

Preliminary flood risk assessment: Manchester City Council

This addendum by Manchester City Council (2017) updates the council's preliminary flood risk assessment report published in 2011. Read the addendum in conjunction with the [preliminary assessment report](#).

Addendum

The preliminary flood risk assessment (PFRA) and flood risk areas (FRAs) for Manchester City Council were reviewed during 2017, using all relevant current flood risk data and information.

Significant reduction in flood risk areas have been identified as part of the review based on the revised surface water mapping and methodology to determine flood risk areas.

No updates have been identified to the preliminary assessment report following the review of new information since 2011.

Past flood risk

Flooding since 2011 has confirmed existing understanding of past flood risk in Manchester.

Future flood risk

Flooding since 2011 has confirmed existing understanding of future flood risk in Manchester.

Flood risk areas (FRAs)

No FRAs have been identified in Manchester.
