

Preliminary flood risk assessment: Rochdale Metropolitan Borough Council

This addendum by Rochdale Metropolitan Borough Council (2017) updates the council's preliminary flood risk assessment report published in 2011. Read the addendum in conjunction with the [preliminary assessment report](#).

Addendum

The preliminary flood risk assessment (PFRA) and flood risk areas (FRAs) for Rochdale Metropolitan Borough Council were reviewed during 2017, using all relevant current flood risk data and information.

There is no change to your assessment of risk following the review of Rochdale Metropolitan Borough Council

Past flood risk

There has been no change in the assessment of risk since the PFRA published in 2011 and there are no required updates of significant risk based on events since then.

Future flood risk

There has been no detailed assessment of future risk based on flood events or updated modelling carried out by the Council at this point.

Flood risk areas (FRAs)

No Flood Risk Areas are identified in Rochdale lead local flood authority (LLFA) area for the purposes of the Flood Risk Regulations second planning cycle.

Other changes

There are no further changes in organisation or governance relevant to the purposes of this assessment.
