Dear [REDACTED]

I am writing in response to your request for information regarding the below. Your request has been handled under Section 1(1) of the Freedom of Information Act 2000. In accordance with Section 1(1) (a) of the Act I hereby confirm that the CNC/CNPA does not hold information of the type specified. The answer to all of the below are zero.

I am requesting information on group related child sexual exploitation within your Police authority area and would be grateful for your help with gathering some data. I am aware that there is no actual crime of Child Sexual Exploitation (CSE) but I would like information on the perpetrators of any group CSE / ICST (Internal Child Sex Trafficking) that has occurred in your Force area. In this case, I understand group CSE to involve 2 or more perpetrators.

The Offences that I am interested in are sections 5-15, sections 47-50 and section 58 of the Sexual Offences Act 2003.

I would like the following figures on each investigation / Operation since 2004:

- • **The outcome for each of the Operations (outcome codes are sufficient)**
- • **the age of each of the perpetrators (age bands are sufficient)**
- • **the gender of the perpetrators**
- • **the occupation of the perpetrators (listed separately if concerned about data protection)**
- • **the nationality of the offenders**
- • **the ethnicity of the offenders (self and officer-defined would be ideal)**

The Civil Nuclear Constabulary is a specialist armed police service dedicated to the civil nuclear industry, with Operational Policing Units based at 10 civil nuclear sites in England and Scotland and over 1400 police officers and staff. The Constabulary headquarters is at Culham in Oxfordshire. The civil nuclear industry forms part of the UK's critical national infrastructure and the role of the Constabulary contribute to the overall framework of national security.

The purpose of the Constabulary is to protect licensed civil nuclear sites and to safeguard nuclear material in transit. The Constabulary works in partnership with the appropriate Home Office Police Force or Police Scotland at each site. Policing services required at each site are agreed with nuclear operators in accordance with the Nuclear Industries Security Regulations 2003 and ratified by the UK regulator, the Office for Nuclear Regulation (ONR). Armed policing

services are required at most civil nuclear sites in the United Kingdom. The majority of officers in the Constabulary are Authorised Firearms Officers.

The Constabulary is recognised by the National Police Chiefs' Council (NPCC) and the Association of Chief Police Officers in Scotland (ACPOS). Through the National Coordinated Policing Protocol, the Constabulary has established memorandums of understanding with the local police forces at all 10 Operational Policing Units. Mutual support and assistance enable the Constabulary to maintain focus on its core role.

We take our responsibilities under the Freedom of Information Act seriously but, if you feel your request has not been properly handled or you are otherwise dissatisfied with the outcome of your request, you have the right to complain.
