| 2. MISSION | T1: Conduct BG surge into AL QUIBLA. | Unifying purpose: in order to disrupt AIF activity. |
| | T2: Strike Tgt ALPHAs. | |
| | T3: If sufficient evidence is found, detain suspect BRAVOS or UKMs. | |
| | T4: BPT decisively defeat AIF who are willing to attack MNF. | |
| 3. EXECUTION | | |
| Intent | To continue to the application of offensive pressure on AIF in BASRA by conducting a BG surge into AL QUIBLA to demonstrate that MNF can operate across the City with impunity. Initially the BG will strike known ALPHAs before dominating ground of our own choosing to demonstrate overwhelming capability. If AIF choose to attack they will be defeated. | |
| SoM | <p><u>Prelim moves</u> The AES Dog will fwd base to BP in time for Coy Os & rehearsals. RESA will liaise with OC Force Res Coy for Red 4 clearance.</p> <p>This will be a 2 Phase operation. Phase 1 will be the strikes and Phase 2 the dominate.</p> <p>Phase 1 <u>Route In</u> From H-90 ISTAR will cover the Tgt Area and insertion routes. At H-75 the Force Res Coy/Sqn Gp (incl BG Res) will dep the COB to clear their route to Red 3. At H-45 leads elms of Ch Coy will dep BP to clear the route for BC BG elms. At H-25, A/2RIFLES will dep BP and move to the Tgt Area, followed by B/2RIFLES, C/2RIFLES and the remainder of Ch Coy at pre-designated time intervals. C/2RIFLES will establish a rebro IVO Green 2. At H-Hour the Force Res (incl the BG Res) will move to clear Red 3 before moving into AL QUIBLA. They will leave the IEDD Team and FP elms IVO Red 2 to deny Red 1 to Red 3 to AIF. At this stage lead elms of A/2RIFLES will be approaching Red 2 along the Govt Road with lead elements of Ch Coy in overwatch of the AL QUIBLA interface. A/2RIFLES will insert next to strike A1, A2 & A3 and dominate Orange 2. A roof team will be inserted on the Old Post Office. B/2RIFLES will then insert to strike A53, A54 & A55. Ch Coy will insert last to strike A103, leaving elms to overwatch the AL QUIBLA interface with the Govt Rd.</p> <p>Phase 2 At H+ 60 the strikes will be complete. There will be no change for the Force Res during Phase 2 who will continue to block at the key AIF infiltration routes. A/2RIFLES will remain IVO Orange 2 and dominate the centre of AL QUIBLA and defeat any AIF who decide to attack. B/2RIFLES will extract W into the more open ground of SPRITE to a posn where they can decisively defeat any AIF who decide to attack. Ch Coy will also extract W to dominate the SW part of SPRITE and man the BG RV. <u>Extraction</u> At H+105 (on Os) the extraction will begin with the Force Res moving back through the centre of AL QUIBLA and through the BG RV picking up the BG Res on route. A/2RIFLES, B/2RIFLES and finally Ch Coy will then extract at [REDACTED] intervals travelling down the same route through the centre of SPRITE. Ch Coy at the BG RV will account for all vehs leaving the Tgt Area. Once clear of the BG RV, the Force Res complete will extract back to the COB, whilst BC BG elms will extract via HAMDEN JUNCTION to BP. The C/2RIFLES PI with the RRB will secure Orange 10 for this extraction. Any detainee vehs will be dropped off IVO HAMDEN JUNCTION under the control of A/2RIFLES who will secure an HLS. Detaining soldiers, detainees and evidence will then be flown out from the rural HLS coordinated through the BG Ops Room. A/2RIFLES will be responsible for escorting all detainee vehs back to BP.</p> | |

| QRF NTM | <ul style="list-style-type: none"> • BG Res - immed NTM on ground • BP in camp QRF 15 mins NTM |
| IRT | On call 30 mins NTM |
| SOI 390 Revision | Strike Coys are to conduct SOI 390 revision, especially a reminder of which paperwork needs completing. |
| Sensory Deprivation Eqpt | Strike Coys should deploy with 10 sets of sensory deprivation eqpt. This should consist of goggles with lenses covered by black masking tape, issue hearing protection and medium sized plasticuffs. Excess plasticuffs should also be taken. |
| Forensic Bags | Strike Coys should have (if reqd) clear bags and yellow RMP evidence tag attached for completion on the ground. Bag marked in black ink with: Op Name, Alpha Number, Bravo Number, Room Number, DTG of search completion. A piece of cord should be attached to the bag to enable it to be hung around the detainee's neck. |
| Evidence Continuity | Exploitable evidence may be captured during the op. RMP Evidence Collators (attd to strike gps) are to ensure that all forces are familiar with and apply the principles of Op CERBERUS before, during and after the op in order to maximise the exploitable value of that evidence. |
| Evidence Preservation | Exploitable evidence may be captured during the op. The following items should be gathered on target if seen: Mobile Phones. The ALPHA number from which the phone was confiscated must be clearly marked on the handset. It must also be recovered in the state found (switched on/off etc). Documentation. Mapping, GoogleEarth imagery, ID cards, official documentation, handwritten lists and letters, manuals, tables and printed material. IT Equipment. Computers, laptops, PDAs, external hard drives, DVD/CD ROMs, ZIP disks, floppy disks and memory sticks. Video/Still Cameras. Cameras, tapes and memory cards. |
| Search | All evidence collated is to be presented at the BPF. It is essential, for exploitation purposes, that the senior member of the AAST accompanies the evidence and is in a position to clearly brief to SO3 G2 Tgts (Capt Lucas), immediately on arrival, where each piece was obtained from. A statement will be required from those who carried out searches, preferably attributing evidence to specific individuals. Pictures and sketches should be used where possible. |
| Actions on | <u>Breakdown</u> : Self repair and recovery if possible. Min of 2 x vehs to remain with broken down veh until ES assets arrive.
