## Newton Fund Researcher Links **Workshops** Results LATAM Regional Biodiversity Call 2017

**Eligible partner countries:** Argentina, Brazil, Colombia, Chile, Mexico, Peru

PARTNER COUNTRY	UK Principal Applicant Institution	UK Principal Applicant	Partner Country Applicant Institution	Partner Country Principal Applicant	Title of Workshop	Review Panel
Argentina	Royal Botanic Garden, Edinburg	Prof. Pete Hollingsworth	CONICET	Ph. D. Ricardo Villalba	Perspectives on plant dynamics and climate change in the Andes	Environment, Agriculture and Food Sciences Review Panel
Argentina	NERC Centre for Ecology and Hydrology	Prof. Matthew S. Heard	INIBIOMA, Universidad Nacional del Comahue, CONICET	Prof. Marcelo A. Aizen	Safeguarding Pollination Services in a Changing World (SURPASS)	Environment, Agriculture and Food Sciences Review Panel
Brazil	University of St Andrews	Prof. Thomas Robert Meagher	Instituto Nacional de Pesquisas Espaciais	Dr Jean Pierre Henri Balbaud Ometto	Remote Sensing for Biodiversity and Ecosystem Services Inventory	Environment, Agriculture and Food Sciences Review Panel
Brazil	University of Oxford	Prof. Yadvinder Malhi	Universidade Estadual de Campinas	Prof. Rafael Oliveira	Tropical Transitions: the role of biodiversity in resilience to global change of tropical South American ecosystems	Environment, Agriculture and Food Sciences Review Panel
Chile	University of Reading	Prof. Simon Potts	Centro Regional de Investigación Hortofrutícola de Valparaíso (Ceres)	Isabel Gonzalez	Biodiversity conservation and ecosystem services provision to improve economic, environmental and social performance in smallholder farms	Environment, Agriculture and Food Sciences Review Panel
Colombia	Middlesex University	Dr. Sara Calvo	Corporación Universitaria Minuto de Dios	Dr Jefferson Arias	Social innovation for maintaining and restoring natural capital in Latin America	Social Sciences Review Panel
Mexico	University College London	Dr. Richard Pearson	Centro del Cambio Global y la Sustentabilidad en el Sureste (CCGSS), and National Autonomous University of Mexico	Dr. Enrique Martínez-Meyer	Maintaining biodiversity and ecosystem services for sustainable development under a changing climate	Environment, Agriculture and Food Sciences Review Panel
Peru	University of Exeter	Prof. Toby Pennington	Universidad Nacional Agraria La Molina	Prof. Carlo Reynel	Valuing biodiversity and developing ecosystem service delivery models in densely inhabited Latin American dry and montane forests	Environment, Agriculture and Food Sciences Review Panel
Peru	Manchester Metropolitan University	Dr. Stuart Marsden	Universidad Peruana Cayetano Heredia	Dr Armando Valdés-Velásquez	Identifying priority biodiversity research and capacity building needs to inform sustainable management of South American dry forest resources	Environment, Agriculture and Food Sciences Review Panel
