

PHE Influenza Surveillance graphs

- Influenza activity in the United Kingdom is monitored using a variety of <u>surveillance systems</u>. The <u>National Influenza Report</u> which interprets the data is published weekly.
- National and subnational outputs from the various surveillance systems are grouped according to the following categories:
 - Community influenza surveillance
 - Influenza-like illness GP consultation rates
 - Influenza-confirmed hospitalisations
 - All-cause mortality
 - Microbiological surveillance
 - Influenza vaccination

Influenza-like illness GP consultation rates

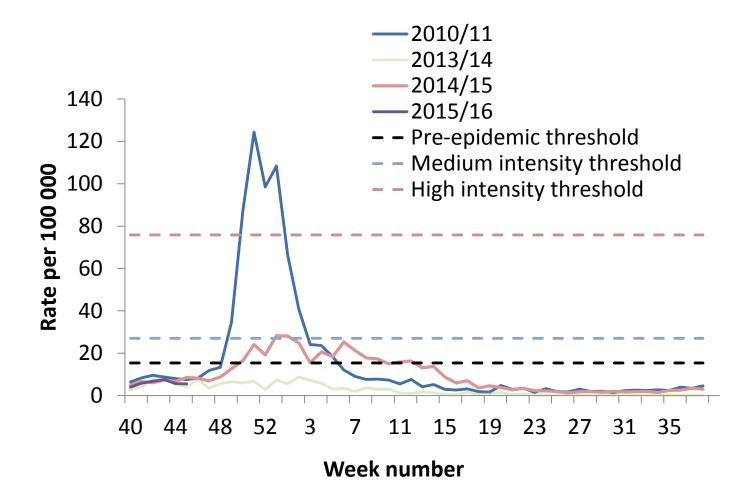

GP In Hours ILI consultation rate, England

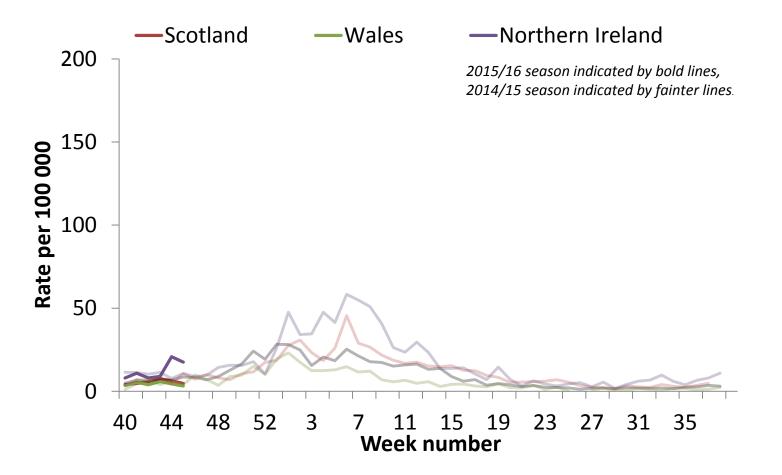

RCGP ILI consultation rate, England

ILI/influenza –Scotland, Wales and Northern Ireland

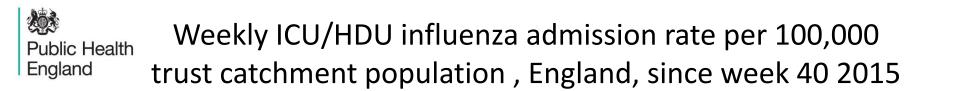

NB. Scottish rates are weekly averages of daily data.

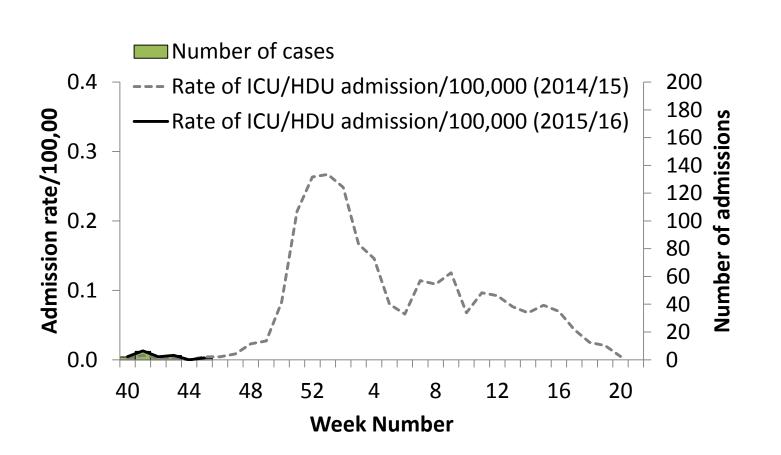

12 November 2015

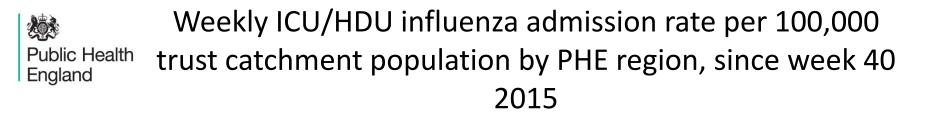

Influenza-confirmed hospitalisations

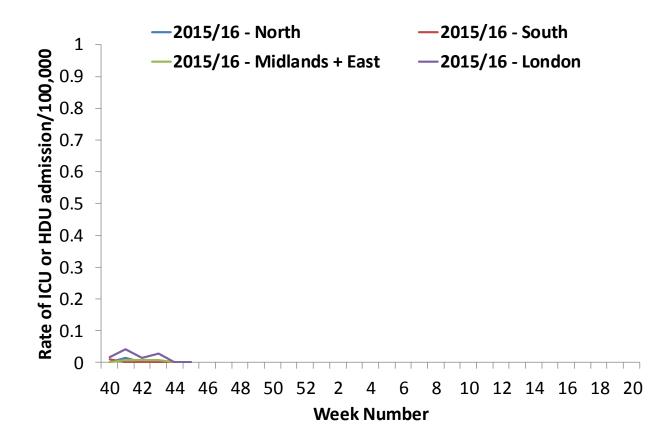

12 November 2015

12 November 2015

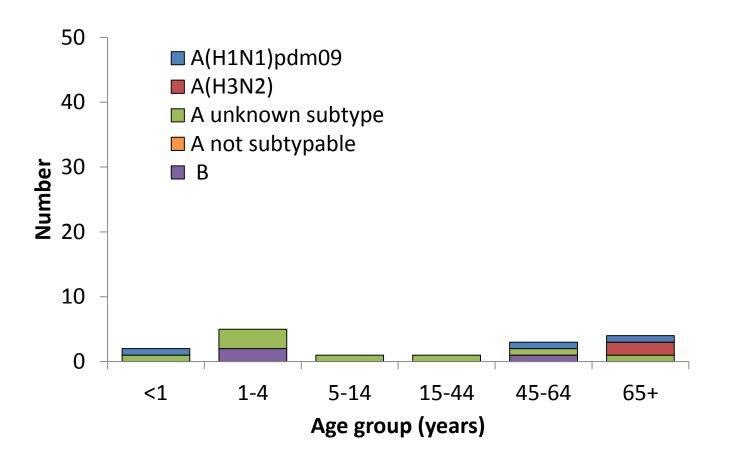

12 November 2015

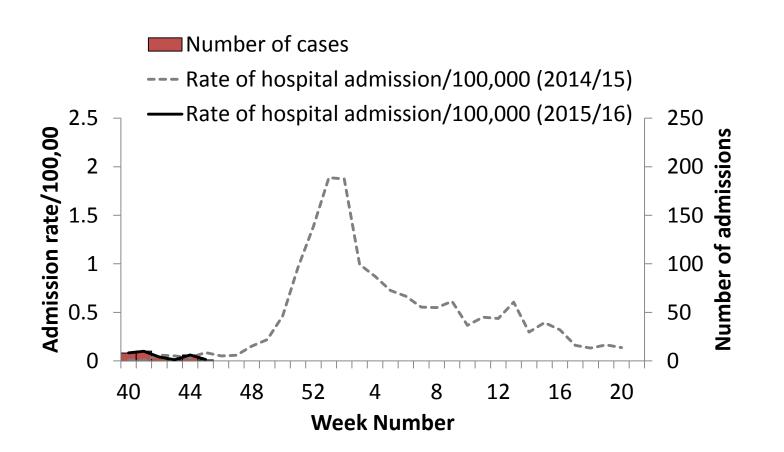

Influenza confirmed ICU admissions (USISS mandatory) by age and influenza subtype

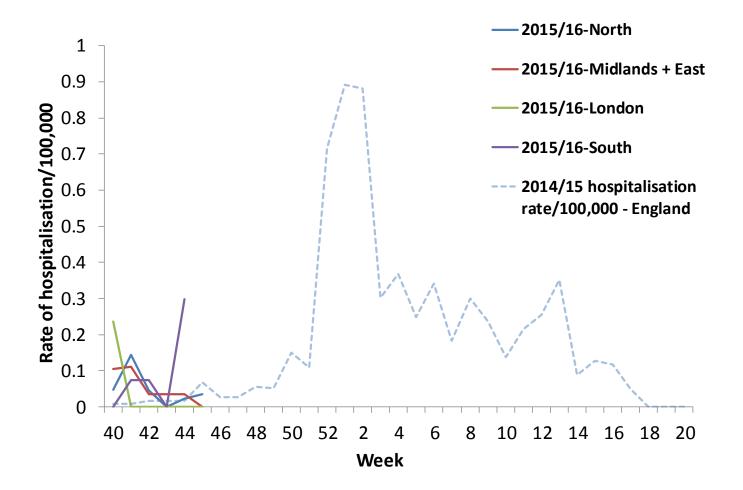

Weekly hospitalised influenza case rate per 100,000 trust catchment population , England, since week 40 2015

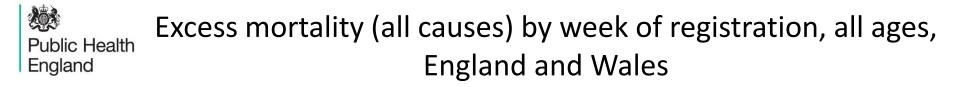

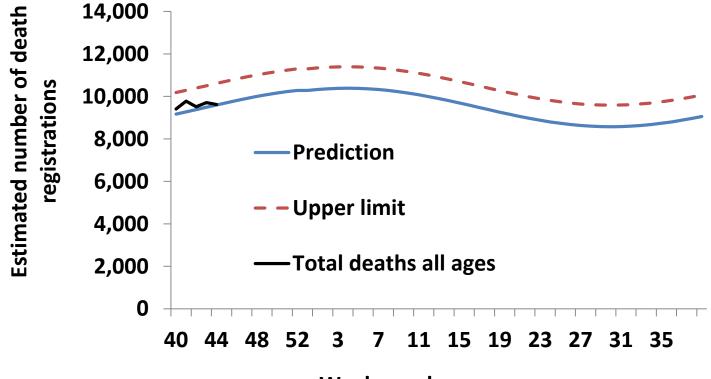

Weekly hospitalised influenza case rate per 100,000 trust catchment population by PHE Region, since week 40 2015

All-cause mortality

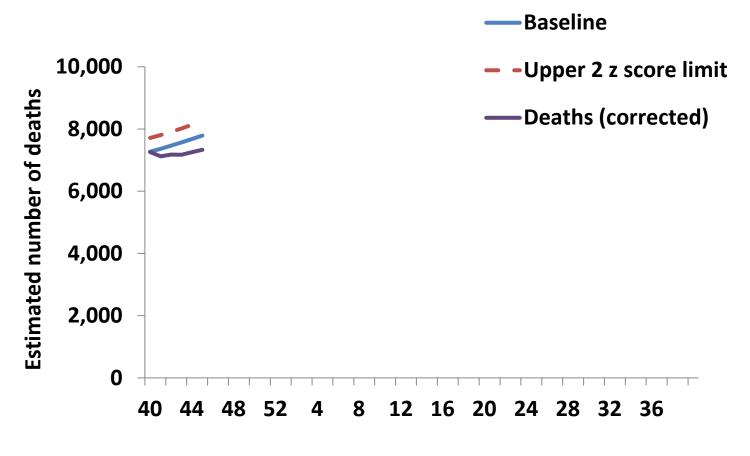

Week number

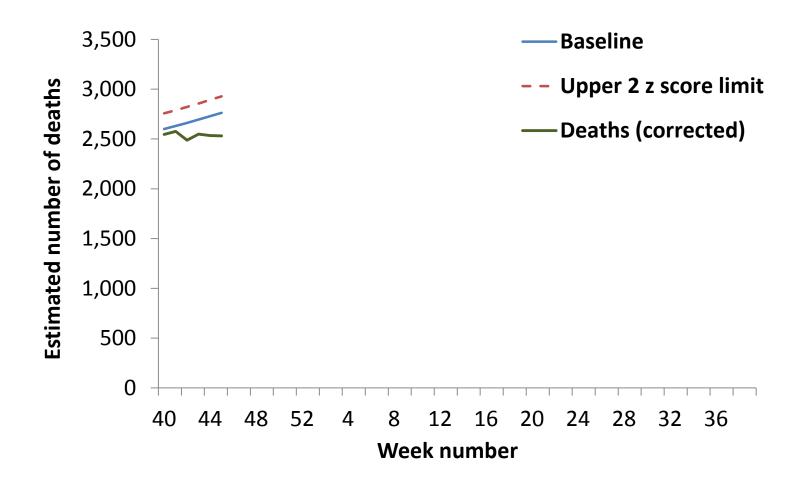

Excess mortality (all causes) by week of death through the EuroMOMO algorithm in 65+year olds, England

Week number

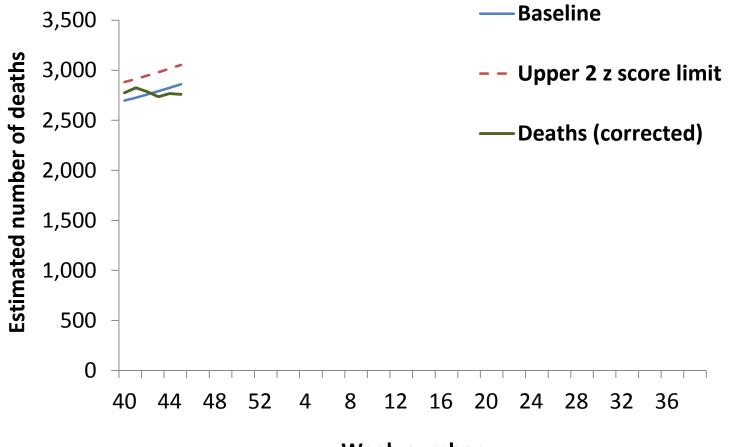

Excess mortality (all causes) by week of death through the EuroMOMO algorithm in 65+year olds, PHE North of England

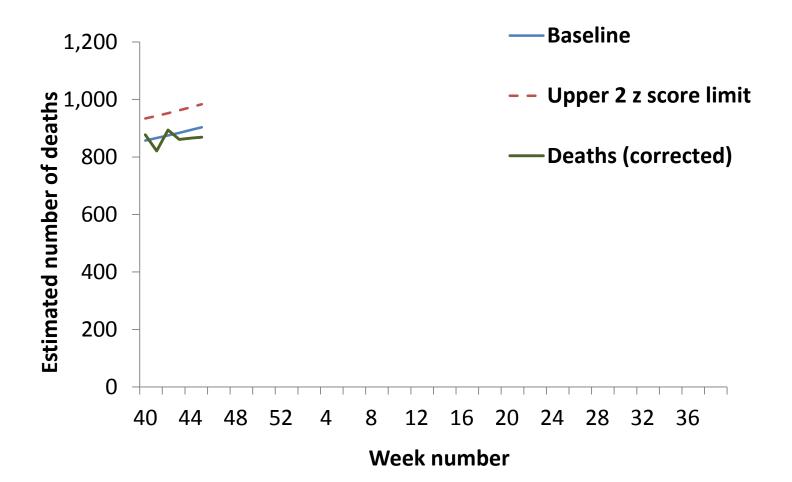

Excess mortality (all causes) by week of death through the EuroMOMO algorithm in 65+year olds, PHE Midlands and East of England

Week number

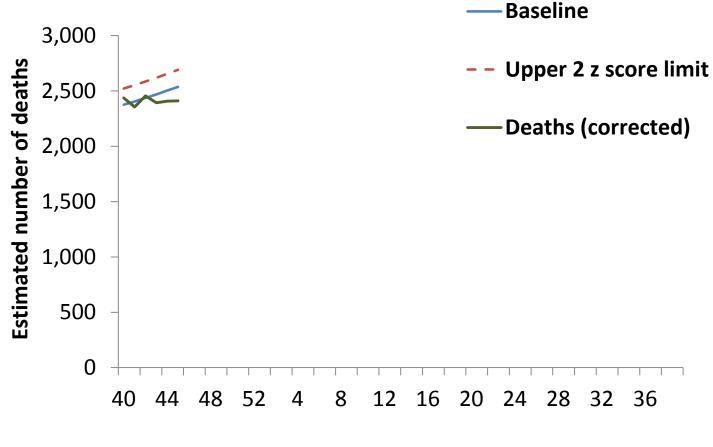

Excess mortality (all causes) by week of death through the EuroMOMO algorithm in 65+year olds, PHE London

12 November 2015

Excess mortality (all causes) by week of death through the EuroMOMO algorithm in 65+year olds, PHE South of England

Week number

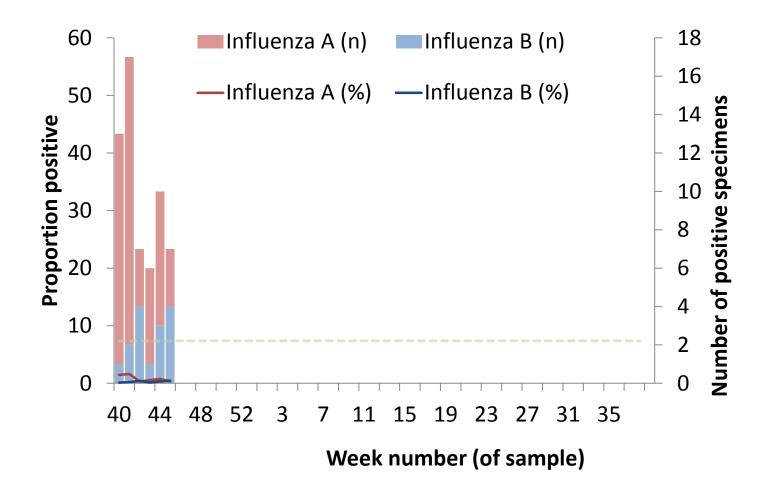

Microbiological surveillance

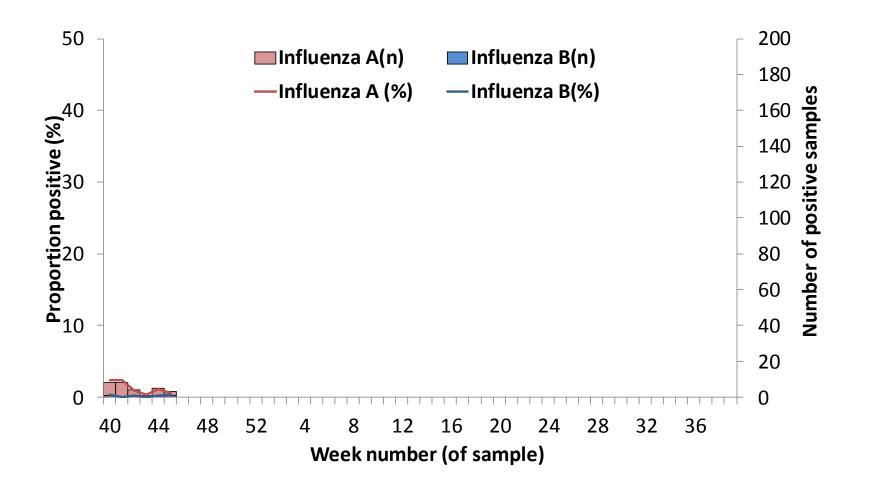

12 November 2015

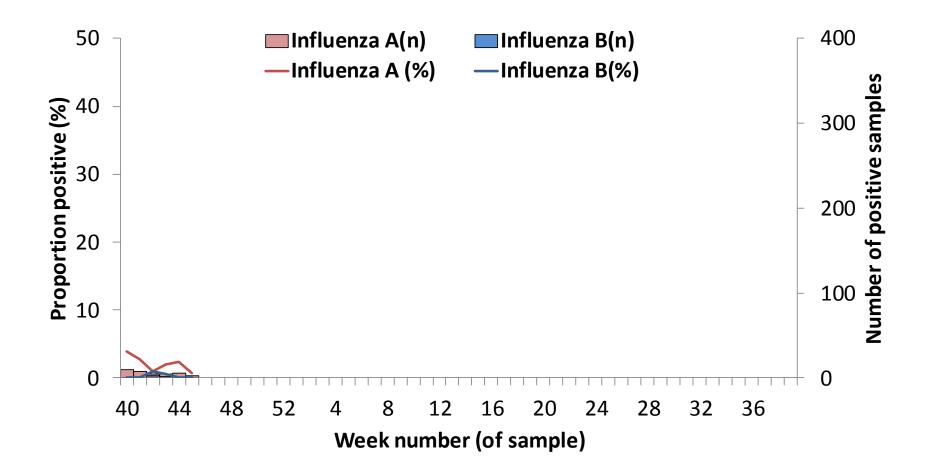

DataMart: Number and proportion of samples positive for influenza, by type, England

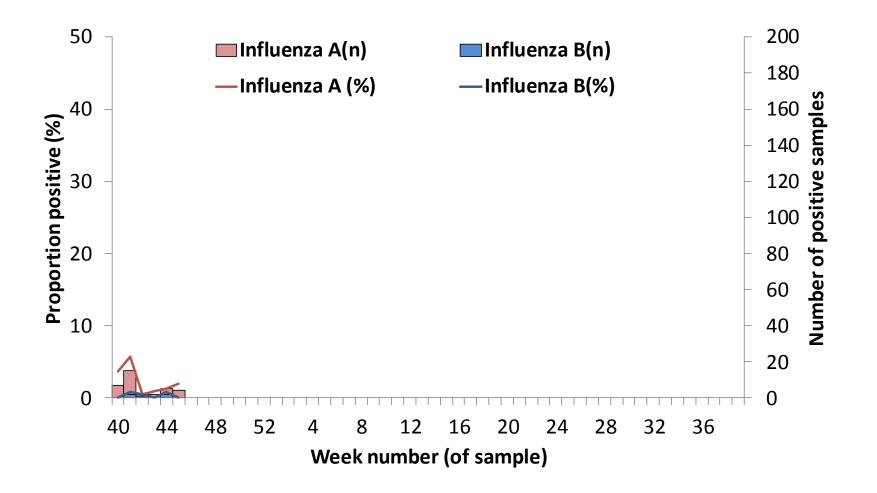

Public Health DataMart: Number and proportion of samples positive for England influenza, by type, PHE North of England

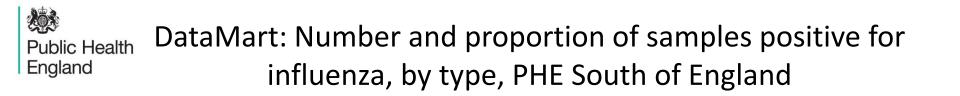

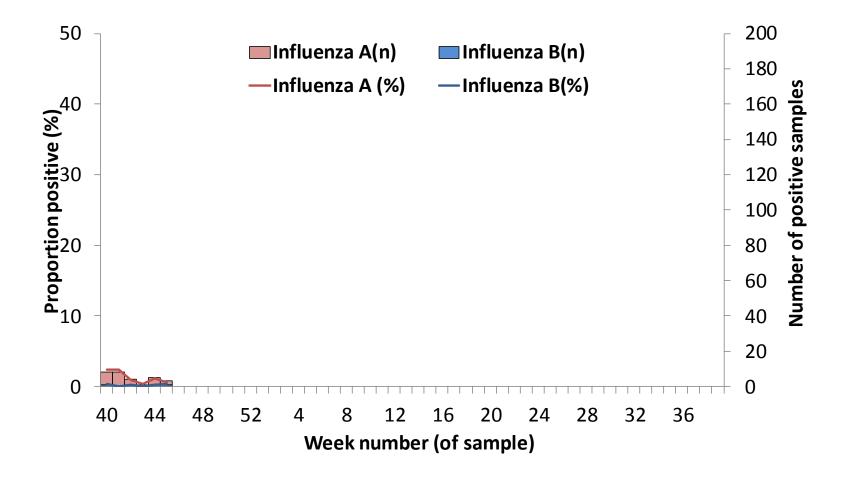

Public Health DataMart: Number and proportion of samples positive for influenza, PHE Midlands and East of England

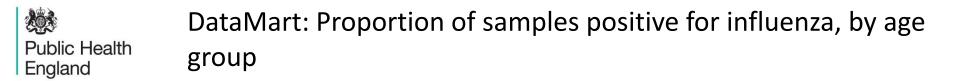

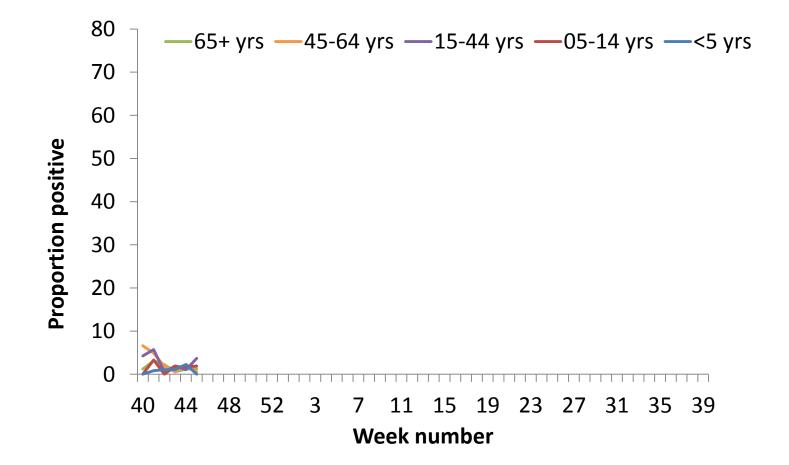

Public Health DataMart: Number and proportion of samples positive for influenza, by type, PHE London

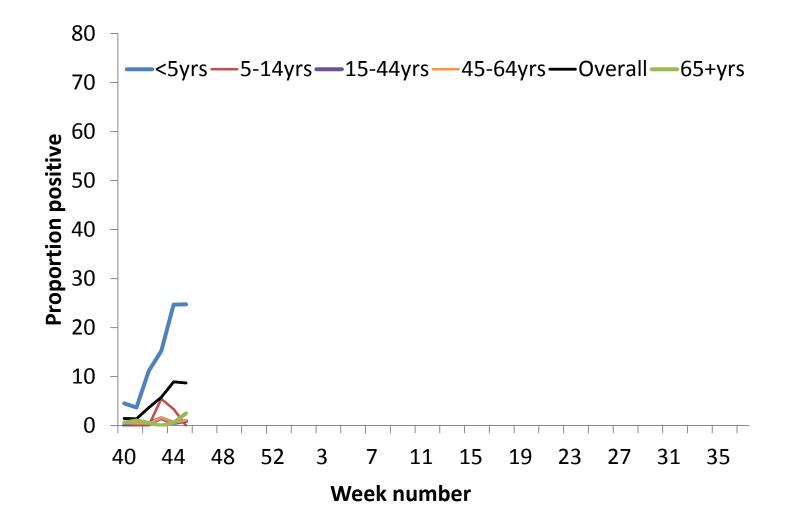

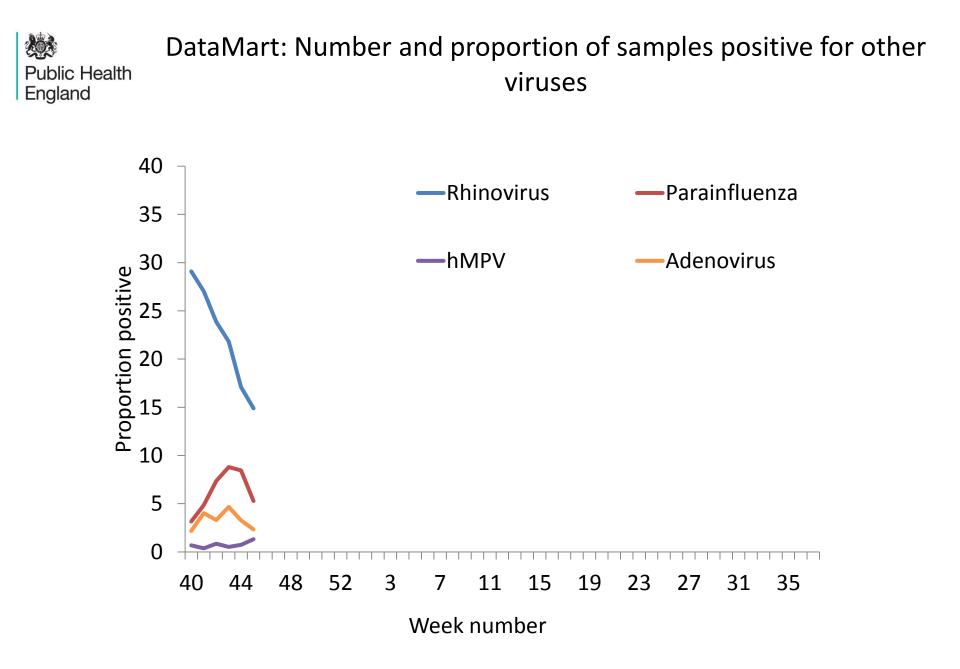

DataMart: Proportion of samples positive for RSV, by age group Public Health England

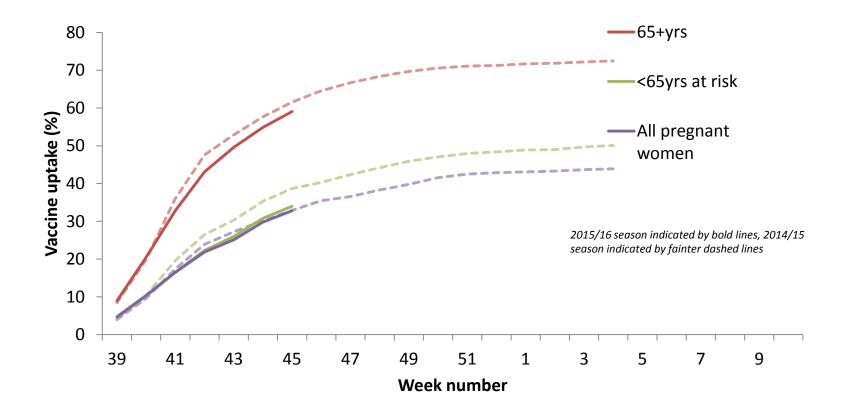

Influenza vaccination

12 November 2015

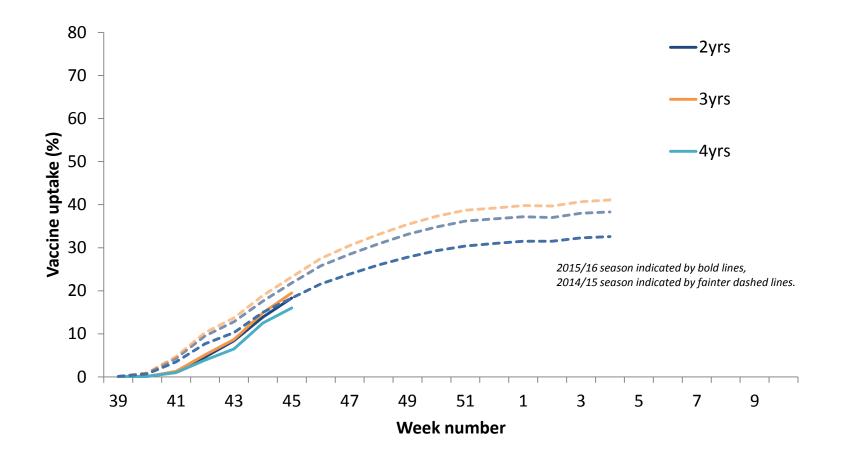

Seasonal influenza vaccine uptake in targeted groups, Public Health 2015/16, England

×
