

## **BUSINESS STATEMENT**

Mr Speaker, with permission, I should like to make a short statement regarding the business for tomorrow.

The business for tomorrow will now be consideration of a Business of the House motion followed by proceedings on the Northern Ireland (Regional Rates and Energy) Bill.

The House will then be asked to consider a further Business of the House motion before moving on to proceedings on the Northern Ireland Assembly Members (Pay) Bill.

Thursday's business will remain as previously announced, a general debate on the economy.

I shall make my usual statement announcing further business on Thursday.
