small three storey country house dated to the late 1600s and altered in the late 18 th and 19 th centuries. The other assets are both Grade II listed: the late 17 th or early 18 th century gatepiers before Checkley Hall; and Hallgate Cottage, a 16 th or 17 th century timber framed longhouse altered in the 19 th and 20 th centuries. The buildings lie within modern farm complexes and adjacent to Checkley Lane. The wider setting comprises rural, agricultural land.	Post-medieval	Listed Building	II*, 2 x II	High	1312600, 1312605, 1138503	N/A
SCH012	Built heritage, historic	Doddington Hall Park	A group of designated assets that lie within Doddington Hall Park, an 18 th century park designed by Lancelot Brown including the	Medieval, post-medieval	Listed building, registered park and	2 x I, 5 x II; P&G II	High	1312568, 1136861, 1330165, 1138504,	N/A

	landscape		Grade I listed Doddington Hall, an 18 th century country house and the Grade I listed Delves Hall, a late 14 th century tower house, which is thought to have been constructed after the purchase of the manor. The group also includes five Grade II listed buildings within the estate: a late 18 th century boathouse, a late 18 th century stableblock, a late 18 th century stable building and paddock wall, late 18 th century gates, piers and walls and the 19 th century Church of St John. The internal setting includes association between the buildings and landscape elements including areas of woodland and ponds. The wider setting is rural, agricultural land along with small areas of woodland.		garden			1136840, 1312517, 1138512, 1000640	
SCH013	Built heritage	Blakenhall Farmhouse	A 17 th century farmhouse constructed with red brick in an English Garden Wall bond with a plain tile roof. The house is situated within the farm complex with further farms and settlement to the north and north-east. The wider setting is rural, agricultural land.	Post-medieval	Listed building	II	Moderate	1330159	N/A
SCH014	Archaeology	Site of Higher Hayward farmstead	The location of a former farmhouse possibly first mentioned in documentary evidence from 1614 and definitively visible on maps from the late 18 th century. It is currently represented by earthwork features including boundaries, platforms and an	Post-medieval	Non-designated	N/A	Low	N/A	MCH23614

SCH019	Built heritage	Pigeon House adjacent to Buddleigh Farmhouse	An 18 th century red brick house constructed in a Flemish bond with a pyramidal plain tile roof surmounted by an octagonal cupola with glazed sides and lead covered dome.	Post-medieval	Listed building	II	Moderate	1188206	N/A
SCH020	Archaeology	Possible site of Godewyneslegh	A group of earthworks at Gonsley Green Farm, which are thought to represent house platforms, enclosures, ditches, fields and ridge and furrow associated with the deserted medieval village of Godewyneslegh. A large number of features were identified within the LiDAR data (BID-CH-004-005 Aerial Photograph feature 167; BID-CH-004-005 LiDAR feature 3139). Further evidence of agricultural features, including former field boundaries or plough headlands, are present across an extensive area northwards to Heath Farm. These earthworks are based on aerial photographs observed in 1947 (referenced in the HER), which have subsequently been levelled and are no visible in the landscape.	Medieval, post-medieval	Non-designated	N/A	Moderate	N/A	MCH11049,
SCH021	Built heritage	Lea Hall	A 16 th century T-shaped house with 19 th and 20 th century additions. The house is timber framed with rendered infill and brick with a plain tile roof.	Post-medieval	Listed building	II*	High	1138514	N/A

	archaeology		<p>Conservation Area. Two of the scheduled monuments relate to moated sites, which were likely constructed between 1250 and 1350 as prestigious residences for the lord of the manor. The monument known as Hall Bank also has a long earthen causeway, which serves as its approach. The third scheduled monument and Grade II* listed building relate to the partly demolished Church of St Chad, which is thought to have been important during the latter years of the Kingdom of Mercia due to its dedication to St Chad who was Bishop of the Mercians from AD 669. The Grade II* listed tower is of 15th or 16th century construction. The remaining three Grade II buildings are Rose Cottage, a late 18th century house; the Swan Inn, a 17th century public house with early 19th and 20th century alterations and the village's 20th century war memorial.</p>		conservation area			1138561, 1228856, 1436540

SCH115	Built heritage	The Poplars	An early 19 th century red brick farmhouse with mid-19 th century alterations.	Post-medieval	Listed building	II	Moderate	1228859	N/A
SCH116	Archaeology	Moated site 300m south-east of St Chad's Church, Wybunbury	A moated site consisting of a slightly raised grass island of approximately 40m by 40m. To the immediate south-west of this causeway, there are faint remains of a former fishpond. Access to the interior of the moated site would have been by a bridge or drawbridge. A second moated site of similar form lies approximately 200m to the north-west. Most moats were constructed between 1250 and 1350 and are generally seen as the prestigious residences of the Lords of the manor. The moat in such circumstances marked the high status of the occupier, but also served to deter casual raiders and wild animals.	Medieval	Scheduled monument	N/A	High	1012107	N/A
