

LINC with Sellafield Opportunity 4

Work Package 4/2018 – Horizon Scanning Capability

THE OPPORTUNITY

Work Package 4/2018

As technology development globally continues to accelerate, it is important that Sellafield Ltd is aware of such developments with a systematic identification and assessment capability that bring relevant emerging technologies to bear in support of the Sellafield Ltd mission.

To help us achieve this we have set the following objective:

1. To obtain support in our technology horizon scanning activity through use of 3rd party tools and systems that enable scanning and facilitate potential transfer/licencing of assessed technology.

Statement of Requirements

We are looking for SME's with experience of Technology Horizon Scanning on a broad front basis that can provide Sellafield Ltd additional capability to spot and assess relevant technology developments.

We are looking to award a 12 month pilot contract. Any future requirement beyond this LINC package will be subject to a separate competition.

Indicative expenditure range is between £25 to £40K

Deliverables:

1. A system/toolset and approach to enable Sellafield Ltd teams to perform relevant Horizon Scanning effectively, potentially including but not limited to areas of Patents, Technology Transfer and Licensing.
2. Training and support for users for effective use of the toolset/system.

Proposed Terms and Conditions:

Any contract (if any) placed subsequent to this challenge will be subject to the following standard form of contract: **CFMT 104 LINC Professional Services**

Proposal Requirements

SME's who are interested in this opportunity please provide a proposal addressing the following:

1. A statement demonstrating understanding of the Statement of Requirements, how it is envisaged they will be delivered and why you believe you are best placed to support Sellafield Ltd on this opportunity - **No more than 1 side A4**
2. Details of the proposed toolset to deliver including; hardware requirements for use, user licencing conditions, cyber security approach, user support model and any other relevant technical system aspects envisaged important to enable operation within Sellafield Ltd. **No more than 1 side A4**
3. A statement setting out how the proposed toolset will enhance the Horizon Scanning capability at Sellafield Ltd – **No more than 1 side A4**
4. A proposed maximum target cost for a 12 month pilot period.

Deadline

We will be holding an open telephone conference on 9 July at 12:30pm for any of our registered LINC companies interested in submitting a proposal to ask questions. To register your interest in taking part in the call please email linc@sellafieldsites.com and we will provide you with dial in details.

This opportunity is only available to SMEs registered on LINC at the time of publication of this challenge. (22 June 2018) – Registration for future challenges remains open.

To submit a proposal to LINC for this work package please email your proposal (including all associated attachments) to linc@sellafieldsites.com for *Work Package 4/2018 Horizon Scanning Capability proposal*, no later than 17:00pm (GMT) on 2 August 2018.
