S009

This is an account of the events that occurred prior to the shooting on the evening of the 02nd of August 03.

Myself and S008 entered the building, I gave cover while S008 searched the rooms. S008 found the man hiding in the back yard, hiding in ~~the~~ an out house. We both tried to drag him out, however he was putting up resistance, we could not drag him very far. We tried to get him to his knees, so we could cuff him, but he would not go down, he continued to struggle and was being very resistant. So I hit him with the butt of my rifle, he still continued to struggle, so S008 hit him a few times with a baton. He dropped to his knees and S008 took out his hand-cuffs to cuff him. On seeing the hand-cuffs, the man grabbed S008 forced him to the ground, he then grabbed my rifle and tried to take it off me. As I didn't have a sling on

struggled to get my weapon away from
him. He still had ^{S008} [REDACTED] on hold down
I was very worried as I thought ~~he~~ he
was trying to get ^{S008} [REDACTED] weapon.
I took a step back and pulled the
trigger, nothing happened, he still had
hold and was struggling with ^{S008} [REDACTED]
I re-cocked my weapon and fired at
him, the man went down.
