

Preliminary flood risk assessment: Wiltshire County Council

This addendum by Wiltshire County Council (2017) updates the council's preliminary flood risk assessment report published in 2011. Read the addendum in conjunction with the [preliminary assessment report](#).

Addendum

The preliminary flood risk assessment (PFRA) and flood risk areas (FRAs) for Wiltshire County Council were reviewed during 2017, using all relevant current flood risk data and information.

There is no change to our statement in 2009 that Wiltshire has no significant flood risk areas as defined and in accordance with the regulations and public guidance.

Past flood risk

No events of the magnitude necessary or other information to qualify as significant within the definition as set out in the regulations and guidance have been noted

Future flood risk

There are no Flood Risk Areas in Wiltshire and consequently there is no requirement to produce hazard and risk maps.

Flood risk areas (FRAs)

There are no Flood Risk areas identified to qualify as significant within the definition and regulations
