# Notice of variation and consolidation with introductory note 

The Environmental Permitting (England \& Wales) Regulations 2016

Mr Robert Ainsworth \& Mrs Anne Ainsworth
Mill Farm
Stone Road
Chebsey
Stafford
Staffordshire
ST21 6NX

Variation application number
EPR/XP3198EF/V003

Permit number
EPR/XP3198EF

## Mill Farm

Permit number EPR/XP3198EF

## Introductory note

## This introductory note does not form a part of the notice

Under the Environmental Permitting (England \& Wales) Regulations 2016 (schedule 5, part 1, paragraph 19) a variation may comprise a consolidated permit reflecting the variations and a notice specifying the variations included in that consolidated permit.

Schedule 1 of the notice specifies the conditions that have been varied and schedule 2 comprises a consolidated permit which reflects the variations being made. All the conditions of the permit have been varied and are subject to the right of appeal.

Mr Robert Ainsworth \& Mrs Anne Ainsworth currently operate an open windrow composting site located approximately 2 km east of the town of Eccleshall, Staffordshire. The following changes have been made to the environmental permit as part of this variation:

- Re-classification as an Installation under the Industrial Emissions Directive, due to a daily throughput of greater than 75 tonnes.
- The waste throughput capacity has decreased from 75,000 to 45,000 tonnes per annum.
- The permit has been updated to modern conditions.

The schedules specify the changes made to the permit.
The status log of a permit sets out the permitting history, including any changes to the permit reference number.

| Status log of the permit |  |  |
| :--- | :--- | :--- |
| Date | Comments |  |
| Description | $16 / 07 / 08$ | Application for composting in open windrows |
| Waste Management Licence <br> issued <br> EAWML 100313 | Permit reference number assigned |  |
| EPR/XP3198EF assigned | Duly made <br> $13 / 06 / 13$ | Application to add 12 waste codes |
| Variation application <br> EPR/XP3198EF/V002 | $25 / 06 / 13$ | Varied permit issued |
| Variation determined <br> EPR/XP3198EF | Duly made <br> $01 / 03 / 17$ | Application to become an installation and reduce the <br> annual throughput from 75,000 to 45,000 tonnes |
| Application EPR/XP3198EF/V003 | Updated fire prevention plan and management <br> system received |  |
| Additional information received | $08 / 09 / 17$ | Varied and consolidated permit issued to Mr Robert <br> Ainsworth \& Mrs Anne Ainsworth |
| Permit determined <br> EPR/XP3198EF <br> PAS Reference: PP3432DN | $11 / 09 / 17$ |  |

End of introductory note

## Notice of variation and consolidation

## The Environmental Permitting (England and Wales) Regulations 2016

The Environment Agency in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2016 varies

## Permit number

## EPR/XP3198EF

## Issued to

## Mr Robert Ainsworth \& Mrs Anne Ainsworth ("the operator")

whose principal office is

## Mill Farm

Stone Road
Chebsey
Stafford
Staffordshire
ST21 6NX
to operate a regulated facility at

## Mill Farm

Stone Road
Chebsey
Stafford
Staffordshire
ST21 6NX
to the extent set out in the schedules.
The notice shall take effect from 11/09/2017

| Name | Date |
| :--- | :--- |
| Tom Swift | $11 / 09 / 2017$ |

Authorised on behalf of the Environment Agency

## Schedule 1

All conditions have been varied by the consolidated permit as a result of the application made by the operator.

## Schedule 2 - consolidated permit

Consolidated permit issued as a separate document.

## Permit

## The Environmental Permitting (England and Wales) Regulations 2016

## Permit number

## EPR/XP3198EF

This is the consolidated permit referred to in the variation and consolidation notice for application EPR/XP3198EF/V003 authorising,
Mr Robert Ainsworth \& Mrs Anne Ainsworth ("the operator"),
whose principal office is

## Mill Farm

Stone Road
Chebsey
Stafford
Staffordshire
ST21 6NX
to operate an installation at
Mill Farm
Stone Road
Chebsey
Stafford
Staffordshire
ST21 6NX
to the extent authorised by and subject to the conditions of this permit.

| Name | Date |
| :--- | :--- |
| Tom Swift | $11 / 09 / 2017$ |

[^0]
## Conditions

## 1 Management

### 1.1 General management

1.1.1 The operator shall manage and operate the activities:
(a) in accordance with a written management system that identifies and minimises risks of pollution, including those arising from operations, maintenance, accidents, incidents, non-conformances, closure and those drawn to the attention of the operator as a result of complaints; and
(b) using sufficient competent persons and resources.
1.1.2 Records demonstrating compliance with condition 1.1 .1 shall be maintained.
1.1.3 Any person having duties that are or may be affected by the matters set out in this permit shall have convenient access to a copy of it kept at or near the place where those duties are carried out.
1.1.4 The operator shall comply with the requirements of an approved competence scheme.

### 1.2 Energy efficiency

1.2.1 The operator shall:
(a) take appropriate measures to ensure that energy is used efficiently in the activities;
(b) review and record at least every four years whether there are suitable opportunities to improve the energy efficiency of the activities; and
(c) take any further appropriate measures identified by a review.

### 1.3 Efficient use of raw materials

1.3.1 The operator shall:
(a) take appropriate measures to ensure that raw materials and water are used efficiently in the activities;
(b) maintain records of raw materials and water used in the activities;
(c) review and record at least every four years whether there are suitable alternative materials that could reduce environmental impact or opportunities to improve the efficiency of raw material and water use; and
(d) take any further appropriate measures identified by a review.

### 1.4 Avoidance, recovery and disposal of wastes produced by the activities

1.4.1 The operator shall take appropriate measures to ensure that:
(a) the waste hierarchy referred to in Article 4 of the Waste Framework Directive is applied to the generation of waste by the activities; and
(b) any waste generated by the activities is treated in accordance with the waste hierarchy referred to in Article 4 of the Waste Framework Directive; and
(c) where disposal is necessary, this is undertaken in a manner which minimises its impact on the environment.
1.4.2 The operator shall review and record at least every four years whether changes to those measures should be made and take any further appropriate measures identified by a review.

## 2 Operations

### 2.1 Permitted activities

2.1.1 The operator is only authorised to carry out the activities specified in schedule 1 table S1.1 (the "activities").
2.1.2 Waste authorised by this permit shall be clearly distinguished from any other waste on the site.

### 2.2 The site

2.2.1 The activities shall not extend beyond the site, being the land shown edged in red on the site plan at schedule 7 to this permit.

### 2.3 Operating techniques

2.3.1 The activities shall, subject to the conditions of this permit, be operated using the techniques and in the manner described in the documentation specified in schedule 1, table S1.2, unless otherwise agreed in writing by the Environment Agency.
2.3.2 If notified by the Environment Agency that the activities are giving rise to pollution, the operator shall submit to the Environment Agency for approval within the period specified, a revision of any plan or other documentation ("plan") specified in schedule 1, table S1.2 or otherwise required under this permit which identifies and minimises the risks of pollution relevant to that plan, and shall implement the approved revised plan in place of the original from the date of approval, unless otherwise agreed in writing by the Environment Agency.
2.3.3 Any raw materials or fuels listed in schedule 2 table S 2.1 shall conform to the specifications set out in that table.
2.3.4 Waste shall only be accepted if:
(a) it is of a type and quantity listed in schedule 2 table S2.2; and
(b) it conforms to the description in the documentation supplied by the producer and holder.
2.3.5 The operator shall ensure that where waste produced by the activities is sent to a relevant waste operation, that operation is provided with the following information, prior to the receipt of the waste:
(a) the nature of the process producing the waste;
(b) the composition of the waste;
(c) the handling requirements of the waste;
(d) the hazardous property associated with the waste, if applicable; and
(e) the waste code of the waste.
2.3.6 The operator shall ensure that where waste produced by the activities is sent to a landfill site, it meets the waste acceptance criteria for that landfill.

## 3 Emissions and monitoring

### 3.1 Emissions of substances not controlled by emission limits

3.1.1 Emissions of substances not controlled by emission limits (excluding odour) shall not cause pollution. The operator shall not be taken to have breached this condition if appropriate measures, including, but not limited to, those specified in any approved emissions management plan, have been taken to prevent or where that is not practicable, to minimise, those emissions.
3.1.2 The operator shall:
(a) if notified by the Environment Agency that the activities are giving rise to pollution, submit to the Environment Agency for approval within the period specified, an emissions management plan which identifies and minimises the risks of pollution from emissions of substances not controlled by emission limits;
(b) implement the approved emissions management plan, from the date of approval, unless otherwise agreed in writing by the Environment Agency.
3.1.3 All liquids in containers, whose emission to water or land could cause pollution, shall be provided with secondary containment, unless the operator has used other appropriate measures to prevent or where that is not practicable, to minimise, leakage and spillage from the primary container.

### 3.2 Odour

3.2.1 Emissions from the activities shall be free from odour at levels likely to cause pollution outside the site, as perceived by an authorised officer of the Environment Agency, unless the operator has used appropriate measures, including, but not limited to, those specified in any approved odour management plan, to prevent or where that is not practicable to minimise the odour.

### 3.3 Noise and vibration

3.3.1 Emissions from the activities shall be free from noise and vibration at levels likely to cause pollution outside the site, as perceived by an authorised officer of the Environment Agency, unless the operator has used appropriate measures, including, but not limited to, those specified in any approved noise and vibration management plan to prevent or where that is not practicable to minimise the noise and vibration.
3.3.2 The operator shall:
(a) if notified by the Environment Agency that the activities are giving rise to pollution outside the site due to noise and vibration, submit to the Environment Agency for approval within the period specified, a noise and vibration management plan which identifies and minimises the risks of pollution from noise and vibration;
(b) implement the approved noise and vibration management plan, from the date of approval, unless otherwise agreed in writing by the Environment Agency.

### 3.4 Pests

3.4.1 The activities shall not give rise to the presence of pests which are likely to cause pollution, hazard or annoyance outside the boundary of the site. The operator shall not be taken to have breached this condition if appropriate measures, including, but not limited to, those specified in any approved pests management plan, have been taken to prevent or where that is not practicable, to minimise the presence of pests on the site.
3.4.2 The operator shall:
(a) if notified by the Environment Agency, submit to the Environment Agency for approval within the period specified, a pests management plan which identifies and minimises risks of pollution from pests;
(b) implement the pests management plan, from the date of approval, unless otherwise agreed in writing by the Environment Agency.

### 3.5 Fire prevention

3.5.1 The operator shall take all appropriate measures to prevent fires on site and minimise the risk of pollution from them including, but not limited to, those specified in any approved fire prevention plan.

### 3.6 Monitoring

3.6.1 The operator shall, unless otherwise agreed in writing by the Environment Agency, undertake the monitoring specified in the following tables in schedule 3 to this permit:
(a) process monitoring specified in table S3.1.
3.6.2 The operator shall maintain records of all monitoring required by this permit including records of the taking and analysis of samples, instrument measurements (periodic and continual), calibrations, examinations, tests and surveys and any assessment or evaluation made on the basis of such data.
3.6.3 Monitoring equipment, techniques, personnel and organisations employed for the emissions monitoring programme and the environmental or other monitoring specified in condition 3.8.1 shall have either MCERTS certification or MCERTS accreditation (as appropriate), where available, unless otherwise agreed in writing by the Environment Agency.

## 4 Information

### 4.1 Records

4.1.1 All records required to be made by this permit shall:
(a) be legible;
(b) be made as soon as reasonably practicable;
(c) if amended, be amended in such a way that the original and any subsequent amendments remain legible, or are capable of retrieval; and
(d) be retained, unless otherwise agreed in writing by the Environment Agency, for at least 6 years from the date when the records were made, or in the case of the following records until permit surrender:
(i) off-site environmental effects; and
(ii) matters which affect the condition of the land and groundwater.
4.1.2 The operator shall keep on site all records, plans and the management system required to be maintained by this permit, unless otherwise agreed in writing by the Environment Agency.

### 4.2 Reporting

4.2.1 The operator shall send all reports and notifications required by the permit to the Environment Agency using the contact details supplied in writing by the Environment Agency.
4.2.2 A report or reports on the performance of the activities over the previous year shall be submitted to the Environment Agency by 31 January (or other date agreed in writing by the Environment Agency) each year. The report(s) shall include as a minimum:
(a) a review of the results of the monitoring and assessment carried out in accordance with the permit including an interpretive review of that data;
(b) the annual production/treatment data set out in schedule 4 table S4.2; and
(c) the performance parameters set out in schedule 4 table S 4.3 using the forms specified in table S4.4 of that schedule.
4.2.3 Within 28 days of the end of the reporting period the operator shall, unless otherwise agreed in writing by the Environment Agency, submit reports of the monitoring and assessment carried out in accordance with the conditions of this permit, as follows:
(a) in respect of the parameters and emission points specified in schedule 4 table S4.1;
(b) for the reporting periods specified in schedule 4 table S 4.1 and using the forms specified in schedule 4 table S4.4; and
(c) giving the information from such results and assessments as may be required by the forms specified in those tables.
4.2.4 The operator shall, unless notice under this condition has been served within the preceding four years, submit to the Environment Agency, within six months of receipt of a written notice, a report assessing whether there are other appropriate measures that could be taken to prevent, or where that is not practicable, to minimise pollution.
4.2.5 Within 1 month of the end of each quarter, the operator shall submit to the Environment Agency using the form made available for the purpose, the information specified on the form relating to the site and the waste accepted and removed from it during the previous quarter.

### 4.3 Notifications

4.3.1 In the event:
(a) that the operation of the activities gives rise to an incident or accident which significantly affects or may significantly affect the environment, the operator must immediately-
(i) inform the Environment Agency,
(ii) take the measures necessary to limit the environmental consequences of such an incident or accident, and
(iii) take the measures necessary to prevent further possible incidents or accidents;
(b) of a breach of any permit condition the operator must immediately-
(i) inform the Environment Agency, and
(ii) take the measures necessary to ensure that compliance is restored within the shortest possible time;
(c) of a breach of permit condition which poses an immediate danger to human health or threatens to cause an immediate significant adverse effect on the environment, the operator must immediately suspend the operation of the activities or the relevant part of it until compliance with the permit conditions has been restored.
4.3.2 Any information provided under condition 4.3.1 (a)(i), or 4.3 .1 (b)(i) where the information relates to the breach of a limit specified in the permit, shall be confirmed by sending the information listed in schedule 5 to this permit within the time period specified in that schedule.
4.3.3 Where the Environment Agency has requested in writing that it shall be notified when the operator is to undertake monitoring and/or spot sampling, the operator shall inform the Environment Agency when the relevant monitoring and/or spot sampling is to take place. The operator shall provide this information to the Environment Agency at least 14 days before the date the monitoring is to be undertaken.
4.3.4 The Environment Agency shall be notified within 14 days of the occurrence of the following matters, except where such disclosure is prohibited by Stock Exchange rules:

Where the operator is a registered company:
(a) any change in the operator's trading name, registered name or registered office address; and
(b) any steps taken with a view to the operator going into administration, entering into a company voluntary arrangement or being wound up.

Where the operator is a corporate body other than a registered company:
(a) any change in the operator's name or address; and
(b) any steps taken with a view to the dissolution of the operator.

In any other case:
(a) the death of any of the named operators (where the operator consists of more than one named individual);
(b) any change in the operator's name(s) or address(es); and
(c) any steps taken with a view to the operator, or any one of them, going into bankruptcy, entering into a composition or arrangement with creditors, or, in the case of them being in a partnership, dissolving the partnership.
4.3.5 Where the operator proposes to make a change in the nature or functioning, or an extension of the activities, which may have consequences for the environment and the change is not otherwise the subject of an application for approval under the Regulations or this permit:
(a) the Environment Agency shall be notified at least 14 days before making the change; and
(b) the notification shall contain a description of the proposed change in operation.
4.3.6 The Environment Agency shall be given at least 14 days notice before implementation of any part of the site closure plan.

### 4.4 Interpretation

4.4.1 In this permit the expressions listed in schedule 6 shall have the meaning given in that schedule.
4.4.2 In this permit references to reports and notifications mean written reports and notifications, except where reference is made to notification being made "immediately", in which case it may be provided by telephone.

## Schedule 1 - Operations

## Table S1.1 Activities

| Activity <br> reference | Activity listed in <br> Schedule 1 of the EP <br> Regulations | Description of specified <br> activity and WFD Annex <br> I and II operations | Limits of specified activity and <br> waste types |
| :--- | :--- | :--- | :--- |
| AR1 | S5.4 A(1) (b) (i) <br> Recovery or a mix of <br> recovery and disposal of <br> non hazardous waste with <br> a capacity exceeding 75 <br> tonnes per day involving <br> biological treatment. | R3: Recycling/reclamation <br> of organic substances <br> which are not used as <br> solvents | From receipt of waste through to <br> composting and recovery of by- <br> products. <br> Composting of waste under aerobic |
|  | Directly Associated Activity | conditions in open systems such as <br> outdoor turned windrows or aerated <br> static piles on impermeable surface <br> with sealed drainage system. |  |
| AR2 | Storage of waste pending <br> recovery or disposal | R13: Storage of waste <br> pending the R3 operation <br> (excluding temporary <br> storage, pending <br> collection, on the site <br> where it is produced) | Waste types suitable for acceptance <br> are limited to those specified in <br> Table S2.2. |
| From the receipt of waste to |  |  |  |
| despatch for composting or |  |  |  |
| despatch off site for recovery and/or |  |  |  |
| disposal. |  |  |  |
| Storage of waste on an |  |  |  |$|$| impermeable surface with sealed |
| :--- |
| drainage. |

Table S1.1 Activities

| Activity <br> reference | Activity listed in <br> Schedule 1 of the EP <br> Regulations | Description of specified <br> activity and WFD Annex <br> I and II operations | Limits of specified activity and <br> waste types |
| :--- | :--- | :--- | :--- |
|  |  | temporary storage, <br> pending collection, on the <br> site where it is produced) | Storage of processed uncertified <br> compost on an impermeable <br> surface. |
| AR5 | Process water and surface <br> water collection and <br> storage | Collection and storage of <br> compost liquor/leachate in <br> 3 storage tanks. | From the receipt of compost <br> leachate produced at the facility and <br> site surface water to re-use within <br> the facility or discharge off-site. |

Table S1.2 Operating techniques

| Description | Parts | Date Received |
| :--- | :--- | :--- |
| Application <br> EPR/XP3198EF/V003 | Responses to Parts C2 and C4 of the application form and <br> referenced supporting documentation. | Duly made <br> $01 / 03 / 17$ |
|  | Odour management plan reference <br> ETL/248/JAS/00169/R00221: Mill Farm OMP V.2 November |  |
|  | 2016 in response to section 5B, Table 3b - General <br> Requirements, Part C4 of the application form |  |
| Response to Schedule 5 <br> Notice dated 05/04/17 | Fire Prevention Plan, August 2017 Version 1.3 - RJT <br> Ainsworth | $08 / 09 / 17$ |

## Schedule 2 - Waste types, raw materials and fuels

| Table S2.1 Raw materials and fuels |  |
| :--- | :--- |
| Raw materials and fuel description | Specification |
| -- | -- |

Table S2.2 Permitted waste types and quantities for composting in open systems

| Maximum quantity | Annual throughput shall not exceed 45,000 tonnes. |
| :---: | :---: |
| Exclusions | Wastes having any of the following characteristics shall not be accepted: <br> - consisting solely or mainly of dusts (except sawdust), powders, or loose fibres; <br> - catering waste or other wastes containing animal by-products covered by the Animal By-Products Regulations; <br> - wastes that are in a form which is liquid; <br> - wastes containing treated wood, wood-preserving agents or other biocides, persistent organic pollutants, Japanese Knotweed; <br> - hazardous wastes |
| Waste code | Description |
| 02 | Wastes from agriculture, horticulture, aquaculture, forestry, hunting and fishing, food preparation and processing |
| 0201 | wastes from agriculture, horticulture, aquaculture, forestry, hunting and fishing |
| 020103 | plant-tissue waste |
| 020106 | animal faeces, urine and manure (including spoiled straw) only |
| 020107 | wastes from forestry (biodegradable only) |
| 020199 | wastes not otherwise specified (spent mushroom compost and fully biodegradable bedding only) |
| 0203 | wastes from fruit, vegetables, cereals, edible oils, cocoa, coffee, tea and tobacco preparation and processing; conserve production; yeast and yeast extract production, molasses preparation and fermentation |
| 020304 | materials unsuitable for consumption or processing (biodegradable only) |
| 0206 | wastes from the baking and confectionery industry |
| 020601 | materials unsuitable for consumption or processing |
| 0207 | wastes from the production of alcoholic and non-alcoholic beverages (except coffee, tea and cocoa) |
| 020701 | wastes from washing, cleaning and mechanical reduction of raw materials (biodegradable only) |
| 020702 | wastes from spirits distillation (biodegradable only) |
| 020704 | materials unsuitable for consumption or processing (biodegradable only) |
| 020799 | wastes not otherwise specified (malt husks, malt sprouts, yeast and yeast-like residues only) |

| 03 | Wastes from wood processing and the production of panels and furniture, pulp, paper and cardboard |
| :---: | :---: |
| 0301 | wastes from wood processing and the production of panels and furniture |
| 030101 | waste bark and cork |
| 030105 | sawdust, shavings, cuttings, wood and particle board other than those mentioned in 030104 only |
| 0303 | wastes from pulp, paper and cardboard production and processing |
| 030301 | waste bark and wood |
| 030310 | fibre rejects only |
| 04 | Wastes from the leather, fur and textile industries |
| 0402 | wastes from the textile industry |
| 040210 | organic matter from natural products (un-dyed and untreated only) |
| 15 | Waste packaging, absorbents, wiping cloths, filter materials and protective clothing not otherwise specified |
| 1501 | packaging (including separately collected municipal packaging waste) |
| 150101 | paper and cardboard packaging (excluding veneers, plastic coatings or laminates) |
| 150103 | wooden packaging |
| 150105 | composite packaging (only biodegradable organic packaging) |
| 150109 | textile packaging (made entirely from biodegradable fibres only) |
| 17 | Construction and demolition wastes (including excavated soil from contaminated sites) |
| 1702 | wood, glass and plastic |
| 170201 | wood |
| 1705 | soil (including excavated soil from contaminated sites), stones and dredging spoil |
| 170506 | dredging spoil other than those mentioned in 170505 (from inland waters only) |
| 19 | Wastes from waste management facilities, off-site waste water treatment plants and the preparation of water intended for human consumption and water for industrial use |
| 1905 | wastes from aerobic treatment of solid wastes |
| 190501 | non-composted fraction of municipal and similar wastes (woody oversize only) |
| 190503 | off-specification compost (from a composting process that accepts waste input types listed in this table only) |
| 1912 | wastes from the mechanical treatment of waste (for example sorting, crushing, compacting, pelletising) not otherwise specified |
| 191201 | paper and cardboard (excluding veneers or plastic coatings) |
| 191207 | wood other than that mentioned in 191206 |
| 20 | Municipal wastes (household waste and similar commercial, industrial and institutional wastes) including separately collected fractions |
| 2001 | separately collected fractions (except 1501 ) |
| 200138 | wood other than that mentioned in 200137 |
| 200199 | other fractions not otherwise specified (waste animal bedding only) |
| 2002 | garden and park wastes (including cemetery waste) |
| 200201 | biodegradable waste (plant matter only) |

| 2003 | other municipal wastes |
| :--- | :--- |
| 200301 | mixed municipal waste (green waste or paper or cardboard, or any combination of) |
| 200302 | waste from markets (biodegradable only) |

## Schedule 3 - Emissions and monitoring

There are no emission limits or associated monitoring requirements.

| Emission point reference or source or description of point of measurement | Parameter | Monitoring frequency | Monitoring standard or method | Other specifications |
| :---: | :---: | :---: | :---: | :---: |
| Internal for each composting batch during sanitisation stage | Temperature | At least daily | Temperature probe | Monitoring equipment shall be available on site and used as required to maintain aerobic conditions and ensure compliance with this permit. <br> Equipment shall be calibrated on a 4 monthly basis or as agreed in writing by the Environment Agency. |
|  | Oxygen | None specified | -- |  |
|  | Moisture | None specified | Moisture meter |  |
| Internal for each composting batch during stabilisation stage | Temperature | At least weekly | Temperature probe |  |
|  | Moisture | None specified | -- |  |
| Waste reception building; Storage tanks; Maturation area | Odour | Daily | Olfactory monitoring | Odour detection at the site boundary. |
| Storage tanks | Integrity checks | Weekly | Visual assessment | -- |

## Schedule 4 - Reporting

Parameters, for which reports shall be made, in accordance with conditions of this permit, are listed below.

| Table S4.1: Annual production/treatment | Units |
| :--- | :--- |
| Parameter | tonnes |
| Processed compost |  |

Table S4.2 Performance parameters

| Parameter | Frequency of assessment | Units |
| :--- | :--- | :--- |
| Water usage | Annually | tonnes or $\mathrm{m}^{3}$ |
| Energy usage | Annually | MWh |
| Total raw material used | Annually | tonnes |

Table S4.3 Reporting forms

| Media/parameter | Reporting format | Date of form |
| :--- | :--- | :--- |
| Water usage | Form water usage 1 or other form as agreed in writing by <br> the Environment Agency | $11 / 09 / 17$ |
| Energy usage | Form energy 1 or other form as agreed in writing by the <br> Environment Agency | $11 / 09 / 17$ |
| Other performance <br> indicators | Form performance 1 or other form as agreed in writing <br> by the Environment Agency | $11 / 09 / 17$ |
| Waste Returns | E-waste Returns Form or other form as agreed in writing <br> by the Environment Agency | -- |

## Schedule 5 - Notification

These pages outline the information that the operator must provide.
Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

## Part A

| Permit Number |  |
| :--- | :--- |
| Name of operator |  |
| Location of Facility |  |
| Time and date of the detection |  |

| (a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, <br> accident, or emission of a substance not controlled by an emission limit which has caused, is <br> causing or may cause significant pollution |  |
| :--- | :--- |
| To be notified within 24 hours of detection |  |
| Date and time of the event |  |
| Reference or description of the <br> location of the event |  |
| Description of where any release <br> into the environment took place |  |
| Substances(s) potentially <br> released |  |
| Best estimate of the quantity or <br> rate of release of substances |  |
| Measures taken, or intended to be <br> taken, to stop any emission |  |
| Description of the failure or <br> accident. |  |

(b) Notification requirements for the breach of a limit

| To be notified within $\mathbf{2 4}$ hours of detection unless otherwise specified below |  |
| :--- | :--- |
| Emission point reference/ source |  |
| Parameter(s) |  |
| Limit |  |
| Measured value and uncertainty |  |
| Date and time of monitoring |  |

| (b) Notification requirements for the breach of a limit |  |
| :--- | :--- |
| To be notified within 24 hours of detection unless otherwise specified below |  |
| Measures taken, or intended to be <br> taken, to stop the emission |  |

| Time periods for notification following detection of a breach of a limit |  |
| :--- | :--- |
| Parameter | Notification period |
|  |  |
|  |  |
|  |  |

(c) Notification requirements for the detection of any significant adverse environmental effect

| To be notified within $\mathbf{2 4}$ hours of detection |  |
| :--- | :--- |
| Description of where the effect on <br> the environment was detected |  |
| Substances(s) detected |  |
| Concentrations of substances <br> detected |  |
| Date of monitoring/sampling |  |

## Part B - to be submitted as soon as practicable

| Any more accurate information on the matters for <br> notification under Part A. |  |
| :--- | :--- |
| Measures taken, or intended to be taken, to prevent <br> a recurrence of the incident |  |
| Measures taken, or intended to be taken, to rectify, <br> limit or prevent any pollution of the environment <br> which has been or may be caused by the emission |  |
| The dates of any unauthorised emissions from the <br> facility in the preceding 24 months. |  |

## Schedule 6 - Interpretation

"accident" means an accident that may result in pollution.
"animal waste" means any waste consisting of animal matter that has not been processed into food for human consumption.
"application" means the application for this permit, together with any additional information supplied by the operator as part of the application and any response to a notice served under Schedule 5 to the EP Regulations.
"authorised officer" means any person authorised by the Environment Agency under section 108(1) of The Environment Act 1995 to exercise, in accordance with the terms of any such authorisation, any power specified in section 108(4) of that Act.
"building" means a construction that has the objective of providing sheltering cover and minimising emissions of noise, particulate matter, odour and litter.
"compost" means solid particulate material that is the result of composting, which has been sanitised and stabilised, and which confers beneficial effects when added to soil, used as a component of growing media or used in another way in conjunction with plants.
"composting" means the biological decomposition of organic materials, under conditions that are predominantly aerobic and that allow the development of thermophilic temperatures as a result of biologically produced heat.
"disposal" means any of the operations provided for in Annex I to Directive 2008/98/EC of the European Parliament and of the Council on waste.
"emissions of substances not controlled by emission limits" means emissions of substances to air, water or land from the activities, either from the emission points specified in schedule 3 or from other localised or diffuse sources, which are not controlled by an emission limit.
"emissions to land" includes emissions to groundwater.
"EP Regulations" means The Environmental Permitting (England and Wales) Regulations SI 2010 No. 675 and words and expressions used in this permit which are also used in the Regulations have the same meanings as in those Regulations.
"groundwater" means all water, which is below the surface of the ground in the saturation zone and in direct contact with the ground or subsoil.
"impermeable surface" means a surface or pavement constructed and maintained to a standard sufficient to prevent the transmission of liquids beyond the pavement surface.
"Industrial Emissions Directive" means DIRECTIVE 2010/75/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 24 November 2010 on industrial emissions.
"Industry Standard Protocol" means "A standardised protocol for the monitoring of bioaerosols at open composting facilities" published by the Association for Organics Recycling and developed in conjunction with the Environment Agency.
"MCERTS" means the Environment Agency's Monitoring Certification Scheme.
"pests" means Birds, Vermin and Insects.
"quarter" means a calendar year quarter commencing on 1 January, 1 April, 1 July or 1 October.
"recovery" means any of the operations provided for in Annex II to Directive 2008/98/EC of the European Parliament and of the Council on waste.
"sanitisation stage" means the actively managed and intensive stage of composting lasting for at least five days, characterised by high oxygen demand and temperatures of over $55^{\circ} \mathrm{C}$, during which biological
processes, together with conditions in the composting mass, eradicate human and animal pathogens or reduce them to acceptably low levels.
"sealed drainage system" in relation to an impermeable surface, means a drainage system with impermeable components which does not leak and which will ensure that:
(a) no liquid will run off the surface otherwise than via the system;
(b) except where they may be lawfully be discharged to foul sewer, all liquids entering the system are collected in a sealed sump.
"stabilisation stage" means the stage of composting following sanitisation, during which biological conditions in the composting mass, give rise to compost that is nominally stable.
"Waste code" means the six digit code referable to a type of waste in accordance with the List of Wastes (England)Regulations 2005, or List of Wastes (Wales) Regulations 2005, as appropriate, and in relation to hazardous waste, includes the asterisk.
"Waste Framework Directive" or "WFD" means Waste Framework Directive 2008/98/EC of the European Parliament and of the Council on waste.
"year" means calendar year ending 31 December.
Where a minimum limit is set for any emission parameter, for example pH , reference to exceeding the limit shall mean that the parameter shall not be less than that limit.

Unless otherwise stated, any references in this permit to concentrations of substances in emissions into air means:

- in relation to emissions from combustion processes, the concentration in dry air at a temperature of 273 K , at a pressure of 101.3 kPa and with an oxygen content of $3 \%$ dry for liquid and gaseous fuels, $6 \%$ dry for solid fuels; and/or
- in relation to emissions from non-combustion sources, the concentration at a temperature of 273 K and at a pressure of 101.3 kPa , with no correction for water vapour content.

END OF PERMIT

Permit Number: XP3198EF

Facility:
Mill Farm

Operator: $\begin{aligned} & \text { Mr Robert Ainsworth \& Mrs } \\ & \text { Anne Ainsworth }\end{aligned}$

Form Number: Water1 / 11/09/17

Reporting of Water Usage for the year

| Water Source | Usage (m3/year) | Specific Usage (m3/unit output) |
| :--- | :--- | :--- |
| Mains water |  |  |
| Site borehole |  |  |
| River abstraction |  |  |
| TOTAL WATER USAGE |  |  |

Operator's comments:

Signed

Permit Number: XP3198EF

Facility:
Mill Farm

Operator: $\quad$ Mr Robert Ainsworth \& Mrs Anne Ainsworth

Form Number: Energy1 / 11/09/17

Reporting of Energy Usage for the year

| Energy Source | Energy Usage | Specific Usage (MWh/unit output) |  |
| :--- | :--- | :--- | :--- |
|  | Quantity | Primary Energy (MWh) |  |
| Electricity * | MWh |  |  |
| Natural Gas | MWh |  |  |
| Gas Oil | tonnes |  |  |
| Recovered Fuel Oil | tonnes |  |  |
| TOTAL | - |  |  |

* Conversion factor for delivered electricity to primary energy $=2.4$

Operator's comments:

## Signed

Date
(Authorised to sign as representative of Operator)
