## Conclusion

Overall, the unique offer of the UTC means it will be relatively small in comparison to existing providers and given its catchment area, the UTC should not attract large numbers of students from any one school. In the light of the evidence available, officials see no reason why the Secretary of State should not enter into a funding agreement with the academy trust as a result of negative impact.

\*Provisional (non-final) school performance data was used as part of this impact assessment. This is because the assessment was needed **before** the performance data checking exercise had been fully completed (and therefore, had to be made using the data available at that time). For this reason, the final performance measures for some schools may have been different from those shown in this report.
