

30th September 2016

Dear Sir,

**RE-DETERMINATION of LLANBRYNMAIR and CARNEDD WEN WIND FARM APPLICATIONS and all associated infrastructure.**

I have read the responses in relation to the above and am pleased to note that only two were written in support of the applications. This is a sparsely populated area, but the strength of feeling against these wind farms is displayed in the impressive number of people who have written to object and based their objections on material planning considerations.

Our environment, our most precious asset here in Mid Wales, is under continual threat of decreasing by the cumulative effect of wind farms and their infrastructure. We must protect that which remains and ask the Secretary of State please to refuse these two terrifying applications.

Yours sincerely,
