Summary

Within the local area of the UTC, it is proposed that four of the closest colleges may feel a minimal impact, whilst six may feel a moderate impact.

Conclusion

Overall, the unique offer of the UTC means it will be relatively small in comparison to existing providers and given the large catchment area, the UTC should not attract large numbers of students from any one school. In the light of the evidence available, officials see no reason why the Secretary of State should not enter into a funding agreement with the academy trust as a result of negative impact.
