

Preliminary flood risk assessment: South Tyneside Council

This addendum by South Tyneside Council (2017) updates the council's preliminary flood risk assessment report published in 2011. Read the addendum in conjunction with the [preliminary assessment report](#).

Addendum

The preliminary flood risk assessment (PFRA) and flood risk areas (FRAs) for South Tyneside Council were reviewed during 2017, using all relevant current flood risk data and information.

There are no changes to our assessment of risk following the review.

Past flood risk

No flood events have occurred since publication of the original PFRA report in December 2011 that have added to or changed our understanding of significant flood risk in the South Tyneside area.

Future flood risk

We have not created or received any new information on potential future floods that has added to or changed our understanding of significant flood risk in the South Tyneside area since publication of our original PFRA report in 2011.

Flood risk areas (FRAs)

No FRAs are identified in the South Tyneside lead local flood authority area for the purposes of the Flood Risk Regulations second planning cycle.
