SSgt Bates:

Okay, if you can just confirm, we actually stopped the interview before twelve forty one and we started some fourteen minutes later and the reason for that was, when we switched off the tape recorder to change tapes you asked if you could have a cigarette, so yourself and Mister Irvine went to the rest room, had a cigarette and then we're back to continue, is that correct?

S002

Yes.

SSgt Bates:

Okay, during that time the tapes were in the machine, are you happy Sir that they haven't been...

Mr Irvine:

Certainly, yes.

SSgt Bates:

Okay, right before the break, before we stopped to change tapes, we were talking about an incident whereby, sorry, you were relating an incident whereby you'd stopped a vehicle or stopped by a vehicle and the driver and passenger were taken out of the vehicle and restrained, is that correct?

8

S002

To the best of my knowledge yeah.

SSgt Bates:

Yeah, well it was only sort of ten minutes ago that we were talking about it. Is that what we were talking about before?

S002

Yeah, we were talking about that. What, what I'm saying is I can't remember if he got out of the vehicle or if we had to take him out of the vehicle.

S002 It's quite sketchy these days.

SSgt Bates: Yeah, that's okay, we're, we'll come on to that. So before then you were saying that you restrained him by, in an arm lock to get him onto the floor.

S002 Yeah.

SSgt Bates: Yeah, are you trained in restraint and arrest techniques are you?

S002 I have done a few lessons in it but not before we went out, this is you know, two years ago.

SSgt Bates: Right.

SSgt Bates: Okay. Is there anything you want to...?

S002 And for Northern Ireland training obviously as well.

SSgt Bates: Right. Is there anything you want to add at this point Rod?

SSgt Tolmie: Just, you've mentioned you can't remember whether you took them out of the vehicle or they got out themselves, I'm interested to know why you left your vehicle to go to this vehicle because earlier on in the interview you said that you would normally stay with your vehicle, why did you have to leave your vehicle?

S002 Because as I recall, [Redacted], S001 [Redacted] was having a hard time with you know, trying to restrain this person to the floor, so obviously I'd go

**S002** I can't remember, I honestly can't remember. This is, like I said before, it's not like something that would stick out in my mind, this is like a common day occurrence where we'd have to, you know, restrain people to the floor.

SSgt Tolmie: Well you can remember this incident quite clearly because you're...

Well obviously he was restrained but I can't remember who restrained him, in what technique or what methods they used. All I remember is helping S001 restrain you know, try to restrain this person to the floor.

SSgt Tolmie:

So you're putting an arm lock on him, I want you to be very, try and cast your mind back to that specific moment in time, okay, because it's very important that you try to remember exactly what you did, what you've seen, what's happening there.

S002

Bearing in mind it was three months ago.

SSgt Tolmie:

Okay, you, you've remembered quite a lot of details among that.

Six months ago.

Okay.

Can you remember, you said that S001 was having difficulty restraining him, can you describe to me what you mean by having difficulty restraining him?

was on the floor, who was already lying down on the floor, like pointing to him to say lie down, as in look at him what he's doing, do what he's doing and he just would not do it so you know, I honestly can't remember the struggle that I had to try and get him on the floor but however I do remember having to get him in an arm lock to do it because that's what I would have done to try and get him to go down on the floor.

SSgt Tolmie:

You said that's what you would have done, is that what you did?

S002

I can't remember, I'm, well, it's quite sketchy, this, this happened six months ago, I do, I do remember physically touching him, I do remember physically holding him, you know, to try and force him on the floor, I do remember trying to force him to the floor.

SSgt Tolmie:

And what was S001 doing when you were doing that?

S002

Was doing the same thing what I was doing I suppose, I can't really remember his actions exactly. I do remember him using his helmet to hit him to get down.

SSgt Tolmie:

Sorry?

S002

I said I remember S001 trying to use his helmet to try and force this person on the floor.

happened. I don't want to say to you this happened if it didn't. This is, I'm trying to remember.

SSgt Bates:

Okay, taking you back a step, you said before when you restrained people this was a common occurrence.

**S002**

Yeah because they just, either because either they probably didn't understand, I don't know why they wouldn't want to lie down on the floor so...

SSgt Bates:

So are you saying it was on a daily, weekly basis, that you would have to restrain people whilst out on VCP's and put them on the floor?

**S002**

Um, yeah, I would say it would happen at least once a day.

SSgt Bates:

At least once a day?

**S002**

Yeah. Or every other, once every other day, like sometimes we'd have a whole week of you know, people being awkward and another week it wouldn't happen once or twice.

SSgt Bates:

Okay.

**S002**

They're like, you know thereabouts.

SSgt Bates:

What do you class as being awkward?

**S002**

Awkward is when you know, when they can see someone else is lying on the floor and you're pointing to them, you know, and you're saying look just lie down on the floor; okay and you're forcing them, you know by force, if you're having to lie on the floor pushing them and they still don't want to lie down on the floor. where we have found weapons as well, as well as when we haven't found weapons.

SSgt Bates:

Right, so before you go out on your patrols then, what are your briefs regarding how you do this, how you restrain civilians?

S002

Use minimal force or whatever force you can to get them to lie on the floor.

SSgt Bates:

There's a difference between use minimal force or whatever force you can. Were you briefed to, that you were allowed to physically restrain civilians and wrestle them to the floor?

S002

I can't remember what the exact words were.

SSgt Bates:

I'm not asking for the exact words, I'm asking from your recollection, were you briefed that it was okay, it was acceptable for you, as a patrol, to restrain civilians on the floor?

S002

Yes.

SSgt Bates:

You were briefed on that?

S002

Yeah.

SSgt Bates:

And that was from who?

10 mins

S002

From a numerous amount of people. You'd hear it from your Section Commanders, from Officers, from, you know, this wouldn't just be like in that particular area, this would be like when we were peace keeping before or in war, they, just restrain them however you can.

SSgt Tolmie:

Was there any reason for the restraint, ie. did they have to be doing something to require them to be put on the floor? I mean if someone was standing there doing nothing, why do you need to put them on the ground?

S002

Because if you, if you feel threatened in that environment because obviously you know there are weapons, or you don't know there are weapons but you suspect that there are weapons, you know, especially in that area especially after people have been attacked or you know, ambushed in that area, local civilians, by other people, and rivalry farmers and, all their villages even before that, we've always found weapons in them so basically you just want to get them on the floor, okay, safe, so you can deem them safe. If they're standing up they're not deemed safe.

SSgt Tolmie:

Why not?

S002

Because they could run to a vehicle, they could run into a house, couldn't they, and get a gun.

SSgt Tolmie:

Well is that, they could do, but is that posing a threat to you at that time?

S002

I don't suppose they're posing a threat at the time if they're standing there but the possibilities of them running off, if they've already tried to run off in the first place would be pretty high because they're not...

SSgt Tolmie:

There's seven men there, on this, take this incident we're talking about there's seven of you there, these two men were in a vehicle, what did they do that made you feel they needed to be put on the ground?

S002

I felt that they needed to be put on the ground because of the situation that we were in, the fact that, if they were to be standing there they could of either attacked us, they could either of run into the vehicle to get a weapon.

S002: Fighting back.

SSgt Tolmie: Fighting back?

Mr Irvine: Well Officer, he has said that the reason he's suspicious, his suspicions were alerted was the fact that they'd driven away from a vehicle check point which is perhaps a good explanation for why you should explain caution.

SSgt Tolmie: Did you see anything in them, did they have any weapons on them?

S002

No we didn't see they had any weapons but they possibly could have weapons in the vehicle, is the reason why we wanted to restrain him so we could deem him safe before we searched the vehicle. Also in case he had a booby trap on him as well. What, what we tried to do is when we stopped someone, this is trying, we always search them, okay, if they've stopped at a VC, vehicle check point, we've searched them. The fact that they've done that willingly gives good faith and gesture that they're not trying to blow us and everyone else around them up. The fact that they turned away from a VCP point, drove into a village and an area where people have weapons, have been attacking each other, you know, deems them dangerous or unsafe or we, we're not sure what their actions might be. Obviously you don't want, the last thing you want is to like alright just stand there. The next minute they're going to their vehicle, pull out a gun and start, and put you in a situation where you know, you might have to, you don't want be put in a situation where they're starting to threaten you so what you want to do, you know, for their own safety and ours, to get them on the floor, search them on the floor where they can't run off or do anything to you.

If the area...

SSgt Bates:

Right, I don't want you to speculate and I don't want you to say what might have happened. What I would like you to do...

S002

I can't remember why we chased them but I do remember that there were two vehicles that we were driving after.

SSgt Bates:

And one of them stopped?

15 mins

S002

Yeah, one of them was so far ahead it just disappeared. The other one, you know, we saw it pull in, well before it had pulled in, it stopped, some people got off, then it carried on driving, I can't remember but I know it went into a village and then obviously as we drove past the village we saw it stopped, two people still in it. So we drove into the little village that it was in.

SSgt Bates:

Okay. So you can't remember how the people got out of the vehicle?

Yeah I clearly, I do remember actually having physical contact with him because the whole purpose of me leaving my vehicle, which I didn't want to do in the first place, is to help S001 get him to the floor to deem the situation safe so we could carry on. So I was searching them and searching that area to see if they've, because obviously they had got there, so what I'm trying to explain is they had got there before we had so we don't know if they've given another person a weapon, we don't know. We just wanted to deem that situation safe before we could actually...

S002 When we drove off some people were stood on the sides of the roads. I remember driving, I remember being told to stop. SSgt Bates: Who's he?

S002 S001 or whoever, whoever else was left their own vehicle to go and search them, but I can't remember.

SSgt Bates: Did you see these people being made to lie down?

S002 I didn't see them being made to lie down, like I say I just checked over my shoulder and seen what they were doing. I remember seeing them search them while they were lying down and then just got back in the vehicle again.

SSgt Bates: Come off the vehicle?

**S002** Or, they were suspected like people that come off the vehicle, that's why they were searched.

SSgt Bates: Right, were they male, female?

**S002** I think there was one female and about four males I think. I think there was at least three to four males.

SSgt Bates: Right, okay. Did you do a patrol, sorry was a patrol report done about this?

**S002** I don't know, it's not my, I just go back in, chill out, wait for my next tasking.

SSgt Bates: Right.

SSgt Tolmie: Did you have an interpreter with you?

**S002** No, only sometimes we had an interpreter but not that specific day. In fact I remember one incident where we had an interpreter.

SSgt Bates: When you were in the course of wrestling this guy to the ground, did you sustain any injuries?

Were you in front of the man or behind the man when you were restraining him?

I can't remember, this is what I'm trying to, this happened six months, it's not the only person I've restrained, it's just like a little two minute scuffle that I've, loads of different you know, times that I've tried to restrain people.

**S002**

Oh, yeah. This man had a cut eye with one of the scuffles that I wasn't involved with, I just saw he had a cut eye. I don't know what happened to him, I went over because I was quite concerned that he had a, you know, a cut on his eye so I thought well; I can't just leave him like that and thought I'd give him a band aid anyway to wrap up his eye and that's what I did.

Scuffles in a sense is restraining them because we found weapons in the vehicle or you know, we tried to get them to lie on the floor, as we're taking them away to lie on the floor, and then someone said there's a

S002

Let me think, I'll try and give you as much information as I can. See, I honestly can't remember, you know, if anyone got on or off my vehicle. I do, what I do remember is sitting in my vehicle looking over my shoulder waiting. That's what I...

SSgt Tolmie:

Can you remember who told you to stop?

S002

It could have been the bloke in the back because everyone would say like, oh stop, stop, stop, you know. I, did he, I don't know if he wanted to stop because the vehicle behind had stopped, this is what I'm saying, he could have said to me stop for, because the vehicle behind wouldn't stop, I can't remember who told me to stop. I think I, I think I do remember S001 telling me to stop but then I could have also had a gunner in the back, if there was one in the back telling me to stop as well. This is like a common occurrence where someone says stop, so when they say stop you stop.

SSgt Tolmie:

So would S001 have been in your vehicle?

S002

I remember driving S001 in my vehicle, yeah, on, because he'd got in my vehicle to say come on, let's go.

Yeah.

SSgt Bates:

On, this was on the Twenty Fourth of May. Can you remember that?

S002

Yeah I remember the SIB coming in and we were all allocated a witness to stand with us and obviously a RMP and you would just sort of like write things down, take, you know, give me this, give me that, so I give it to him.

SSgt Bates:

So what did you think about this then, being asked to hand over your equipment?

Yeah, I was thinking you know, why are they asking us, is, you know. I don't understand, I don't remember an incident, you know, that bad where

someone would have been murdered. This is what I'm saying, but obviously they come in and said someone's been murdered and you know, you're the only people in this area but then I also remember a couple of days later, if it was the same day that, on the patrol report we weren't even in that area so obviously because I know other people work in that area, not from my base because we have seen them in there, we're thinking maybe it's another unit. so I'm thinking maybe they just want to take our clothes because, just to see if we were, you know part of this, this so called murder that had happened.

SSgt Bates:

Right, so you weren't ever out on a patrol where anybody was injured, civilian wise?

**S002**

No I don't remember going on a patrol where anyone was sort of like, you know, deemed dead or murdered or because some would say, you know, something like that had happened, someone would say, fucking hell I suppose.

SSgt Bates:

So why did you give over your equipment on the Twenty Fourth then, you did it with your consent?

SSgt Bates: Okay, right then, as I said before we had a break, just over an hour now because we had to have a chat about a couple of things. What I'd like you to do is, obviously I've spoken to Mister Irvine in the break and he's had a long conversation with you, the incident that you related to us earlier on about whereby you said you were involved in a VCP and then you stopped by a vehicle and two people got out the vehicle and you helped restrain them, we want to go over that but we want to go over that in detail, okay, we're going to ask you some more questions about that.

S002 Okay.

SSgt Bates: Alright, now first and foremost, when you stopped by this vehicle, you said you, as the driver went across to help S001

S002 Yep.

SSgt Bates: Were you asked to or did you do that voluntarily?

S002 I done that voluntarily.

SSgt Bates: Why was that?

S002 Because he looked like he was struggling.

SSgt Bates: What were the other five members of the Section doing?

I honestly can't remember what they were doing. They possibly either were going to ground looking for, I can't honestly remember, I just know myself the reason why I would have gone over there was because no-one else was helping him.

SSgt Bates:

You said there were two civilians in the vehicle.

S002

Yeah.

SSgt Bates:

Who was dealing with the other one?

S002

I know some of the people were dealing with him but I can't remember who they were.

SSgt Bates:

Right. You said before that obviously you don't know all the people that are in your Section, do you what their nicknames were?

S002

Yeah, but I forget. If you was to tell me now like then I would remember again because it's six months ago, I don't really work with these people a lot.

SSgt Bates:

Right, I know their names but obviously I don't know what their nicknames are so...

S002

I know, I know S001 is called

SSgt Bates:

Right, S004

S002

I don't know, I can't remember if he had a nickname or not.

SSgt Bates:

S006 ?

Well, one of the guys you mentioned earlier on was someone called **\_\_\_\_\_**.

**S002**

**\_\_\_\_\_** yeah I know his first name is **\_\_\_\_\_**. I don't know his surname.

SSgt Tolmie:

Right, who else can you actually remember being part of the patrol, how you know them?

**S002**

**\_\_\_\_\_** I remember, can't remember what, if you've got photos I'll tell you, I can't remember.

SSgt Tolmie:

Can you remember who would have been the driver of the other vehicle, if you were driving one?

**S002**

No I can't remember what the driver is of the other vehicle. This is, honestly I, this is like, I honestly can't remember his, his details, I honestly can't remember.

SSgt Tolmie:

But you would...

**S002**

I would give it to you if I know but I...

SSgt Tolmie:

You would be able to recognise these people?

**S002**

Oh, if you give me photos I'd say yep, I recognise him.

SSgt Bates:

Okay. So how long was it from stopping the vehicle to the best of your recollection to you getting out and going to assisting **S001** **\_\_\_\_\_**

**S002**

Stopping the vehicle, I stopped the vehicle about a minute I suppose.
