Thank you for your emails of 1 and 7 December 2017 asking for information under the Freedom of Information Act (FOIA) 2000, and Environmental Information Regulations 2004 (EIR). You asked:

I would like the full details of all the groups that have received funds for the following [Prosperity Fund](#) projects in Brazil (the descriptions are written as they appear in the Fund's database).

I was wondering if you could tell me which companies, NGOs or other organisations received funding for the following projects:

- *Oil & Gas Production and Operational Efficiency: increasing productivity and improving oil spills detection to promote sustainable sector growth in Brazil*
- *Brazil: providing clear oil and gas decommissioning guidance to develop a strong regulatory framework, guide sustainable sector development and protect the environment*
- *Energy Storage in Brazil: promoting low-carbon technology development through innovative regulation and public policies*

I am writing to confirm that we have now completed the search for the information which you requested. I can confirm that the Foreign and Commonwealth Office (FCO) does hold information relevant to your request. The names of the implementers funded by these projects are as follows:
