

EXTERNAL CONSULTATION ON THE AMENDMENT OF MINISTRY OF DEFENCE UK ARMED FORCES AND UK CIVILIANS OPERATIONAL CASUALTY AND FATALITY OFFICIAL STATISTICS

INTRODUCTION

1. Defence Statistics (Health) opened a consultation with internal and external stakeholders on 20 April 2017, regarding the proposed reduced frequency of the quarterly UK Armed Forces and UK Entitled Civilians operational casualty and fatality statistics:

- [Quarterly UK Armed Forces and UK Entitled Civilians operational casualty and fatality statistics](#)
Currently produced quarterly, proposal to move to bi-annually

RESULTS

2. The consultation period ended on 18 May 2017. There were no negative responses during the consultation period. In future the report will be published as follows:

UK Armed Forces and UK Civilians operational casualty and fatality statistics

There was no objection during the consultation period to the reduction in frequency of this publication therefore the frequency will now be changed from quarterly to bi-annual. The last quarterly report was published on 20 April 2017. The first bi-annual report will be published on 19 October 2017.
