Information request

Around six months ago you supplied some very useful data for us providing local data on ESA outcomes. I am writing to request the same data again but updated to include the latest available data.

The reference was: FOI 3061

The spreadsheet you supplied was entitled: Copy of 20125606_Tower Hamlets_pub tables_reordered.xls

We would like to request the same data again - just updated to include the last two quarters / or most recent available. Is this possible?

DWP response

In response to your query, the updated information is provided in the attached Excel spreadsheet (FOI 2013-5382 Response.xls).
